WOOL

Wanted for Cash at
The Cash Store.

We have made extensive purchases in every department of this large store ready for a heavy wool trade. The month of June last year was our largest month, and we intend to make this June a record beaker.

We Pay Cash

for Wool and sell our Goods for Cash. Sell in the early markets is good advice, and by all means adopt the only proper system of dealing on a Cash basis. We could give you a long price for Produce if we choose to do so, by simply adding the difference to the selling price of our Goods—This idea is out of date now. We commenced the Cash for Produce idea in Durham and have proved it to be a success.

2,200 Pounds of BUTTER in Eleven Days is a GOOD Beginning

Our own make Single Yarn, 25c lb. in grease. Scoured and Twisted Yarn, 2 or 3 ply, 2 lbs. for \$1.00. Pure Wool Blankets, from \$2.50 pair. Wool Socks, 2 pair for 25c. Women's Summer Undervests, 5c each. Women's Corsets, 35c pair. Cotton Hose, 12c pair.

J. A. HUNTER

Departmental Store, LOWER TOWN. DURHAM, ONTARIO

Priceville.

This place was visited by frost lately but on account of the weather keeping cold and wet it did not do much harm as yet. Some are not done seeding yet and won't be for another week.

Chas. McKinnon, of the south line, is busy building this summer. The masons are at work now at the foundation of the large frame barn he is putting up. The McArthur's are also building, and have the frame up already.

Ex. Councillor D. McMillan has erected a new kitchen to his dwelling house recently.

On the evening of the 12th inst., there died in the village John Cockburn, at the age of twenty-four years, after a long illness which he contracted from a severe cold and which terminated in consumption. Mr. Cockburn was a young man that was highly respected by all who formed his acquaintance, and his death is much regretted in this place. He was the only son. His parents died years ago, and he and his sister lived together in the village. He was buried in the Presbyterian cemetery here on Monday the 15th. A large number attended the funeral. Rev. Mr. Matheson preached the funeral sermon, assisted by Rev. Mr. Humphreys.

What has become of the Pres. choir of late? Have they all got married and cannot sit up to the front, or is there any other cause?

Rev. Mr. Matheson will have prayer meeting on Thursday evening next at Currie's, south line, Ardenia.

Miss Della McLachlan of Buffalo is home at present and will remain all summer.

A fine monument has been erected recently to the memory of the late Rev. D. McLeod.

Miss Bertha James, daughter of C. C. James, is suffering with inflammation of the bowels, but we are pleased to hear that she is getting better.

Mr. David McIntyre of Balsam Valley had a narrow escape the other day from having a fatal accident. While he was taking home a load of hay from Mr. Haw's place and while in the act of getting on the load on the front end of the wagon, his horses started off on the full gallop, throwing Dave under the wheels. The furious animals jumped clean over the gate with wagon and load and turned into his own place where Mrs. McIntyre happened to stop them by some means or other. Mr. McIntyre escaped with slight bruises.

Rev. Mr. McConnel will lecture in the

Pres. Church on the evening of 31st May. He will also give some views, phonograph selections etc. A silver collection taken up in aid of the Christian Endeavor Society.

Misses Maggie McLean and Christina McDonald of the South Line, Glenelg, are enjoying themselves at their old homes after spending a couple of years with the citizens of Toronto.

Mr. Dan McQueen and family, of Stayner, are visiting Mr. Neil McCannell of Top Cliff.

Miss Susan McKinnon of Durham attended church here on Sunday evening last.

Miss Flora McIntyre who was in Toronto for some time for treatment, is getting on slowly, but gaining a little every day. Words fail her to express her thankfulness to Mrs. Mathews, the lady who so kindly received her to her home and administered to her wants during her stay there of some five weeks, all with free will and without the expectation of a pecuniary reward. We are told that a cup of cold water given in the right spirit shall not go unrewarded, so in like manner how much more will the actions of this Christian lady deserve a nobler reward than silver or gold.

Brave Men Fall.

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents at our drug stores. Every bottle guaranteed. 3

New subscribers can get THE REVIEW from now till the end of the year for 50 cents.

The effective results of spraying may be seen by an examination of Mr. Con. Koehler's orchard. It was one of the worst pestered orchards in town last year, being stripped of every vestige of foliage by caterpillars. They were about to repeat their devastations this year but a timely spraying with a mixture of paris green, copperas and lime brought their progress to a sudden stop and rid the orchard of the pest completely.—Ayton Advance.

THE AGRICULTURAL OUTLOOK.

The spring was somewhat late in opening up, winter staying right on until after the middle of April. But spring, as it to make amends for her appearance, came smiling, genial and warm. Work progressed rapidly, without an hour's delay, and vegetation sprang into life as if by magic; and now everything is as far advanced as in other years when spring opens much earlier.

Grass is in a forward stage, and pastures afford a good bite for stock, though perhaps yet somewhat soft. Last summer the "catch" of grass and clover was poor, and new meadows this spring are patchy and will not give a full crop of hay. Indeed in some parts of the district much of last year's seeding has been plowed up. Old meadows are in excellent condition, and the rapid growth with the late rains give assurance of an abundant hay crop.

Fall wheat may be described as patchy. Thaws and rains in March left water on the level exposed portions of the fields, and freezing, destroyed the wheat. The dry weather too, after spring came in, had a tendency to dwindle the weakened plants, and wheat has been thinned out to some extent. Some fields have been plowed up, especially in the southern part of the riding; the northern part suffering less severely, owing perhaps to the more rolling nature of the land and a greater depth of snow. In the north the crop promises an average of something better than a half; in the south it will not come up to that. For spring grains the soil was in splendid condition for seeding, and grain is giving promise of a good start. On the 14th and 15th there was a heavy frost, but the cool, cloudy weather following, somewhat mitigated its effects and not much injury has been done, except to garden stuff, currants, gooseberries, grapes, etc.

Fruit bloom does not seem to have been injured by the frost, and the prospects are fair for a good crop, unless perhaps some of the late fruit. Stock of all kinds are in very good condition and healthy. The number of young stock being above the average, and strong and vigorous. Altogether the outlook for the agriculturist is promising, and farmers should take advantage of favorable times to lay solid foundations for future prosperity.

Red Hot From The Gun.

Was the ball that hit G. B. Steadman of Newark, Mich., in the Civil War. It caused horrible Ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures Cuts, Bruises, Burns, Boils, Felons, Corns, Skin Eruptions. Best Pile cure on earth. 25c a box. Cure guaranteed. Sold by our druggists.

Elmwood has named their new industry "The Canadian Bent Chair and Manufacturing Company of Elmwood, Limited," and at a recent meeting appointed Messrs. Bohlender, Sullivan, Enke, Ruppenthal and Dr. Bean, directors. The charter is to be applied for immediately and a Committee are looking up a site to begin operations.

He generously told me how I ought to plant my seeds, he gave me pointers on the way to overcome the weeds; while I was setting out my plants, he came and stood around and gave me information as how to till the ground, he told me much concerning how a garden should be run what vegetables flourished in the shade or in the sun, while at home he had a garden which 'twas regular left to do the best it could by chance.

GOD SAVE THE QUEEN

—Hon. C.F. Fraser was a man of such capacity that we learned to forget that he was supposed to be the Cabinet representative in Ontario of a church but since his death it has been pretty well understood that Mr. Hartly represents the church of which Mr. Fraser was a member. That in making up a Cabinet the religious faith of any member be considered seems to us to be utterly wrong and that the practice should be general in Canada is an evidence of national weakness. But hitherto the right of Roman Catholic representatives in the Cabinet while unfortunately admitted by the leaders of both parties has not been offensively asserted. Religion should neither assist nor retard man's political career and we think that this committee is playing with fire when it undertakes to name a man for a Cabinet position because he is a Roman Catholic. There may be a Methodist committee to choose successor to Mr. Davis, a Baptist committee to appoint Mr. Dryden's successor, and so on. When the zeal of those church delegates falls under suspicion the appointment of priests and preachers ought to be expected to follow, and there is no telling where this backward road would lead to. The action of that Roman Catholic committee looks very much like an impertinence and it may prove a dangerous one unless fittingly checked by the Government.

It is a movement which we are convinced will meet with little sympathy among a very large element of our Roman Catholic population.—Weekly Sun.

Mrs. M'NAB—"I want three-sant herrin' if you please, Shopkeeper—I dinna keep them, ma woman. Ye see I'm a temperance man myself, and I dinna want to draw my customers into temptation."

FATHER OF ALL STEAM ENGINES.—There was released from active service in England the other day the oldest working engine of the world: it had literally been 120 years in the harness. It was made by James Watt and Boulton in Birmingham in 1777 for Birmingham Canal Navigation Company. It had a thirty-two inch cylinder and an eight-foot stroke and was by no means small, but a low pressure of steam was used. The engine has been pumping water ever since, but is now released, and will go into a museum.

RELIEF IN 10 MINUTES!

Every sufferer from catarrh who reads these lines will find in them a message of hope. No matter how severely he may be afflicted, no matter how many so-called remedies he may have tried, no matter how many physicians have experimented upon him in vain, no matter how completely he may have despaired of ever ridding himself of his disgusting and distressing malady—he can be cured! Hundreds upon hundreds of cases as bad as his have been fully and permanently cured by

DR. AGNEW'S CATARRHAL POWDER.

This wonderful remedy never fails if taken before catarrh has developed into other necessarily fatal diseases. Don't put it off—go at once to your druggist and get a bottle. It will relieve you in 10 minutes—it will place you on the road to full recovery immediately. It cures cold in the head, sore throat, tonsillitis, asthma, hay fever, loss of smell and deafness. Here is an interesting letter from

"When I know anything is worthy of recommendation, I consider it my duty to let my friends know it. I have used Dr. Agnew's Catarrhal Powder for the last two months in its effect. The first application benefited me within five minutes. I would not be without it in the house if it cost \$5 a bottle, as it will cure any slight cold I may have, almost instantly. As all druggists.

Dr. Agnew's Cure for the Heart relieves heart disease in 30 minutes. Dr. Agnew's Liver Pills—200 for 40 doses—are the best. Dr. Agnew's Ointment relieves in a day eczema, tetter and all skin diseases. Cures piles in 2 to 3 nights. 25c

Sold by MacFARLANE & CO., Durham, Ont.
