with nearly all medicines, is aim simply to treat the organ fluid. The parve centres Thousends bear testimony have been cured of these even when they have become BULLETS HURT BUT LITTLE of the projectile with such fore make them secondary missiles.

MODERN SMALL-BORE RIFLE.

most Certain and Painless Recovery the Fate Sowadays of the Soldier Stricken Down on the Battlefield.

Painless death or almost certain and painless recovery from his wounds is the alternative fate of the soldier stricken down on the field of battle by the medern small-calibre bullet, says a Washington letter. If a soldier is not killed outright his wounds almost invariably heal under antiseptic treatment. Of nearly 1,400 wounded men, for example, who passed through the bullet that army officers do not think hospital at Siboney during the Santiago it would be effective against a fanaticcampaign but three died of their al enemy; nor would it be effective in wounds, a fact which speaks volumes stopping a cavalry charge, in which for the efficiency of the army surgeons. Antisepsis, the small sized, steel jacket- bullet ineffective in bringing down big parted to it by high-power guns comhumane compared with the fighting of material shock, loss of blood or lacerathe past. Modern surgery and mod- tion of tissue. To meet their needs a In a remarkable degree the suffering ous wound, has been devised; and the of the wounded; in fact, wounds receiv- use of a similar deforming bullet-the ed in war may be said to have been British Government as necessary in its London Coroners are sticklers for the wounded, in last, wounds received the London Coroners are sticklers for British Government as necessary in its almost entirely robbed of the horrible India and Soudan campaigns against a road station recently, owing to the character commonly imputed to them, savage foe.
