Rheumatism & Dyspepsia Cur'd.

571 St. PATRICK STREET, OTTAWA, July 31st, 1896. To the Phenoline Medicine Co., Ltd. Ottawa, Ont.

GENTLEMEN.—On the advice of a friend I was suffering at the time, so what I feel now like a new man.

I have tried several remedies for rheumatism, some of which did me a certain amount of good, but nothing that I have taken has done so much for me as your Phenoline, and I have much pleasure in recommending it to other sufferers.

Yours very truly,
(Signed) JAMES CARROLL,
Foreman of Works, Rideau canal.
For sale by H. PARKER, Durham.

OUR OTTAWA LETTER.

Commissioner Ogilvie's report of his investigation into the charges so unsparingly and recklessly brought against his official staff has been received and laid before parliament. The full details of the evidence taken accompanies the report, and a perusal thereof makes it very apparent that the inquiry has been as exhaustive as it was possible within the limits requested in the Miners' petition which originally led to the investigation being ordered, and the sum total of the result is to prove that a dog-driver who had been employed as door-keeper at the Commissioner's office, had accepted a bribe to admit people out of their turn, and some of the clerks in the government offices had worked over time, and accepted pay for the same. Not the slightest evidence was discoverable of any crookedness on the part of the officials, nor could it be shown that any of them had personally benefited in the slightest degree in any dealings with the miners. The inquiry in fact is a complete vindication of the officials and, (as the Opposition insists upon the personal responsibility of the Ministers), it is a complete vindication of the Minister of the Interior and of the government also.

The Alien Labor Law. The government, in reply to strictures by the Opposition, has this week repeated the statement often made before that an agreement was reached at Washington to let this law be inoperative on both sides till the Commission had risen. Only at Buffalo has the law been enforced by De Barry but hundreds of other Canadians are crossing daily at other points, and these would at once be stopped should Canada put this disgraceful act in force. That De Barry is not called in is certainly surprising.

The Export Apple Trade. The discussion started the other day by Mr. McMillan, (Liberal South Huron), on the question of packing apples for the British market developed a fact which will be gladly accepted by the country, namely that the farmer is not responsible for the fraud which has been doing so much injury to the reputation of the Dominion; and it is only fair that the same publicity should be given to this statement that was given to the original accusation. This fact however only emphasizes the more strongly, the necessity of devising some means for stopping the present method, for another season or two of such unsatisfactory shipping will just about kill Canadian trade in the British markets. It is too bad that the farmers, who are the principal sufferers, and the country generally which suffers just as actually though less directly, should pay the penalty for the dishonesty of the comparative few who are the guilty parties. There is good reason to believe however, that the Minister of Agriculture, who has shown himself so thoroughly alive to the serious importance of the matter, will be able to devise some practical means of stopping trouble in future.

Note. The decision of the Grand Orange Lodge of British America, in annual convention assembled, to exclude for the future all persons engaged in the manufacture or sale of spirituous liquors from becoming members of the Order is a most significant indication of the growth of temperance sentiment in the country. It is strong evidence of the educational work which is going on, a work which will do far more to make the community sober and check the evil effects of the liquor traffic than all the prohibitory laws that could be placed on the statute books.

Honor Roll.

ADDITIONAL LOCALS.

Mr. Ed. Mortley has moved into the house near Mrs. Burnett's store.

Judge Morrison has given his decision in the Burnet case awarding \$22.50 and costs to the plaintiff.

Postmaster Chislett, of Ceylon, was in Durham, Wednesday, and gave the REVIEW a pleasant call.

Miss Nettie Brown and Mr. A. McDougall of the Review staff, in company with 2 loads of other young people, are picnicking at Hayward's Falls to-day.

When you are nervous and sleepless, take Hood's Sarsaparilla. It makes the nerves strong and gives refreshing sleep.

The Education Department has announced the dates for the high school and university matriculation examinations. Candidates in Form 1 will begin on July 3rd, candidates in Form 2 and Commercial Specialists, on July 5th, and candidates in Forms 3 and 4 on July 7th.

A SUBSTANTIAL GAIN.—I was very weak and hardly able to walk. My blood was thin and I was pale as death. Being told about Hood's Sarsaparilla I began taking it and in a few months I had gained twenty pounds in weight. I kept on with it until I was as well as ever." Arthur Mills, Dresden, Ontario.

Hood's PILLS cure nausea, headache. With the opening of the fishing season the inevitable fish stories come in, and of course they are pretty near the same from year to year. A commercial traveler, however, tells one that is a little out of the ordinary—and he vows that it is a truly true one, too. At the earliest moment the law would allow, three men of Wingham went to Durham equipped for a few days' sport. For three days they angled faithfully, and the result of their labors was one lonely trout. Their expenses were \$18 apiece. Fifty-four dollars per fish is rather a fancy price, even on a reserve.—Spectator.

NEW CREAMERY.—The Flesherton Advance says:—We visited Mr. Wilson's new creamery on Tuesday and found the workmen busy putting on the finishing touches. The building is a commodious and well equipped affair, 30x46 feet. It contains 5 cream vats and will have a capacity of 2000 lbs. per day. The churn has a capacity of 400 gallons of cream and the proprietor intends to add a second of like capacity. The necessary power is supplied by an 8-horsepower engine. Mr. Wilson will have five wagons on the road gathering cream, two of which started on Tuesday. The first churning was made yesterday, Wednesday.

AN INCIDENT ON THE 24TH.—At about ten o'clock, in an excess of patriotic zeal, a number of boys let off a huge rocket. Instead, however, of soaring heavenward, the naughty rocket made a bee-line for the fine sheet of plate glass window in Mr. Rankin's west show window. It went through the heavy glass like a shot and landed in a heap of fireworks which were piled up behind. For a moment there was silence, then—zipp! bang! bang! ripp! bang! bang! an infinitum. The store was filled with smoke, while in the front portion Catherine wheels, bunches of firecrackers, Roman Candles, rockets large and small, chased each other playfully round and round, whizzing, whirling, cracking and banging—a very pandemonium. The ice cream parlors in the rear were full at the time, a majority of the occupants being ladies. Of course they were much frightened, and for a brief space there was almost a panic. Most of them made their escape by way of a back stairs, but in a few minutes the stock was exhausted, and things settled back into their usual calm.—Ex.
