In the same no purpose, and was about to give bulk he seemed to be an island, and his weight was tons added to tons. spent ten years in his tank and had attention was momentarily attracted In a perfectly calm sea three boats grown fat and lazy. made fast to tow the whale down to the ship. We had been straining our backs for five minutes and hadn't got the great bulk moving yet, when a hammerhead shark about twenty feet long dashed in and set his jaws into the body just forward of the tail. As he got a firm hold he began pulling back and shaking his head, as you have seen a dog pull at a root when digging. As the flesh would not tear away, that shark kept reversing his engines until he had turned the big body twice around in a circle, and added to the weight of the body was the drag of our three boats. To get rid of him we had to almost cut him into strips with our harpoons. As to the go-ahead powers of a shark, perhaps his actual horse-power. At Sandalwood rushed. As he neared the boat he leaped clear of the water and landed amtives caught a big hammerhead who ong the men. In less than one minute Island, off the coast of Java, the nahad pursued a bather too far and had been stranded. A rope was made fast behind his head and the free end fasted out of driftwood. According to their shark rolled out of the wreck and went his way." statements the raft was about twenty feet square, and they piled at least a ton of stones on it. It was a bulky, unwieldly thing, and yet when they got shark and raft clear of the shore, the harnessed captive started off at steamboat speed and seemed to make little of the drag in his wake. He was
