

100,000 Pounds Butter Wanted

FOR CASH

Bring in your Butter to us and get the Spot Cash for it. We will pay you the highest cash price for it at all times. We commenced paying All Cash for Produce on the 1st of May, 1899, and we are pleased to say that the venture has proved a wonderful success.

Our Customers are all Highly Pleased. This is the only store in Durham that pays all Cash for Produce. The old-fashioned way of trading Butter for Goods is out of date.

GET YOUR MONEY FOR YOUR BUTTER

And then buy your Goods for Cash wherever you can buy the cheapest. This is sound business advice and we think you will agree with us. BUTTER BOXES SUPPLIED FREE OF CHARGE

We Carry the Largest Stock of Goods in Durham, and after you have received your money for your Produce, all we ask you to do is to allow us to show you what we have for sale. It's no trouble for us to show goods. We refund your money for all goods not satisfactory.

J. A. HUNTER,

DURHAM'S BIG DEPARTMENTAL STORE.

HERE'S A CHANGE FOR CAPITAL.

Where There is Fine Power Right in The Heart of Ontario.

Under the above heading on July 22 the Toronto World has a letter referring to the mineral possibilities of this district which will explain itself. Not so easily explained though is who the "Second Con. Glenelg Farmer" is who thus intelligently discusses the fast-becoming well known natural resources of this district. Whoever he is he should write more. Here is the letter:

Editor World:—I have been a subscriber of The Toronto World for the last ten years and, although a Grit in politics, I must say that The World excels any paper I know of for giving descriptions of water power, electrical science and the developing of new industries in the Province of Ontario. I notice that a great deal has been said about the resources of Northern or New Ontario, and nothing about the older part of the province, a few hours ride from the city of Toronto. In this section of the country there is an immense amount of (carbonate of lime) suitable for the manufacture of No. 1 Portland cement. I send you a sample of the article, so that you may see what it is. The writer of this has no doubt that 500 barrels of manufactured cement per day could be produced and shipped from the Durham station for the next 100 years. Parties in the town of Durham and the city of Brantford are contemplating the formation of a company for the working of the said material with a capacity of 300 barrels per day and paid up stock of about \$100,000. We hope to hear of inquiries from some of the Toronto capitalists about the stock of the anticipated company. A few million barrels could be got in town close by the G. T. Railway at a cost of less than half a cent per barrel. Less than half a cent per barrel of the material in town would pay for the finest site of about 25 acres, with G. T. Railway passing the site and the Saugueen River running through the property with a supply of water for manufacturing the cement. The one-half cent per barrel of the material in town would pay for site and mill in the town. The company propose to use the power of the Rocky Saugueen River, called Hayward's Falls, seven miles northeast of Brantford, and transmit the power per wire to the works. I suppose that the Rocky River took its name from the great masses of limestone rock along its banks. You can stand upon the banks of the river and look down at the great maple trees with their tops far under your feet. The Rocky Saugueen River is different altogether in many respects from the bulk of the Ontario rivers, as it does not decrease in volume of water as it flows principally by grand streams of purest living water. The whole river dashes over the rocks with a fall of 22 feet and just above the falls there is an almost natural dam, with an enormous fall to about 40 feet in all. The profitable industry that might be obtained by putting the electrical energy transmission ter-privileges together, over one thousand horse power could be got; second, manufacture of calcium carbide for quarries for building purposes, and fourth for building purposes, and cement from carbonate of lime. Second Con. Glenelg Farmer, Durham.

Bismarck's Iron Nerve.
Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pill. They develop every power of brain and body. Only 25¢ at our drug stores.

FACTORY BUILDING LET.

To Cost Nearly \$6,000.00—Brick Work to be Completed by October 15.

Tuesday evening last the Director of the Durham Furniture Co. let the contract for the new Building at the Station as follows:

Stonework and Brickwork to H. McDonald for \$2000. This to be completed by Oct. 15.

Carpenter work to Moffat and Moore for \$3025.

Roofing to Parrot for \$515.25.

Other tenders were in but those of local men were so favorable the directors were glad to be able to give it to them without doing shareholders an injustice.

At last then we are fairly in for this industry, and all well-wishers of the town will heartily wish it success.

AN AFFLICTED PARLIAMENT

Death of Speaker Edgar.

Tuesday's papers contained the sad intelligence that Sir James Edgar, the Speaker of the House of Commons, died on Monday evening. He came home to Toronto from Ottawa about 10 days ago, quite ill but never rallied from an operation he underwent before leaving Ottawa. He was 58 years of age and lay on his deathbed a widow and a family of eight.

Never before, we understand, has the "first commoer" died in office, and not only his honored position but the startling fact that he is the fourth prominent parliamentarian that has died within a few weeks, makes the removal a very striking one. Truly as Sir Wilfred said they had been living in the shadow of death. Parliament adjourned of course, after the Premier and Hon. Mr. Foster had paid eloquent tribute to the character of the deceased.

Besides the constant dropping off of Senators, 16 members of the present House of Commons have died since the general election.

Hon Mr Tarte is in Paris and his condition is not reassuring.

A Substantial Gain.

"I was very weak and hardly able to walk. My blood was thin and I was as pale as death. Being told about Hood's Sarsaparilla I began taking it and in a few months I had gained twenty pounds in weight. I kept on with it until I was as well as ever." ARTHUR MILLS, Dresden, Ontario.

HOOD'S PILLS cure nausea, headache.

SILVER JUBILEE.—The Sentinel, Toronto, has just celebrated twenty-five of existence by issuing a superb edition, finely illustrated, with order of prominent members of the order from Sir MacKenzie upwards. It has also a historical form of L. O. L. No. 1, organization in 1829 to date. An arrangement was issued and forwarded by Ogilvie R. Gowans, star of British North America.

Support the Firemen by your presence next Thursday, Aug. 10.

Havever they go to the garden and dig potatoes.

Peat Deposits near Hespeler are being drawn upon in an experimental way for fuel, and it is reported with excellent satisfaction.

FINGERS BEFORE FORKS.—Pate and Holden are denied the use of knives and forks at meals. What it is to have the name of a genius.

Judge Barret has decided that a County Council has no right to authorize the County Poor House Keeper to open letters addressed to the inmates. Mr. White, the keeper was exonerated from blame, as in opening a letter he believed he was following instructions and doing what he had a right to do.

PIONEERS' DEMONSTRATION.—On Friday last Port Elgin had a notable demonstration got up to honor the pioneers of Bruce Co. Addresses dealing with the early days were a principal feature. The idea seems an excellent one and we think something like it should be carried out in S. Grey. The number of those who braved the forests and endured pioneer hardships is an ever lessening one, and it would do this generation good to be called upon to honor the worthy sires, who 50 or more years ago did battle with the forest, ploughed among the stumps, thrashed their grain out with the flail and went to market or mill with oxen and a jumper. We invite communications and suggestions along this line.

The raspberries are ripe. At early morn the matrons, maidens and small boys, attired in costumes which would make the Clifford althumpians green with envy, are swarming over the face of nature, dotting the landscape and invading the honest farmers' back fifty-five in search of the luscious fruit. Nothing will turn this wave of progress. Barbed wire fences were effective bulwarks against the Yankee soldiers in Cuba, but such a fence is only incentive to greater effort to a woman in search of berries. The farmer's gate is thrust aside and generally left ajar so far that his live stock may get out and perchance meet at the same moment. Such signs as "No Trespassing" and "Keep off" are treated as jokes or ignored altogether and a short cut is taken by the invading lady and her brood through the farmer's tall wheat and they cut a wide swath. The progress of the invaders in helpless amazement. "Fer, gosh darn it any'ow, ye can't say anything to these town wimmen home, worn out, bedraggled and proudly displaying 40 cents worth of soggy berries. They have been chased by cows? butted by sheep and sucked dry by mosquitoes. Johnny fell off the fence and cut his head badly. Sally saw a snake and fainted, and Maw contracted a cold and headache which necessitated a doctor's bill of \$5 and several days discomfort for the whole household. Gentle reader, is this true or is it a dream.—Harrison Review.

Glorious News
To be lamed hand and foot for years by the claims of disease is the worst form of misery. George D. Williams, of Manchester, Michigan, tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters she is wonderfully improved and able to do her own work." This medicine cures nervousness, depression, melancholy, headache, backache, fainting and dizzy spells. This marvellous working medicine is a god-send to weak, sickly, run-down people. Every bottle guaranteed. Only 50 cents. Sold by our druggists.

DANGER OF SHOCK.—A young lady, Miss Jane Grier, while staying with a friend near Dunfries, was throwing back the clothes of her bed when about to retire. Some friend had placed a baby in her bed unknown to her, and on her hand coming in contact with its face, she received such a shock that she has since died.

Remarkable Rescue.
Mrs. Michael Curtin, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption, she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles, found herself sound and well, now does her own housework, and is as well as she ever was. Free trial bottles of the great Discovery at our drug stores. Only 50 cents and \$1.00. Every bottle guaranteed.

Volcanic Eruptions
Are grand, but Skin Eruptions rob life of joy. Bucklen's Arnica Salve cures them, also old, running and fever sores, ulcers, boils, felons, corns, warts, cuts, bruises, burns, scalds, chapped hands, chilblains. Best Pile cure on earth. Drives out pains and aches. Only 25¢ a box. Cure guaranteed. Sold by our druggists.

Died.
NICHOL.—At 184 Terauley St, Toronto July 30th 1899, Grace Christina, infant daughter of Rey Peter E. and Christina Nichol, aged 7 mos. 9 dys.

D. McPHAIL
