LAX DIVORCE LAWS CONDEMNED

Talmage Deplores the Easy Cutting Asunder of the Marriage Tie—A Timely Discourse on Unconsidered or Mercenary Marriages.

Washington, Sept. 24.—Dr. Talmage in this discourse discusses a question of national importance, which is confessedly as difficult as it is urgent.

That there are hundreds and thousands of infelicitous homes in America, no one will deny. If there were only one skeleton in the closet, that might be locked up and abandoned, but in many a home there is a skeleton in the hallway.

Some say that for the alleviation of all these domestic disorders of which we hear every day, there is but one remedy. God sometimes authorizes divorce as certainly as he authorizes marriage.

For many years the platforms of the country have been talking about a free love millennium. There were meetings of this kind held in the Academy of Music, Brooklyn; Cooper Institute, New York; and in the Temple, Boston, and all over the land.

What we want is that the congress of the United States move on the changing of the national constitution so that a law can be passed which shall be uniform all over the country.

of San Francisco, 333 divorces in one year; in New England in one year, 2,113 divorces, and in twenty years in New England, 20,000. Is that not easy enough? If the same ratio continues, the rate of multiplied divorces are not far from the time when our courts will have to set apart whole days for application, and all you will have to do is to prove against the man.

I want you to notice that frequency of divorce always goes along with the dissolution of society. In some states, years had not one case of divorce. Those were her days of glory and virtue.

Our ministers in some regions have no defense such as they have in other lands. The law must give a certificate that all is right, so clergymen are left defenseless and unable to do their duty.

a successful experiment. I never saw a successful experiment. But have a rigorous divorce law, and that woman will say, "If I am affianced to that man, it is for life, and if now, in the prize to be won he will not give up his cups, when he has won the prize, that woman will say to the man: "You are already married to that evil habit, and you are married twice, and you are a bigamist."

A rigorous divorce law will also do much to hinder haste and inconsiderate marriages. Under the impression that the relation without thought and without reflection. Romance and impetuosity are the main ingredients of the marriage. Perhaps the only thing that she likes his looks, and she admires the graceful way she passes around the picnic.

INTERNATIONAL LESSON NO. 1 OCT. 1, 1899.

Joy in God's House.—Psa. 122.

Time.—B. C. 1045. Place.—Jerusalem. Comment.—David, Israel. The book of the Psalms is the Hebrew hymnal, "the book of praises," the hymns being designed to set music and song in the worship of God, especially in the synagogues after the exile.

David, he being the only author mentioned in the New Testament, and his name appearing in more places than that of any other writer. He was probably the author of many of the psalms.

Our feet shall stand in David's time this was a rejoicing because the ark of God was to have a fixed habitation. The days of wandering in the wilderness were past and the people were settled in Canaan.

King of Israel. When the time came that he became king over all Israel he was able to see what good could come from his experience during his perilous times with Saul. With a soul filled with love and tenderness, man might have declared that he was not suited to the times when he reigned as king.

NOTES. Failures for the week have been 154 in the United States, against 173 last year, and 18 in Canada, against 16 last year. It is not usual for trade in Canada to show much expansion during August, which is always regarded more or less as a holiday market. But this year apparently August has proved an exception.

There is a decidedly firmer tone displayed in the local money market. This is in sympathy with the stringency in the loan market in New York. Rates in Canada have not been advanced and no loans have been called in by the banks, as the managers are not disposed to disturb the Stock Exchange values, as would be the result of calling loans at this time.

Bradstreet's on Trade. There has been a good deal of activity in fall trade at Montreal this week. A good many country buyers have been visiting the market and they have bought heavily. Travellers are sending large orders and the indications are that the selling business will be large. The mills are all very busy and staple dry goods are firm. Shipping business is active, large quantities of beef are coming forward from the west, and there is a good demand for cotton goods. There is not a great deal of new business in grain, but considerable shipments are being made. Remittances are good for this season. There is a good demand for various staple goods, especially cotton goods, which are readily obtainable at previously quoted rates on choice collateral.

Business on the Coast continues good. The retailers have been buying liberally in the expectation of a large demand for various staple goods. The fall trade has opened up very well and sales so far have been satisfactory. The bank clearings at Vancouver for the last week in August made a record, being \$1,061,847, the largest in the history of the clearing house. The salmon catch was large, and as the prices paid by the canners are high, running up to 30 cents, a great deal of money has been circulated. Building operations at Vancouver are being pushed to completion before the winter, giving employment to many men.

Trade at Toronto continues good. Travellers and letter orders are numerous and generally of a good size and the volume of trade so far for September has been unusually steady. The fall trade has opened up very well and sales so far have been satisfactory. The bank clearings at Vancouver for the last week in August made a record, being \$1,061,847, the largest in the history of the clearing house.
