Caw! Caw! In the hedges of the haw, Sparrows with their merry clatter Cheep and chatter-Naught's the matter! Marry! marry! naught's the mat-

Then it's ho! heigh-ho! All the waking world's aglow ! And the mirthful bells of Christmas Ring across the snow!

Down the garden Colin's calling-Mollie! Mollie! In the thickets of the holly Choruses the hidden starling, Saucy darling! You're behind her! Kiss her, kiss her, when you find her ! Then it's ho! heigh-ho! Who's for worry? who's for woe? When the wooing bells of Christmas Ring across the snow? :

Once Upon a Time.

My little child comes to my knee, And tugging, pleads that he may Into my lap, and hear me tell

The Christmas tale he loves so A tale my mother told to me,

Beginning, "Once upon a time." It is a tale of skies that rang With angel rhapsodies sublime

Of that great host serene and The shepherds saw one winter And of the glorious stars that sang

An anthem, "Once upon a time." This story of the hallowed years Tells of the sacrifice sublime, Of One who prayed alone and While his awearied followers slept;

And how his blood and Mary's tears Commingled "Once upon a time." And now my darling at my side, And echoes of the distant chime,

Bring that sweet story back to Of Bethlehem and Calvary, And of the gentle Christ that died For sinners "Once upon a time." The mighty deeds that men have told, In ponderous tomes or flowing

rhyme. Like misty shadows fade away But this sweet story bides for aye, And, like the stars that sang of old, We sing of "Once upon a time." -Eugene Field.

When Daddy Lights the Tree. We have our share of ups and downs, Our cares like other folk; The pocketbook is sometimes full, We're sometimes nigh dead-broke; But once a year, at Christmas time, Our hearth is bright to see;

When Daddy lights the tree. For weeks and weeks the litle ones Have plotted on this hour; And mother, she has planned for it Since summer's sun and shower. With here a nickel, there a dime, Fut by where none should see, A loving hoard against the night When Daddy lights the tree.

The tiny tapers glow like stars; They mintle us of the flame . That rifted once the steel-blue sky The morn the Christ-child came; The blessed angels sang to earth Above that far countree-We think they sing above our hearth When Daddy lights the tree.

The weest kid in mother's arms Laughs out and claps her hands, The rest of us on tiptoe walt ; The grown-up brother stands Where he can reach the topmost branch.

Our Santa Claus to be, In that sweet hour of deathless joy | lieu of a pin-cushion. When Daddy lights the tree.

Our grandpa says 'twas just as fine In days when he was young; For every Christmas ages through The happy bells have rung, And Daddy's head is growing grey, And yet a boy is he, As merry as the rest of us,

When Daddy lights the tree. "Tis Love that makes the world go round,

Tis Love that lightens toil, Tis Love that lays up treasure which Nor moth nor rust can spoil; And Love is in our humble home, In largesse full and free, We are all very close to heaven When Daddy lights the tree.

My Boyhood's Christmas Night.

Back through the mist of vanished years fond memory wings her way To f riends and scenes I knew and loved in childhood's blissful day; To comrades true who played with me around the firelight bright-O memory! let me live with them again this Christmas night.

Oh, let me take my father's hand and press it to my lip! And lay my head on mother's breast, her honeyed kisses sip! With sisters, brothers, steal from bed to place the candle light

In every window, as I did on boyhood's Christmas night. And dream again of Sinta Claus-the | fully tested. things I wished he'd bring. And sleep the sleep of innocence untouched by sorrow's sting : Wake to behold my hopes fulfilled-a

new day dawning bright-A day of joy-as once I did on boyhood's Christmas night. The stranger land may freely give all things the worldly prize,

And equal place the lord and slave in law and freedom's eyes; and pure delight The exile knew, in native land, on

every Christmas night. There is within the Celtic heart a something half divine,

Most tender, true and passionate-no stranger can define, That fits the exile to the land-wherever he may roam,

But claims his love, through weal and woe, to native land and home.

I have my share of bliss and joy-I know the pangs of wee-And hope still leads me to the steep where glory's baubles glow, But I would lay me down to-night, nor wake to life and light,

Mr. P. S. Sensby, of the New York Philosophical Society, says that if ere- | tence will be executed. mation, instead of interment, had been general in the U.S., 1,875,000 tons of would have been distributed in the air. | ren.

If 'twould restore the joys I knew on

boyhood's Christmas night.

MOULDER'S FORTUNE.

Geo. Barkley, of Hamilton, Finds a Cure for Sheumatism

He Makes no Secret About it-Everybody Can Have the Benefit of His Experience-Dodd's Kidney Pills are Within the Reach of all.

Hamilton, Dec. 11.-George Barkley, a moulder, of this city, is satisfied he has found a sure cure for Rheumatism at last. He, as is well known among his friends, has been searching for such a medicine for the last few years and until recently quite vainly. He has since been cured of his own case and he reasonably infers that the remedy that cured him will cure others.

Rheumatism is well known to be a disease resulting from disordered kidneys. That is nowadays an acknowledged fact. Uric acid, which should be filtered out of the blood by .the kidneys, remains in the system when those organs are unhealthy, and lodges in the joints, causing rheumatism. The reasonable argument remains therefore to cure Rheumatism by curing the kidneys. This is exactly what Mr. Barkley did. He used Dodd's Kidney Pills-the best kidney medicine in the world-and is today entirely free from his old complaint. He writes as follows: Dodd's Medicine Co.,

Gentlemen,-I have been for three years troubled with Rheumatism. 1 have tried several remedies but to no use. I could not get any relief. heard of Dodd's Kidney Pills and the wonderful cures they had made and decided to try them. I got one box and after I used half of this box I found I was getting better. I have used six boxes and now I can walk without my cane. I consider I am cured. I remain, yours, etc.,

DEATH IN THEIR FANGS.

Infallible Indications by Which Ven-

omous Snakes May be Known. To distinguish between venomous and harmless snakes is easy in practices, but it is difficult to explain in words alone, as there is no one external characteristic which distinguishes them. It is rather a peculiar varying union of many separate marks that brands the dangerous

Generally speaking, all snakes

may be divided into two great classes-those which have the head covered with numerous small scales those which have covered with large, regularly fitted plates. Leaving out the elipidae and the poisonous sea snakes, with which the hunter will have nothing to do, all snakes with small head scales move about by night, and those with the large plates on the head by day. This may be known by their eyes, for the first have vertical pupils like the cat, while those of the latter are generally circular form. The long, active day snake, gliding about from bush to bush, or hurriedly taking refuge beneath some protruding rock or tree stump, is harmless. Even should he lie coiled in the sunshine he will flee from approaching danger. But a serpent nicely coiled in some secluded nook, which, instead of fleeing, gathers himself closer together, is most probably dangerous, particularly if he be more or less marked with a suggestion of irregular cross-bars or whitish or dirty yel low and darker brown or blackish. This is the characteristic coloring of our most dangerous snakes, the rattler, the copperhead and the moc-
