Healthy, Happy Girls.

Healthy, happy girls often become languid and despondent from no apparent cause, in the early days of their womanhood. They drag along, always tired, never hungry, breathless and with palpi tating hearts after slight exercise, so that to merely walk up stairs is exhausting. Sometimes a short, dry cough leads to the fear that they are going into consumption. Doctors tell them they are anæmic-which means that they have too little blood. Are you like that?

More pale and anæmic people have been made bright, active and strong by Dr. Williams' Pink Pills than any other medicine.

Mrs. M. N. Joncas, Berthier, Que., writes: "My daughter, aged fifteen, has been restored to good health through the use of Dr. Williams' Pink Pills. She was very feeble, her blood was poor and watery, and she was troubled with headaches, poor appetite, dizziness, and always felt tired. After using four boxes of Dr. Williams' Pink Pills she is enjoying as good health as any girl of her age, and we are glad to give the credit to your grand medicine, Mothers will make no mistake if they last upon their young daughters takirg Dr. Williams' Pink Pills."

Do not take anything that does not bear the full name "Dr. Williams" Pink Pills for Paie People."
