So I thought I would that religious doctrine?

the worlds. That intelligence, which bean, and ir, four days after I passed we call God, is the conscious Ego of another, about the size of a grain the universe. It is in the universe, for of barley. This gave me great rethe universe and through the universe lief and I commenced to feel better that the divine thought is objectified. | and to gain strength. man with no sharply marked someone suffering as I did, I am yours lines of distinction. There is a dou- truly, ble evolution, material and spiritual. These two forms of evolution run parallel and jointly, life itself being but a manifestation of the spirit appear-

ing as movement. Third-The soul is elaborated in the midst of the rudimentary organisms. That it might become what it now is in man it had to pass her recent graduation. Her teacher blind and indistinct force in the mineral realm, individualized in the plant, polarized in the sensibility and instinct of the animal, the soul tends unceasingly toward that conscious monad in its slow elaboration, until at last it reaches man. In the animal in man it acquires consciousness and am glad I have a good, very good ment from any other preparation, Sold by druggists, price 75c per botcan never again go backward. But education, but I am not going to and a more extended use of Catarrh- tle.

prepares its material garb. Fourth-The evolution of the soul is infinite, and each existence is no more than a page in the book of etertained by the soul it has in itself the crowning synthesis of all the lower superior faculties, power, intelligence, love, which it is destined to develop in succeeding lives.

Sixth-In the intervals between these corporal existences the soul lives on its spiritual life. That life has no fixed limit. The happy or an argument. unhappy state of the soul is inherent in its own degree of perfection. The soul suffers from the very evil it has committed. Because its atten- plans to fit the inevitable. consequences of this evil, it under- of the other fellow. stands the pain and is stimulated to tions, and, the time having arrived, wish for. descends again into a new body, to improve itself by labor and study. It there is always someone who says always preserves the intuition, the "I told you so." formed before its rebirth.

Seventh-When the soul has ac- the garbage can. quired in our world the sum of progress which the state of that world ending, but too many people never admits, it departs to be incarnated | make any kind of a beginning. inasmuch as now the incarnation in the great wealth acquired by physia material body is no longer useful clans. to it, it lives an entirely spiritual It scares a female suffragist who the culminating point of progress, it a moustache coming. enjoys supreme felicity, having been There is one good thing about a admitted into the counsels of the Al. | charity concert for the benefit of the

Eighth-The soul has a fluid body, not obliged to attend.-Chicago News. the subtance or essence of which is drawn into the universal or cosmic fluid, forming and nourishing it as the air forms and nourishes the material body. This state of the soul is more or less ethereal, according to the

degree of its purification. There is thus an intermediary between the soul and the body; an organ for the transmission of all the sensations, Those which come from without make an impression on the and the soul, the conscious and intelligent being, receives it. When the action comes from the initiative of the soul it may be said that the soul wills, the intermediary transmits and the body performs the act. Such is the doctrine which, accord-

ing to M. Constant, will be the religlous faith of the future. He bases this of the past and partly upon that universality of principles which lies at the source of all the religions. It was professed by the Druids and by the great

Minard's Liniment Cures Colds, etc. doctrine partially upon the traditions

genuises of ancient times and of our day, and it is in conformity with all the beliefs of modern spiritualism. First News of Son in Nine Years is of -N. Y. Herald.

The New Wedding Ring.

Wedding rings are supposed to be always the same, but still the fashion of them has altered lately among the smart people. The newest brides are wearing plain gold circles which are two-thirds narrower than those formerly worn. When worn it is exactly like any conventional wedding ring. In reality it consists of two separate gold bands, each made in a spiral. These fit so closely together as to I know MINARD'S LINIMENT will form a perfect ring without visible joint. This marriage ring is symbolical of the joining of two into one

Minard's Liniment Cures Diphtheria. Kissing the Bride.

# Advice to

There are three great remedies that every person with weak lungs, or with consumption itself, should understand.

These remedies will cure about every case in its first stages; and many of those more advanced. It is only the most advanced that are hopeless. Even these are wonderfully relieved and life itself greatly prolonged.
