to Reduce Pretoria.

FORMIDABLE DEATH-DEALERS. Africa, says the Natal News, consists of two companies of garrison artillery, 15 Southern and 15 Western. It is commanded by Lieut. Colonel Perrott, whose Adjutant is Captain Currie, of the School of Gunnery, Shoeburyness. The Southerns, being a double company, number 300 of all ranks, and the Western 160. The former are armed with field carriages, and firing 118 lyddite shells. These weapons have an enormous range. They are sighted up to 8,500 yards, but if necessary, with a special charge, they can be used with effect at a dis- RIFLE SHATTERED IN HIS HANDS. ed and expert urtillerist, and body of men in the British army. of a second liper Findlater in the per- this means the "goodness" is ex- Mr. Hancock, of the Iroquois Ho- nineteenth century. Applications.

The annual report upon the asylums . for insane and idiotic persons will be iaid before the House this week. The report points out that during 1899 there were 711 applicants for admission to the asylums, as compared with 750 the previous year, a decrease of 48. The reduced number of admissions can be, in a measure, accounted for by the larger number remaining in charge elsewhere than in the Provincial asylums. For example, there were last year in Homewood Retreat 13, in the Kingston Penitentiary 36, in the common jails 77, and the applications for admission to the asylums direct 92. Taking the average for the last ten years, this is an increase of 64 provided for temporarily otherwise than and during last year 4,411, or an in- under General Gatacre at Sterk crease of 73. This number, added to scroom: the 64 provided for elsewhere than in the Provincial asylums, makes a represent the increased cases for the past year regarding asylum accom-

modation. There are 77 criminal lunatics in charge in the six Provincial asylums, guilty of offences, but acquitted by the courts on the ground of insanity. There are over 400 patients now in charge in the asylums who have homicidal tendencies of pronounced character, and, although not committed by the courts as criminals, are in many cases equally dangerous as the others, and are a menace to the safety of the patients generally. There are more than 300 epilepties also in the several institutions, many of whom could be much more satisfactorily cared for if domiciled in a separate asylum. The per capita rate of maintenance has been kept at the low rate of \$124.05 per annum. And in view of the fact that all the maintenance expenditure, together with the clothing for the indigent patients, is inciluded in the outlay, it must be taken as evidence of the uniform system of economy in practice in the institutions. The revenue from the institutions shows a favorable result for the past year. During the year ending Sept. 30th, 1898, the sum of \$72,-042.44 was received from 770 patients, while during the past year \$74,365.54 was received from 778

Advance in Higher Education. The advanced stages of education are becoming more thickly crowded. Twenty-five years ago only .05 per cent. of the population was enrolled 900 in 1876 to 449,600 in 1898. The a lot of hard fought battles are becreased in the same time from 73,740 to 105,225-there having been a decrease relative in the population. One firm had £1,000 commandeered; it was not good kicking, as we should have been arrested on charge of high treason. The hospital, exchange and churches are full of Report for 1899 Shows a Decrease in wounded and dying men, as are also all the large buildings in Pretoria." This is very unpleasant reading for those who have beld their belongings behind in Johannesburg, and naturally as time goes on their anxiety is growing deeper. Nearly three months have now elapsed since the war started. When the refugees left the Transvaal not one of them but thought he would be back by this time. I have met many miners in Cape Town who put their valuables down the mines in the hope that they would be safe from the Boers there. But by this time another enemy will have demonished them-that is the water, which is bound to have risen and destroyed these valuables.

in the asylums. During 1898 there letter dated 28th December from a ada Life Building, 42 King street dom comes around, made a tour of inwere in daily residence 4,369 patients. Govanhill lad in the 1st Royal Scots, west, Toronto.

AT THE FRONT.

We were aroused at daybreak on Sunday morning by the boom of artiltotal of 137, and these figures fairly lery, which proved to be the Boers opening fire. The fight lasted five and a half hours, and our brave fellows had to retire, repulsed but not disgraced. Such a sight I can never forget. To see poor fellows being brought in wounded in arms and legs, while one chap had a bullet pierce his shoulder and wrist as he was carrying his rifle at the slope. I came across a young officer who had been shot through the lung and was bleed ing to death. As I raised his beautiful curly head he opened his eyes, and smiled wanly, saying: "Never mind me, dear boy, it's all over with me." I bathed his forehead with water, and as I was doing so he died. I never felt so terrible in all my life. With a big lump in my throat and a feeling of hatred against the Boers in my heart I felt as if all the flends of hell had got hold of me. To make matters worse a terrific thunderstorm broke over us, and with only our thin khaki uniform on we were irenched to the skin. However, I did not mind a bit, I could only think of those dear boys lying in the trenches dead and dying. I cannot express my feelings on paper. but someone had blundered. Since then we have all come back to Sterkstroom where we do nothing but dig trench all day. At night to our tents or outpost duty. A very touching scene took place one night as we were gong up country. A missionary and a lot of niggers turned out as we passed through the village, and sang in Engligh that beautiful hymn "God Be With You Till We Meet Again." The heat, sand, and insects are terribly trying at times. I was brown on my return in the public high schools; now the from Barry last summer, but I am percentage is 0.61-the number of black now. How it will all end God such pupils having increased from 22,- only knows, but it is evident that number in private high schools has in- fore us; but, cheer up, there's a good time coming, when we all come doubling home after knocking spots off

Now Before the Public.

Toronto, Feb. 22.-"It is laughable to read the claims put forward by many vendors of patent medicines, with regard to the alleged effect of their preparations in Kidney and Bladder Diseases. The columns of stuff published in praise of these socalled remedies, show the writers' ignorance of the most elementary principles of medical ocience. It is a firmy-established fact that these diseases are due to the action of germs, which literally ent away the substance of the kidneys. In order to cure the disease we must kill these germs. Now there is only one medicine on earth that does kill the germs of disease. That is Dr. Arnold's English | cis Leclaire, one of the men employed | rather netting, the meshes of which sician, yesterday. "I know a man, on a sled and taken home, where grave ends to posts which may be made of named Jones-J. discussion in the English press respecting the status of Catholics in the Transvaal. On one hand, Dr. Leyds has set out to counteract the feeling in Europe that Kruger is hostile to Catholics to the point of persecution, while on the other there has been a great deal of testimony adduced in confirmation of the view which generally obtains. The Tablet, the Catholic organ of England, has taken a decided stand on the question, and quotes from the statues of the South African Republic to show that Catholics are excluded from Government positions. Law No. 2, of 1899, in relation to the civil service, enacts as follows:

Article 15-Applications must be written in the language of the coun try, and must be written in the applicant's own handwriting. They must be accompanied by a certificate of burghership from the field-cornet of the district, which must state clearly
