A reporter of the St. Catharines Journal visiting Wellandport not long ago heard of one of those remarkable cures that have made Dr. Williams' Pink Pills famous as life savers the world over. The case is that of Perley Misner, son of Mr. Mathias Misner, who had suffered from hip joint disease and abscesses, and who had been under the care of four doctors without beneficial results. Mr. Misner gave the particulars of the case as follows: "In the spring of plain of an aching in his hips, and later my attention was directed to a peculiar shamble in his gait. As the trouble gradually grew upon him I took him to a physician in Dunnville, who examined him and said the trouble arose from a weakness of the nerves of the hip. This doctor treated Perley for weeks, during which porved at first, but later was taken "Bobs" for lo! these many years. in three places, but would not heal. A third doctor advised a surgical operation, which he objected to, and a fourth medical man then took the position by a pulley system so as to limb. This treatment was continued six weeks, causing much pain, but nothing in the way of benefit was twice and thrice a day for months, and frequently, despite the aid of crutches, it was necessary for me to carry him in my arms from the house to the vehicle when taking him out. In October, of 1893, I decided, other ment. After this Perley continued | tact in dealing with all around him, fame. with constant improvement and new British hopes which are counting on Roberts has been commander of the vigor, and after taking about 18 his skill to counterbalance the extreme boxes the absecss was nicely healed, mobility of the Boer forces, from walk for miles. The Sweet Pea.

The sweet pea is said to have an international bicentenary celebration this year. It was introduced into British gardens from its home in eastern Europe just 200 years ago. The fine blossoms and extensive range of colorings which are now obtained are, however, of comparatively recent date, having been produced during the last quarter of a century or so by the efforts of growers like the Shropshire firm of Eckford and the American firm of Burpee. The arrangements for the bicentenary include an exhibition in London next July, with prizes for bunches, collections and decorative effects, a conference of expert grow ers and perhaps a banquet
