Binder Twine.

These who read only the bitter attacks of the Mail and Empire on the powers that be, or peruse the specious literature franked through the mails on the above subject by "C. Kloepfer, M. P.," might be apt to form the opinion that the whole Liberal Government should be behind the bars of the Penitentiary.

That any great percentage of farmers believes that the Liberal government is less friendly to them than were their predecessors, we do not believe, the memories of 'red parlour' conferences are not yet forgotten in which manufacturers met with the Conservative government and formulated their demands.

However, to show what the tender mercies of the Conservative Whip, Mr. Taylor are,—and he will fairly represent his party,—we give the following statements made by him to Mr. Alex. Saunders, Manager of the Organ factory at Goderich, during the West Huron election.

The letter from Mr. Saunders to the Huron Signal was read by Dr Landerkin to a Clinton audience, and is as follows as it appeared in the Mail and Empire of that date:

"Dear Sir,—I notice that the speakers for Mr. McLean (the Conservative candidate) are telling the farmers what the Tory Government would do for them if they got in power; yet strange to say, the story they tell on the other side is directly opposite. I had a call from Mr. McLean and his henchman, Mr. Taylor, the Conservative Whip in the Commons, at my office on Wednesday morning, and during our conversation Mr. Taylor said: 'What is the use of pandering to the agricultural vote? The present Government is doing too much of that. What we want is more protection to manufacturers. The Government is doing altogether too much for the farmer. If we (the Tory party) were in power we would raise the duty on agricultural implements to 45 per cent., and there would be no free binder twine or barbed wire. It is the manufacturer we are after.' Well, I remarked, 'That is a proper story to tell me, Mr. Taylor, but it would not do to talk that way to the farmers.' The above shows the kind of men who are helping Mr. McLean."

When Mr. Taylor's attention was drawn to it by a representative of the Mail and Empire, he characterized it as "a blundering of half truths and falsehood." Now Mr Saunders' letter was read Thursday, the interview was the day before, and as Mr Saunders' veracity cannot be reckoned lower than Mr Taylor's, the advantage of memory is on his side because Mr Taylor did not say the above quotation till Friday.

However his own words as quoted in the Mail and Empire are interesting: "What I did say to Mr Saunders was that the Conservative Government had made a mistake in reducing the duty on agricultural implements, and I stick to that statement."

DEEDS OF SCOTCHMEN.

Contributed by Mrs. John McQueen.

George Stephenson built the first railway in the world in 1825; he was of Scotch descent. Scotchmen signed the contract for the building of the C. P. R. and drove the last spike in the Rocky Mountains. The first Bishop in Ontario was a Scotchman and so was the first Premier of Ontario. The first Premier of the Dominion was a Scotchman, and nearly all his successors. The inventor Edison's mother was a Scotchwoman and a Canadian. The first Steamship that ever crossed the Atlantic by steam alone was built at Montreal by a Scotchman named Campbell and commanded by John McDougall also a Scotchman. The C. P. R. 4000 miles in one stretch under the flag of Great Britain was built by a Scotchman. Scotchmen are the best contractors, the best machinists, the greatest inventors, the most successful and reliable business men, the best citizens, the best on the battlefield and the most loyal to their country. Gladstone is of Scotch descent. Scotchmen excel as heroes, poets, and writers. Wallace, Burns, Bruce, Sir Walter Scott, Gonn, &c. love and patriotism to their country, is what made them so distinguished among men and respected at home and abroad. The 78 Highlanders were the first to climb the Heights of Abraham at the taking of Quebec; the Scotch broadsword swept everything before them and the Union Jack went up to stay.

ADVERTISING PAYS.

provided that the advertiser is able to do what he advertises to do and a man is a fool to pay good money for advertising what he is not able to carry out for the public soon find out that such a man is a deception and a fraud. I am not professing to do business for fun or entirely for the other fellow's benefit but I have found during the twenty years that I have been doing business in Hanover and Durham that I can make the most money for my self by doing the very best I can in every instance to save money for my customers. Every customer who once does business with me to his own profit continues to patronize me and gives me, not only his business, but his influence and this accounts for the very large business that I am doing to-day. Farmers are now busy and will not be paying much attention to business affairs while busily engaged on their farms. Some of them, however, will require to borrow money and I wish to say that I am at present lending at five per cent and in some cases at less. I am also paying closer attention than ever before to the collection of old debts and claims placed in my hands will be collected if it is possible by any means in the world to get the money—no charge for my trouble if nothing collected. I also buy old notes. I have had great success in settling up and arranging business entanglements and difficulties and in making settlements with creditors and any such business placed in my hands will be faithfully attended to the profit, I think, of them who deal with me. I have always a number of farms in hand which I am able to sell at very low figures and on very easy terms. After so long a residence in this locality I have formed a connection with all the leading Loan Companies and when they have farms in hand for sale they are placed in my hands and I am thus always in a position to offer bargains. I have always on hand farms and other properties belonging to myself which I am always ready either to sell or exchange for other property. Just now I happen to have a splendid 100 acre farm and a very fine 64 acre farm, both well situated in Bentinck and each having good buildings. I will sell them or trade them. I also offer at a sacrifice Lot 28, Con. 2, W. G. R., Bentinck, 100 acres, belonging to a man who has gone out west and is bound to sell at some price. I place insurances in good companies at lower rates and in fact attend to all kinds of financial business. My rule continues to be "Always prompt—never negligent."

ROB ROY.

Mr Sam McComb returned from O. Sound last Monday.

Miss Susie McKinnon, of Fairwell Corners, paid a brief call to her uncle Mr S McComb one day last week.

Dr McCormick, of Wisconsin, returned home Tuesday after an absence of several years. The Dr.'s many friends here join in welcoming back an old schoolmate to visit the old homestead.

Mr Dave Brown has been under the weather of late, but is recovering now we are glad to relate.

Mr Chas. McArthur raised his barn Thursday. His boys worked well and the barn went together in a hurry. The last and best part came in the evening. The company heeded it down till the wee sma' hours. They then dispersed, musing over the good time they had and wondering where the next raising would be.

Miss Anna Ritchie, of Port Arthur who has been visiting at her uncle's Mr A C Beaton's for the last three weeks left Sunday to visit other friends in Holland Township. Miss Ritchie has made many friends during her brief stay here and all were sorry at her departure.

Mr Robt McFadden accompanied by his two sons took a trip to Owen Sound and other towns north last week.

Mr Alex McArthur, of Durham, visited friends in this part Sunday last.

One of the pleasing events of the season took place at the home of Mr Thos McFadden's last Tuesday evening when the young people around met to have an evening of pleasure. The evening was taken up in music and games. All enjoyed themselves immensely and would be pleased to spend at other evening with the McFadden family in the near future.

What we would like to know? What makes J look so and since Sunday night. If Sam managed to get out of the dry goods box the night of the raising.

Live Stock Market.
Toronto.
Western Cattle Market Friday.
Trade active.
Receipts moderate.
Hog market firm.
Export cattle steady.
Sheep and lambs firm.
Poor stock in slow demand.
Receipts today were 61 carloads, composed of 800 cattle, 800 hogs, 687 sheep and lambs, 75 cows and 28 calves.

Notwithstanding the excessive heat this morning there was an exceptionally good trade in all lines.
Export Cattle.—There was a large supply offered and choice grades were rapidly picked up by local shippers. The supply included a number of inferior grades which were not wanted. The prices showed no quotable change from yesterday, but the market was not as firm as in the early part of the week, the warm weather, no doubt, being accountable for this change. The ruling price was \$4.50 to \$4.75 per cwt for choice selections and the same for lighter stock. One bunch of extra choice heavy exporters, averaging 1,323, fetched \$5.25 per cwt and it was reported that another bunch brought a still higher price.
Butchers' Cattle.—Although the supply was not large the market remained firm. The ruling price was \$4.50 to \$5.12 1/2 per cwt for choice selections and \$4.50 to \$4.75 for lighter stock. A few bunches were left over in the pens at the close. Common and inferior grades were in heavy supply, but were unsalable, at prices ranging from \$3 to \$4 per cwt.
Stocks and Feeders.—Canadian stockers for Buffalo were a little steadier and the bulk of the offerings was made up of good stock. Choice stockers, 40 to 70 lbs, fetched \$3 to 3.50 per cwt and lighter stockers and heifers brought \$2.25 to 2.50 per cwt.
Hogs.—An unusually strong feeling prevailed in this line to-day, the large supply meeting with a brisk demand at steady prices of \$5 to \$5.00 for good hogs.
Sheep and Lambs.—Prices for sheep underwent no quotable change, but lambs were a little firmer, being quoted at \$4.50 to 4.75 per cwt. Choice butchers' sheep fetched \$2.50 to 3.50 each, and export ewes brought \$3.75 to \$4 per cwt. Bucks were quiet at \$2.75 to \$3 per cwt.
