DURHAM, THURSDAY, SEPTEMBER 13 1900.

WHOLE NO. 1173.

## FIREMAN'S PICNIC.

The picnic season is fast departing. What about the annual Fireman's picnic? The town is equal to its full duty as of old we hope.

Trinity Church and Allan's School House congregations will hold their annual Harvest Home Thanksgiving services on Sunday 23rd inst. The Rev. W. G. Reilly of Chatsworth will conduct the services and preach.

To-day—Thursday—the Conservatives of E. Grey meet in Convention in Markdale to select a candidate for the Commons, and Centre Grey will at the same time select one for the local house.

HOTEL CHANGE.—Mr. Hahn, formerly a hotelkeeper in Ayr has bought out Mr. Beatty's interest in the Middaugh House and takes possession on Thursday of this week.

RECOVERING.—Several of our sick people are now moving around again completely recovered. Sorry to hear Mr. Benton is not improving fast and Harriette Davidson is under the weather.

A couple named Newton Lord and Jennie Helder was married in a nearby town some days ago, and the editor of the local paper was almost clubbed to death by the indignant groom because he made use of the heading "Lord-Helder."

Dr. Hutton, late of Priceville, has removed to Durham where he will carry on the practice of his profession. Office in rear of Durg Store, Calder's Block, (next door to Dr. Holt, Dentist.) Will visit Priceville daily until further notice.

The improvements under way at the Presbyterian Church are now making a good appearance. The walls are up and the gable end and roof will soon be put on. The addition to the church and the octagon will present a fine appearance from the south.

A meeting of the Board of Health was held here on Tuesday. The object of the meeting was to make arrangements for the arrest of the diphtheria epidemic in the neighborhood of Orchard. The Board voted that all infected dwellings should be placarded.—Ayrton Adv.

The Listowel Business College and Short-hand Institute has the reputation of graduating a higher percentage of pupils, in shorter time, and at considerably less expense, than any other College outside the City of Toronto. Illustrated Catalogue sent upon application. Fall term opens Sept. 14th. C. L. Hartt, Prin.

NOW OF AGE.—We omitted last week and do now congratulate friend Rutledge of the Markdale Standard on his paper attaining its 21st year which he celebrates by showing cuts of his excellent plant. We failed to notice last January that the REVIEW then completed its 21st year. It did however, and is now howling along in Vol. XXII with a better equipment and a better support than at any time in its history.

Rev. Peter Nichol presided in the Presbyterian church on Sunday evening last to a large congregation. He took for his text "What is truth," and very fittingly opened up by referring to truth in nature. First in the spheres of heaven whose motions were so regular that man could make confident predictions thereon, then in the regular recurrence of the seasons, from these he went to Moral Truth, the relation of man to man—the foundation of all human society, and this led up to Spiritual Truth, which was the relationship of Man to God, and finding its greatest illustration in Him who himself was Truth. Many were glad to have the opportunity of hearing and shaking hand with Mr. Nichol who is now stationed in

STUFFED.—Dr. Landerkin was again nominated for the Commons, by the Liberals of South Grey, at Durham on Monday last. On account of being a public holiday, the attendance was reasonably large from the town, but not numerous from the country. This is a part of the Bruce Herald's report of the nomination of Dr. Landerkin. The Herald is away off in its information wherever or however it secured it. The public holiday in no way aided the demonstration; our young men were engaged in sports away from town and Toronto had a big day that drew some more. Never a Convention in this town had such a good representation, from the country. The Hall was more than filled and the town representation was but a moiety of the whole. The Herald's informant is a stretcher: if it was an editorial guess it was a discredit insinuation.

Mr. Ferguson Grant is re-engaged in Latona school for 1901 at an increase in salary.

An Endowment Policy in the Imperial Life will protect your family and be a competency for your declining years. W. D. Mills, Agent.

FOOT BALL.—Durham and Aberdeen, tried conclusions last week and after a sharp tussle on both sides the game was finished and neither side scored. One of the Aberdeen players kicked the ball through his own goal which counted for their opponents. Mr. T. Allan was referee.

BAPTIST GARDEN PARTY.—To-night, Thursday, there will be a garden party at the Baptist congregation, near Wandly, Glenelg, Rev. Mr. Campbell, pastor. Great preparation for a good time is being made and we predict a profitable evening, if the weather is favorable.

DURHAM—WELBECK.—On Saturday night last a football team from Welbeck came down for a friendly kick with our town club, and after some interesting play, the score stood 2 to 1 in favor of Durham. We did hear Durham's second goal was disputed, but we hope both teams are honorable enough to claim nothing but what was honestly in sight.

A FEARFUL STORM.—On Saturday last, a terrific storm raged on the Gulf of Mexico coasts. The city of Galveston Texas, population 68000 is reported to be submerged, and as it is built on an island and no part of the city more than 6 feet above the level of the sea, the danger can be seen. For miles inland towns were inundated and an estimate tonight, Monday places the dead at 1000 with immense destruction of property. It is something appalling and will be a national disaster.

WELL DONE BRAD.—We mean Bradshaw Jamieson, son of Dr. Jamieson, M. P. P., who at Toronto this summer has distinguished himself as an aquatic athlete. There is down there what is called an Island Rowing Association, and at their usual summer contests, Brad was making good headway and last week was tied with two others for first place. The final trial came off and Brad has come out the winner, and was a few nights ago presented with the gold medal of the association with many complimentary words. We are proud to see Durham boys distinguish themselves, and again we say, Well Done Brad.

## LACROSSE.

HANOVER—V—DURHAM.

Saturday last a team from Hanover came over to try conclusions once more with our locals, and this time victory rested with Durham, the score being 2 goals to 1.

It was hardly a scientific game on either side, but Durham was admitted had the largest share of the ball. Hanover scored first and our boys at that got a thrill on and it wasn't repeated again on that side. Teddy McClocklin and Doug Munro each had the honor of scoring the goal for Durham. Among those who played well for Durham were little Jimmy Layelle and Peter Crawford. Wendorf and Silver, Hanover's centre, were amongst the most brilliant of the visitors. The latter is a runner, but can't get away from our own Teddy on a sprint. Quite a number of the Durham seniors were spectators of the game and frequently applauded bits of bright play on either side, though on the whole the game to them looked slow.

The game as it should be was a friendly one, though Hanover no doubt felt their defeat by a team composed so largely of juniors. Some disputed one of Durham's goals, but the official score stands as above, 2 to 1.

## A GREAT PICNIC.

Seldom if ever was there a more brilliant array of statesmen, speakers on a political platform in Ontario than graced that of Tuesday last in Buck's bush at Hanover.

Dr. Landerkin has been honored in his own home. The attendance, for a place at one side of the railing, was good, the day was fine, the speaking was excellent and the spirit prevailing speaks in unmistakable tones for victory in the coming contest.

The speakers were Mr. Jas. McMullen, M. P., N. Wellington, Mr. Gibson, M. P., Lincoln, (the Dr's. deskmate,) Hon. Duncan Fraser, M. P. Guysboro, and representing the government, Hon. Wm. Mulock, Postmaster General. Mr. Mickie, of Chesley, also addressed the meeting.

Pres. Miller read a warm address to Dr. Landerkin on behalf of the Reform Party of the Riding to which the Doctor replied feelingly and appropriately.

On reaching the office Wednesday morning we find it impossible to make room for any adequate notice this week.

Mr. J. A. Hunter, drove him over to Hanover on Tuesday.

## LEDINGHAM LETTERS.

[Part of the following letter was covered by a previous one in the Review. However there is much that is new and some graphic glimpses of his experiences.—Ed Review.]

North of Tugela River, June 5.

Dear Mother,  
The last news I gave you we were still in the boat and they kept us there from Monday till the next Sunday. They couldn't get the ship into the harbor owing to a high sand bar and low water, so when our turn for going in came they had to take our horses and baggage in on scows or 'lights' they call them here.

We came off on Sunday with 60 horses to a load and loaded up again and left about nine o'clock. I was wishing it had been daylight so as to have had a view of the country. We reached our destination about three in the morning and had to unload our horses and baggage, then wait for daylight outside—no sheds or tents to crawl into and we found it pretty cool too. At daylight we saddled up, crossed the Tugela river at the ford and had to go about a mile to camp after which we got breakfast about 9 o'clock, which consisted of beef, hard tack and coffee. We have a very nice camping ground away up on a high grade of hill along the north bank of the river. We are right in Zululand among the natives and here is where they dress in their own way. There are quite a few of them come around to gather up the leavings around the tents but they don't get very much.

We got bread for dinner to-day—a loaf apiece. You may imagine the size of them, when one does one meal and that is a day's ration, at least if I was good and hungry it would stand me longer. I am on for mess orderly to-day so it is just after dinner and I am writing this because it is first in my mind.

I expect we will be moving up country right away. If I get a good view of the country before the war is over I may come back when the rest comes, but ain't sure, there may be some good chances here.

The weather just now is very warm in the day time and quite cool at night. We are near the place where the British and Zulus fought about 20 years ago. I guess the natives have forgot all about it before this, as they are on our side now. We have a lot of pack mules and Kafirs for looking after them.

Well I think this is all for this time. Hoping you are all well as this leaves me at present. I haven't had any letters for about a month. I suppose we won't get much more mail—regularly anyhow.

With kind remembrances to all, I remain, as ever,  
Your affectionate son,  
G. W. L.
