

"I admire the personality of Sir Wilfrid Laurier very much." Rev Prof. Clarke,--Anglican.

The Position of John Charlton.

The Conservative speakers roll as a sweet morsel under their tongues the address of John Charlton M. P. whom they proclaim to have left the Reform party, and as an evidence of this they say that the Conservatives have withdrawn their opposition to Mr. Charlton. Mr. Charlton won his election in 1896 with over five hundred majority; small wonder that his Conservative opponent has withdrawn, afraid to face the music and wisely inclined to save his deposit.

Let us see whether Mr. Charlton has withdrawn from the Liberal Party. In his address he says:

"I have been placed in nomination by the Liberal Convention of North Norfolk and have accepted that nomination. I shall consider myself an Independent Liberal pledged to support the time honored principles of the Liberal party."

"Exceptional causes, such as the enlargement of the St. Lawrence canals, the opening of the Yukon District, and the expenses of sending a contingent to South Africa have unfavorably increased the expenditure. I do not say that satisfactory reasons cannot be adduced for the large increase of controllable and capital expenditure and the considerable increase of the public debt."

Rocky Saugeen.

It is almost a daily sight to see sheep, hogs, or cattle being taken to Durham to be shipped to city markets. What a change from four or more years ago. Not a little of it due to wise Liberal action.

Mr R Milburn has moved to his farm vacated by Mr Smider. Welcome to the locality, Mr Milburn.

It appears that there is an odd wild animal still left in this part for the screech of a lynx was heard at night in the woods.

We notice an ad. in last week's issue of an Owen Sound paper by the Georgian Bay Portland Cement Co. for 50 men at \$1.50 per day. Compare that with workmen's wages before the change of Government.

ADVERTISING PAYS

provided that the advertiser is able to do what he advertises to do and a man is a fool to pay good money for advertising what he is not able to carry out for the public soon find out that such a man is a deception and a fraud. I am not professing to do business for fun or entirely for the other fellow's benefit but I have found during the twenty years that I have been doing business in Hanover and Durham that I can make the most money for my self by doing the very best I can in every instance to save money for my customers. Every customer who once does business with me to his own profit continues to patronize me and gives me, not only his business, but his influence and this accounts for the very large business that I am doing to-day. Farmers are now busy and will not be paying much attention to business affairs while busily engaged on their farms. Some of them, however, will require to borrow money and I wish to say that I am at present lending at five per cent and in some cases at less. I am also paying closer attention than ever before to the collection of old debts and claims placed in my hands will be collected if it is possible by any means in the world to get the money—no charge for my trouble if nothing collected. I also buy old notes. I have had great success in settling up and arranging business entanglements and difficulties and in making settlements with creditors and any such business placed in my hands will be faithfully attended to the profit, I think, of them who deal with me. I have always a number of farms in hand which I am able to sell at very low figures and on very easy terms. After so long a residence in this locality I have formed a connection with all the leading Loan Companies and when they have farms in hand for sale they are placed in my hands and I am thus always in a position to offer bargains. I have always on hand farms and other properties belonging to myself which I am always ready either to sell or exchange for other property. Just now I happen to have a splendid 100 acre farm and a very fine 64 acre farm, both well situated in Bentinck and each having good buildings. I will sell them or trade them. I also offer at a sacrifice Lot 28, Con. 2, W. G. R., Bentinck, 100 acres, belonging to a man who has gone out west and is bound to sell at some price. I place insurances in good companies at lower rates and in fact attend to all kinds of financial business. My rule continues to be "Always prompt—never negligent."
