My appetite failed me almost entirely, and I grew so weak that I was a mere wreck. While in this condition I read in a newspaper of the cure of a young girl whose case was much like mine. through the use of Dr. Williams' Pink Pills, and I determined to try them Those who knew me did not think any medicine could do me any good or that I would ever get better, but I determined at all events to give the pills a fair trial. I have used them for nearly a year, with the result that I feel like a new person. The swelling in my eyelids and limbs has disappeared; my appetite is good and my face is regaining the color which left it years ago. I can sew and do work about the house, and this great change in my condition is due solely to the use of Dr. Williams' Pink Pills. It is not too little to say that they have saved my life and I strongly urge girls who are similarly afflicted to give them a thorough trial.

CUNNING PAUL.

Wouldn't Starve if He Had no Extras to Pay.

When Oom Paul first visited this country he was the subject of much concern to his fellow passengers on board the liner from Cape Town, many of whom were consumed with curiosity when they noticed his absence from the dinner table for the first four days out. On inquiry they found that the careful Transvaaler spent the dinner hour on deck, where he eagerly devoured biltong and biscuits. When asked his reason, he testily replied, "I have no money to fool away on expensive eating like you Englishmen." The correspondent who tells the story, and who was on board at the time, adds, "You should have just seen the old man trying to make up for lost time when it was explained to him that his passage money included his meals on board." -Weston, Eng., Mercury.
