WITH CHRISTMAS comes the season of Gift Giving. Custom has made it so for ages past. The parents of the households buy for their children and the children buy for their parents. The young man looks for a suitable gift for his young lady and so on. The Big Store has made very extensive purchases in every department of the Store and would be only too pleased to show Xmas Buyers through our stock. It is no trouble here to show Goods. No matter whether you buy or not come in and see the stock. There's plenty of room and light by day or night and we guarantee quick and courteous service. The following goods are a few of the many bargains we are offering. "The early bird gets the worm."
