OTTAWA NEWS AND NOTES.

The session is jogging along serenely and good progress has been made this week in supplies. The budget is promised next Thursday, and in the meantime a number of motions of more or less importance are being disposed of. The principal one this week was from Mr. Dayis of Saskatchewan, to the effect that a railway commission should be created for the better control of the railways and the more effective protection of the public rights and interests. This has often been before the House in past sessions, but this time it carried without even a division.

Some discussion took place on Tuesday in Committee of Supply upon the cost of Canada's exhibit at Paris, and certain Opposition members took the opportunity to belittle the splendid position taken there by the Dominion in competition with the world. Of course the purpose was to hurt the Government if possible, but both the Minister of Agriculture and the Minister of Public Works, came out of the contest with honors, showing to the satisfaction of all fair-minded men, including many on Mr. Speaker's Left, that Canada got value many times over, for every dollar expended in the splendid advertising she received. The Opposition is loading up the Public Accounts Committee with all manner of inquiries but their hunt for stray dollars will be about as productive as in the past. Since the Liberals took office in 1896, not a questionable transaction to the extent of even one dollar has been unearthed, and the records will show that the search has been diligent enough, had there been anything wrong to discover.

EXPORT FRUIT INSPECTION.
As promised last session, the Minister of Agriculture has introduced legislation to provide for the proper marking of Canadian fruit packed for export, and for the inspection of consignments so marked. The bill enacts that all fruit in closed packages, shall be of uniform size and quality, and with only a small stated percentage of defects, particular of which shall be indelibly marked on the package, together with the full name and address of the packer. No package shall be so arranged that the faced or shown surface gives a false representation of the general contents of the package, and the minimum size in inches of the fruit is to be marked with other particulars on the package. Provision is also made for the inspection by properly authorized officials of all packages so prepared for export, and penalties, both of fines and imprisonment are provided for false marking or for interference with the inspectors in the discharge of their duty. The act comes into force next July.

The experience of the past has shown the need for such legislation, and it may be hoped and expected that no more will be heard of those dishonest practices which have done so much to injure the reputation of Canadian fruit in foreign markets.

TRADE WITH AUSTRALIA.
In view of the growing interest being taken in things Australasian, and of the increasing opportunities opening up for trade between the new Commonwealth and the Dominion, the report just received from Mr. Larke, the Canadian Commissioner to the Antipodes, is of interest and importance. Mr. Larke says:—"A large number of agencies were arranged for Canadian manufacturers last year, and in several instances considerable trial orders have been sent forward. I regret the result has not been in all cases satisfactory. I am not able to know whether the fault

has been in all cases due to the Canadian manufacturer. There are cases where letters were written which required an immediate reply, and none was received for five months. Goods arrived without previous advice, and drafts without either invoice or bill of lading. This is clearly the result of carelessness, and frequently prevents further orders being given. In other cases these defects which arise from inexperience in foreign trade, but which must be and the damages caused by them allowed for, or all chances of trade are at an end. I have just returned from examining a considerable shipment of goods from Canada, against which considerable complaints were made. The goods were well liked, but the damages had reduced first class goods to third class, or even lower in value. In similar goods from Germany, which were also nested as these were, each article was packed in excelsior, and in the packages I saw not one was injured. There is a large demand for these goods in Australia, and the Canadian manufacturer can secure a fair share of it if the defects, having been fully explained to him, are remedied."

It will surely be sufficient to call the attention of exporters to this communication, to prevent the recurrence of methods which must result, not only in personal loss to those immediately concerned, but also serious if not irreparable injury all future trade between the two colonies.

WHERE ARE WE IN CHINA.

Conditions in China change slowly, but certain things are known that help us to appreciate the extent of the calamity, and also to predict what the end is to be. Not less than one hundred, and fifty probably two hundred Missionaries have suffered martyrdom. The number of native christians slain is very large. Some estimate 40,000, but let us hope that the number is not so great. At the lowest estimate, it is a terrible slaughter of China's best people.

It is now known that Hsu Ching Cheng, and Yuen Chang, two intelligent officials in the Chinese Foreign Office, refused to transmit the awful edict to 'Massacre all foreigners' and changed it into 'Protect all foreigners.' On account of this refusal, they lost their heads.

It is also known that the Viceroy along the Yangtze Valley entered into a compact with their Consuls in Shanghai to protect foreign life and property. Several other Viceroys and Governors and many minor officials have shown great kindness to foreigners, giving money, escort and facilities to escape. In spite of the Empress Dowager's command and the determination of the reactionists to have these commands carried out, one half of the Empire refused to obey. This is proof that the missionaries had not incited the hostility of the mandarins as claimed by the Chinese Government and other unfriendly critics. Indeed in some cases, Chinese are today asking the missionaries to return to their field and work. There is no longer any doubt that the Boxers were in the employ of the Chinese Government. In Tientsin correspondence fell into the hands of the Powers, showing conclusively that the Boxers had sent in claims for their services in slaughtering foreigners and native christians and that these claims were honored by the Government.

The country has become so far quieted that many missionaries have returned to their fields in the Provinces near the Coast, and some have even returned to the Inland Provinces. The danger Honan is, not now so much from Boxers as from famine. Three successive harvests have failed, and the fourth is certain to fail. The people have become desperate and the country is infested with bands of robbers seeking loot or in any way to sustain life.

One missionary now in China writes:—"Our native Christians have been sorely tried, but we have very great cause for gratitude in the faithfulness they have been able to maintain. Is it not marvellous that believers are being added even in such times as these? It is true in other places also, that men are being converted through the loyalty and nobleness manifested by the christians under persecution. I feel that as sure as God is in His Heavens, there is going to be a marvellous ingathering into the church of Christ, when these troubles are over past. I cannot understand any man who has a true faith in God, giving way to despondency because far more knowledgable than you at home will ever know—but had many more been slain, it only make me more certain of the ultimate triumph of Christ in this land. The Russians around Tientsin claim that the land upon which the blood of their fellow countrymen has been shed, has been made sacred by them. Christ's peaceful claim upon this land where His saints have died for him, is far more certain of realization."

The Church of Christ must not and cannot go back on this undertaking! There is the right ring about these words. Satan makes desperate struggles against the desolation of His Kingdom, but Jesus shall reign.

R. P. McKAY.

Valuable Building Lots being subdivisions of Park Lot No. 7, north Lambton Street Durham. Plan of subdivision may be seen and particulars learned by application to the undersigned.

J. P. TELFORD,
Durham.

DORNOCH

Rev. Mr. Graham is this week assisting a brother pastor in revival services in Tara.

Mr. Robt. Ledingham, of Brandon, Man., leaves to-day, Tuesday, for his home in the West after spending the winter at the parental home here.

Mrs. J. Scott, of Meaford, is the welcome guest of the Hay and Smith families this week.

Misses Kate and Jessie Stewart left on Saturday last for Rochester, N. Y., for an indefinite time.

Miss McKenzie, of Durham, is enjoying a welcome holiday visiting her cousins and other relatives here.

Dr. Graham, who has been assisting Dr. Smith during the busy season of last week. During his stay of a couple of months he made many friends, who, in the future will be pleased to hear of him.

The latest addition to the business places of our village is a tailor shop. A Mr. Borsht, who comes highly recommended and on behalf of the people of Dornoch we welcome Mr and Mrs Borsht and hope their stay may be a pleasant and profitable one.

Miss Smith, of Aberdeen, is at present enjoying a visit with relatives in the vicinity.

On Tuesday last it was rumored through the village that Mr. and Mrs. McCalmon were intending to move to Varney, Mr McCalmon having bought out a blacksmith shop there. On inquiry we found it to be true and on Saturday last left for their new home. Mr and Mrs McCalmon have been here for about a year and a half and have made many friends, the former as a clever mechanic and all round good business man, the latter for her many social and musical qualities, especially in the church where her presence and assistance will be missed. We all regret their departure, but wish them happiness and prosperity in their new home.

Miss Elsie Smith leaves to-day, Monday, for Chatham and intends remaining a couple of months there.

A beef ring was formed here about a week ago, so our villagers will have their supply of fresh beef assured for the summer. Our genial friend Mr. Thos. Turnbull of the Rocky is to be butcher.

We notice with regret by posters that P. Morrison is having an auction sale on the 18th, and is taking Horace Greeley's advice and going West, we understand his destination is Alberta.

Miss Jennie Little, of Chatsworth, who was renewing old acquaintances around here for a couple of weeks, left Thursday for her home.

Mr. Jas. Heutsen and family moved from here about a week ago to the vicinity of Kinghurst where James has leased a farm.

On Wednesday evening, Feb. 27th, a very pretty though quiet wedding was consummated at the manse here the contracting parties being Mr. Jabez A. Woods, of Hamlet, Manitoba, to Miss Christina Nelson, daughter of Mr and Mrs Nelson, of the village. Mr. Walter J. Woods, of Brant and Miss

Maggie Nelson, of Galt, very handsomely filled their position as groomsmen and bridesmaid. Rev. Mr. Graham officiated. After the ceremony and congratulations the happy couple left for a couple of days visiting relatives intending to leave last Thursday for their home in the West. Congratulations.

Mr. Duncan McArthur added one more to his list of attractions, having purchased a handsome new cutter and outfit.

We have been somewhat delinquent in writing of late Mr. Editor, but we notice our place has been ably filled, though we modestly disclaim being the author of the last couple of budgets from Dornoch. [Our regular correspondent's contributions can not be mistaken.—Ed.]

SAUGEEN PRESBYTERY.

The Sauguen Presbytery met on Tuesday the Rev. Wm. Farquharson moderator elect in the chair.

The congregation of Moorfield and Drayton, Rev. Mr. Tate, reported that they would henceforth be able to be self-sustaining, thus relieving the claims of the Augmentation Fund.

T. D. McCullough, W. Farquharson, G. Kendall and H. Broad, ministers and elders from Palmerston, Clifford, Mount Forest and Durham were appointed Commissioners to the General Assembly.

The Presbytery tendered their nomination for professor of apologetics in Knox College to Hanna and Farquharson but neither of them were content to have their names put in nomination.

Reports on Home Mission, Church Life and Work, and Sabbath School were presented by Rev. Aull, Edmiston and Tate respectively.

STORMS GALORE.—The character of March as a month of blustering storms was never better deserved than at this present time. Regular blizzards from all directions are making havoc with the roads, and as we write a regular tempest is howling.

Rev. Mr. Farquharson, was elected moderator of Sauguen Presbytery on Tuesday. See brief minutes in this issue.

Two accountants from Toronto, are up at present auditing the books of the chair factory.

Harry Vollet, who was so badly hurt in the chair factory lately, is improving we are glad to say.

The factory is working full time, orders coming from Winnipeg and several other places.

Mr. Blackburn is improving after an attack of pneumonia and is considered out of danger.

Mr. Chas. Dixon, student at Guelph, O. A. C. won \$5 being the seventh prize in the "McDonald Seed Grain Competition for the province of Ontario. The kind of oats he used to win were the improved Lagowa, which were advertised for sale in the REVIEW recently by his father Mr. W. L. Dixon. We congratulate Chas. on his success.
