VIGOROUS OLD AGE

Obtained Through the Use of Dr. Williams' Pink Pills.

Mr. William Gray, of Newmarket, Tells How He Became Hale and Hearty at the Advanced Age of Seventy After Having Suffered Great Torture from Sciatia and Rheumatism.

(From the Express, Newmarket, Ont.) Mr. William Gray, who is well and favorably known in the town of Newmarket and vicinity, is rejoicing over his release from the pains of sciatica and rheumatism through the use of Dr. Williams' Pink Pills. A reporter of the Express called upon him for the purpose of obtaining particulars following story for publication:

"About two and a half years ago I was selzed with a very severe attack of rheumatism. The pain was simply torturing. At times the trouble was seated in my knees, then in my hips. For nearly a year I suffered along, working as best I could, in the hope of being able to overcome the disease. During the day the pain pains in the hip, and in time I be- November 28th, 1855, keeping no better result. I was beginning to think that I was doomed to suffer the rest of my life, when one day a friend strongly advised me to try Dr. Williams' Pink Pills. I took his advice and procured a supply of the pills and began taking them according to directions. Before the third box was finished I noted a change for the better, so I continued the use of the pills till I had taken ten or twelve boxes, when my trouble had entirely disappeared. To-day I am free from pain and feet that life is worth living, even at the ripe old age of seventy. I can now do a day's work with many men who are 20 years younger than I. I thank God for my restoration to health through the agency of Dr. Williams' Pink Pills, and I trust other similar sufferers will give them a trial, for, knowing what these pills have done for me, I am sure that they cannot fail being as beneficial to others similarly afflicted."

If the blood is pure and wholesome disease cannot exist. The reason Dr. Williams' Pink Pills cure so many forms of disease is that they act directly upon the blood and nerves, thus reaching the root of the trouble. Other medicines act only on the symptoms of the trouble, and that is the reason the trouble always returns when you cease these medicines. Dr. Williams' Pink Pills make permanent cures in kidney troubles. rhoumatism, erysipolas, anaemia and kindred diseases. But be sure you get the genuine, which bears the full name Dr. Williams' Pink Pills for Pale People on the wrapper around every

Catarrhozone Cures Cought and

He Became "Sloppy."

It is not intended to intimate that Hobson was connected with any fraud or job on the Government. He was the innocent tool who grounded the Merrimac, a hulk bought for, say \$360,000, and worth possibly \$50, 000, on the bottom of Santiago Harbor. His deed required daring, selfcontrol and nerve, although it was not a specially dangerous undertaking. If he had not become sloppy subsequently and usurped the kissing franchise for the whole world no one would have carped or cavilled at Hobson. He is a good sailor and a man of deeds .- N. Y. ********************** LONDON'S

SWORDS. Who Gets Them And For What.

Who will be the recipient of the forty-second of the swords of honor presented by the Corporation London to those military and naval heroes they desire to place upon the civic roll of fame remains to be seen, but the late Commander-in-Chief in South Africa, Lord Roberts, and his successor, Lord Kitchener, are the only two officers taking part in the buy it. war who have received swords of honor from the corporation. The former, then Major-General Frederick Sleigh Roberts, G. C. B., V. C., received his in 1881, after the Afghan campaign; the latter was honored in like manner in November,

1898, as the result of Omdurman.

Although the actual value of the

sword is nothing compared to the honor the presentation confers, it is nevertheless a very valuable weaof the cure when Mr. Gray gave the pon. For instance, that given to Sir William Fenwick Williams in 1856 cost 200 guineas, the one which the Duke of Cambridge received the following year, £218 8s; but since that date, with the exception of Lord Napier of Magdala, whose sword cost £21, the gift has cost the corporation 100 guineas on each occasion-Sir Garnet Wolseley, Sir Frederick Roberts, Sir Beauchamp Seymour, and Sir H. Kitchener, who are the last four recipients, each received weapons of that value. The was less severe, but at night it was thirty-third signatory of the famjust as bad as ever. To increase my ous roll, namely, Major-General Sir torture I caught a cold which re- William Fenwick Williams, Bart., suited in an attack of sciatica in my | with 15,000 men, three months' right leg. If I walked a snort dis- food, and three days' ammunition, I would be seized by sharp defended Kars from June 18th to came a used-up man, my appetite bay a Russian army of 40,000 infailed me, and I could not rest at fantry and 10,000 cavalry, a feat night on account of the pain. I tried that so excited the admiration of one medicine after another without the general commanding the blockavail. I also consulted doctors with ading army (Mouravieff) that when hunger succeeded in doing what the Russians could not do, he wrote: "General Williams, you have made yourself a name in history; and posterity will stand amazed at the endurance, the courage, and the discipline, which this siege has called forth in the remains of an army. Let us arrange a capitulation that will satisfy the demand of war with-

> But if the prices of the swords remain nowadays the same, the design, of course, alters with the nature of the service, and the place at which it was rendered, and in many other minor details. The Sirdar's sword of honor, for instance, was a very beautiful weapon, boasting a hilt of solid 18-karat gold, which was further enriched with a series of decorative jewels, including amethysts, beryl lapis lazuli, turquoise and jacinth while the monogram of the general was composed of fine diamonds, rubies, and sapphires. Figures of Britannia and Justice, and a panel bearing the British and Egyptian flags enameled in proper colors, also appear on the hilt, while the scabbard of crimson velvet has two massive 18-karat gold bands and bears the arms of the city. Its lower end also is of gold. The blade, of the finest steel, is elaborately damascened with solid gold in the true Oriental

COULD NOT BUY THIS GOD.

Hindoo Divinity Saved From the Mohammedans is Above Price.

It is part of the Mohammedan creed to smash the noses of all idols they may come across. When they invaded India they defaced in this way every Hindoo god. A figure of Vishnu cut in green jade was buried in the bed of the Ganges during this Relates His Experience for the invasion, and is now preserved in a temple in Benares. It is the only perfect image left of all the old idols, and its sanctity is such that the priests of Allahabad have offered for it its weight in gold, together with two magnificent rubies, formerly the eyes of Buddha. But they cannot

Millionaire Wanted Alpacas. An enterprising Australian millionaire named Leonard took a trip to Peru recently. He saw great flocks of the alpaca wandering on the Andes. Being a woolgrower himself, he was struck with their splendid fleece. He resolved to buy some and take them home. He found that the Peruvian Government absolutely prohibited their export. He tried, by chartering a special ship, to smuggle some off, but was unsuccessful. Then the idea occurred to him of taking them out of the country eastward. He bought a large flock, engaged trusty men and had the creatures driven over the passes, 18,000 feet sea level, and then Buenos Ayres. This little expedition cost him \$13,500. But the long march had so weakened the alpacas that they all died on the voyage. An Expensive Expedition.

Spiders for Wine Cellars

Every man who has a wine cellar has an equal fondness for spiders. This is on the authority of a connoisseur. Cobwebs add dignity to wine and make it seem older than it really is. Moreover, if the spiders refuse to weave their webs about the bottles of the nouveau riche, these same spiders may be purchased at so much a dozen and imprisoned in the vaults, where their natural industry must assert itself in cobwebs. There is an old Frenchman living in one of Philadelphia's suburbs who makes a business, and a very good one, it is claimed, of cultivating spiders for wine cellar purposes. In this way a jot of vin ordinaire may in a few weeks take on all the appearance of aged mellowness.
