Dr. Jager's Sentence.

Cape Town, March 15 .- The trial of De Jager, the most prominent rebel in Natal, has concluded with a sentence of five years imprisonment and a fine of £5,000 (\$25,000). De Jager was a Boer commandant. His de fence was that a Transvaal burgher court had decided that, although he was not a naturalized burgher, he owed allegiance to the Transvaal.

Peace With Boers Seems Far Away. Cape Town, March 15.-The general opinion regarding peace is that there is very little prospect of it being brought to a favorable issue, and that the obstacles encountered will probably prove insurmountable.

The Boers have cut the wires on the telegraph line connecting Natal, thus isolating the Province from the forces in the Transvaal for the time being. This, taken in connection with De Wet's reported march Natal-ward, is regarded as serious.
