Aften Seven Years of Great Suffering.

Mr. Hamilton Waters, of Ridgeville Tells of his Relief from Neuralgia, Rheumatism and Stomach Trouble Through the Agency of Dr. Williams' Pink Pills.

the well-known cattle buyer, of Ridgeville, Ont., was an acute sufferer from neuralgia, which was lator complicated with rheumatism and stomach trouble. But now, thanks to Dr. Williams' Pink Pills, he is enjoying the best of health. Speaking of his illness and subsequent cure, Mr. Waters said: "For seven years I suffered great agony from neuralda, the pains were of a darting, excruclating nature, and for days at a time would be so great that ! feared I would lose my reason. To increase my misery, I was attacked with rheumatism, and this was closely followed by stomach trouble. My joints and limbs became swollen and I was almost helpless. I suffered from nausea and a decided loathing for food. I became very thin, and was constantly troubled with cold sweats. At different times I was treated by three physicians without receiving anything in the way of permanent benefit. I grew despondent and began to think that I would always be a sufferer, when one day my druggist advised me to try Dr. Williams' Pink Pills. He said that within his knowledge there was not a case where the pills had been used but what benefit had followed, and he added: "That is saying a lot in their favor, for I have sold over five thousand boxes, and have not had a complaint from anyone. Following his advice I procured a supply of the pills, and after a few weeks I could note an improvement in my condition. By the time I had taken eight boxes of the pills the neuralgia and rheumatism had entirely disappeared, and my stomach was once more in a healthy condition. My appetite improved, and I gained in weight and strength daily. It is now over two years since I discontinued the use of the pills, and all that time I have enjoyed the best of health and haven't felt an ache or pain, so that I think that I am safe in saying that my cure is permanent. In fact, eight boxes of Dr. Williams' Pink Pills accomplished what three doctors had failed to do, and I feel I am justified in warmly recommending them to

A very high medical authority has said that "neuralgia is a cry of the nerves for better blood." Rheumatism is also recognized as a disease of the blood, and it is because Dr. Williams' Piak Pills are above all things a blood-making and blood-enriching medicine, that they so speedily cure these troubles. But you must get the genuine, with the full name Dr. Williams' Pink Pills for Pale People printed on the wrapper around the box. If in doubt, send direct to the Dr. Williams Medicine Co., Brockville, Ont., and the pills will be sent postpaid at 50 cents a box or six boxes for \$2.50.

NOAH AND THE FLOOD.

Hopes of Finding a Fossil Fish With

Boarding House Attachment. Dr. George Frederick Wright, of Oberlin College, has lately returned from a journey round the world, in the course of which he made extensive geological investigations in Asia to see if he could get any new light on the subject of Noan's flood. The Bible story of the flood which has been a subject of study with him for twenty-five years. He reports finding in Central Asia a re- his work. markable area which gave evidence of having been lifted from the bed of the sea at a comparatively recent period. On its mountains were sands that must have been deposited by water, and in it. 1,500 feet above the sea-level, is a fresh water lake, 400 miles long by 40 miles wide, wherein were many seals, like those in the Arctic Ocean. Their presence in the lake could be best accounted for by the theory of a subsidence of land which brought the Arctic marine animals south, to be eaught in lakes when the land rose again. Westward, towards the Black Sea, are some remarkable gravel beds, laid evidently by seawater, but now 750 feet above the sea-level, which also testify to the restlessness of the earth's crust in Asia in comparatively recent times. These traces don't prove that the story of the flood is true, but they accord with that story as told ! the Bible.

The Bible stories, intelligently regarded, seem to be pretty sound history. No one can be sure any morning that the newspapers will not announce the discovery of a fossil fish with a sailor's boarding house inside of him, where Jonah might have lodged three days in comparative comfort .- E. S. Martin, in Harper's Weekly.

Coal in China. The greatest coal field of the old world is that of northern China. Although not yet well known as to its limits and resources, it seems to be more important than all those of the old world put together. Moreover, it is near the sea in a fertile country | describe my meaning?" and in a region where iron ore abounds. Though much less extensive than the best of the American fields. it is from the assemblage conditions the most important deposit in the world. Hence much of the tangle of the Chinese question. Whichever of the powers gains control of this shore and of the laborious Chinese to work it may reckon on a mighty advantage in the race for economic predominance.

Why Ca'led the Budget. Probably not one per cent. of the British taxpavers who are just now anxiously discussing the possibility of Sir Michael Hicks-Beach's forthcom-

ing budget are aware of the origin of the term. Almost from time immemorial it was the custom in Eng and to put the estimates of receipts and expenditures presented to Parliament in a leather bag, the word budget being thus borrowed from the old Norman word bougette, which signifies a lather purse. Curiously | the sum of ONE HUNDRED DOLLARS for enough, the word has passed back gain into France from Great Britain. | CURE. To Break Up a Cold.

All you require is a little sugar, a glass of hot water, thirty drops of Nerviline. Take it hot. In the morning you will wake up without a cold Nerviline is good for other thingssuch as toothache, neuralgia, rheumatism. For pains inside and pains outside Nerviline is simply marvelous. Druggists sell 1t.

Trying Again.

A teacher, wishing to impress his class with the virtue of "trying again," said: "Now, suppose someone were to go on, day after day, being good and doing good, despite all temptations and hindrances, what would you call it ?" Perseverance was the word wanted. A multitude of hands were thrust out. Picking one, City Star. the teacher pointed to its owner and said: "Well, what one word would "Monotonous," replied the enfant

Of the 15,000 pounds of spruce gum annually harvested in Maine, 12,000 month of March. The gum picker wears steel climbing spurs on his boots, and in his belt he carries a light hatchet, while strapped to his waist is a bag with a wide mouth for the reception of the gum. Climbing the tree, the picker proceeds from limb to limb, clipping off the lumps THE FROST WIRE FENCE Co. Limited. of gum as he finds them, until he reaches the top. Most of the gum is caught in the wide-open bag as it falls from the tree, while all that goes to the ground stands out in such relief upon the snow that it is easily picked up. Having picked all the gum on the tree, the picker hacks and scars the bark, so that the tree may produce another crop.

A BEAUTIFUL VOLUME. One of the most timely and interesting of recent publications is the book just put on sale by the World Publishing Co., of Guelph, entitled "Queen Victoria." It is a comprehensive story of the noble life and glorious reign of our late lamented Queen, including a condensed history of Great Britain. The work is written by John Coulter, the eminent London historian, and John A. Cooper, the editor of the Canadian Magazine: and they have spared no effort to plumbing and general use; every farmer needs make it complete and accurate. The one; also painters' trestles, paste boards, etc., book contains over 700 pages, and is Waggoner Ladder Co., Limited, London, Ont. beautifully and appropriately illustrated; the letter press is good, and the binding is in keeping with the general excellence of the volume. It is a work which should find a place in every patriotic Canadian's library.
