THE TEMISCAMMING TRIP. A Unique Excursion

The Temiscaming excursin of 200 land

from the Ontario Government depart-

attention. It shows that the Ross Government is thoroughly up to date in exploiting the rich district known as New Ontario. This region, rich as it is in mineral and timber resources is also a new field for agriculturists, containing great areas of fertile arable land. In fact, there is no reason why the same industry and perseverance which has made old Ontario a garden should It is sad, heart-rending, but glorious, uot find scope almost as large in the undeveloped lands of the north country. It is in this favored district also that the Government has chosen to allocate the land grants for the veternans of '66, of '85, and of the South African war. These men have proved their sturdiness and courage in defence of their country, and will contribute a vigorous leaven to the new community. WHO WILL YE SERVE.

There are in China a considerable price. We also have a number who have found congenial occupation since the out-break, berating Missionaries, and depreciating their work. I have before me a little book in which these charges are collected and answered, by a gentleman who lives in Shanghai. According to their critics, those Missionaries are selfish, living in luxury, without tact, and are vindictive. They over estimate the number of their converts. who, they say, profess conversion hogs, 188 sheep and 65 calves. simply for the loaves and fishes. They lean on the gun-boat for protection, answered fully, without ascribing infallibility to Missionaries any more than to other men.

But whilst their enemies are so occupied, what are the Missionaries doing? Well 183 of them have laid down their lives, and, now wearing the martyrs crown, are doing whatever the redeemed are doing before the Throne. Of the remainder who escaped, some came to the home land, but the majority are at the coast, standing at the door ready to re-enter and resume work as soon as permission is given. And in the meantime what? The woman have held a Conference in Shanghi, presided over by lady Blake, the wife of the Governor of Hong Kong, in which they prayed for the women of China, discussed their needs, and how best to relieve them. The male Missionaries also held Conferences for prayer and Bible study-that they(the Missionaries) might be themselves spiritually quickened, and thereby China blessed. sympathy and encouragement to the scattered and persecuted converts who remain. Is that selfish or vindictive? Others are employed gathering up, lovingly, the story of the massacres, the heroic courage and loyalty to Jesus Christ, of Missionaries and converts alike, and the many interventions of Gcd's hand, delivering from death those whose time had not come. For example, eighteen colporteurs about to go on a journey, were warned Mr. Clergue, at the Soo. has taken of the risk, but said, 'We go on a colporteur tour, God's will be done. only tour of the eighteen returned. their homes were looted and burned, and their families exterminated.
