Behind the bars of Bicetre, some two hundred years gone, paced restlessly an intellectual looking man, protesting constantly to every passer by, "I am not mad," with such intelligence and intensity that visitors often paused to inquire concerning him, to whom the guide, shrugging his shoulders and with a smile of blended compassion and superiority, would answer: "Oh that's a poor idiot who thinks he can run a boat with hot water.

Not a hundred years ago, Stephenson's "travelling engine" was the derision of the wiseacres of his day and generation. Scientists laughed at the impracticable schemes of the "dreamer," an done member of the examining board which was investi- The Best Doctors' and Hospital gating the matter, gravely in-"If the engine were to strike 'a cow, would it not be very bad? "Aye," was the rejoinder, in Stephenson's broad Scotch, "vara bad for the coo," And the "Rockett" was fired, and went up the hill of doubt, and difficulty, and disbelief, but did not, as was predicted, "come down

like a stick." Fulton was another visionary, another lunatic, and when on his trial trip, after a few strokes, the paddles of his little side-wheeler ceased trouble are various, overwork or to revolve, the few incredulous friends worry being among the most promiwho had been reluctantly persuaded to accompany him hung their heads in shame at having been beguiled by such a lunatic, and the wiseacres, who burden. Such a sufferer for years was the old, old cry of their race, "I told you so.' But their triumph was a brief one, for, as all the world now knows, the Clermont moved majestically up the Hudson, and the steamboat was a recognized fact.

But while it was at length conceded that steamboats were adapted to river navigation, the possibility of their use upon the sea was strenuously denied by the scientists, one of whom, the Rev. Dr. Dionysis Lardner, published a treatise, in which, to the complete satisfaction of himself and his fellow savans, he demonstrated hydrostatically, pneumatically, arithmetically, algebraically, and geometrically the utter impossibility of constructing a steam vessel which could cross the ocean, but almost before the ink upon his predictions was dry facts gave the lie to figures, and the Savannah had steamed across the Atlantic, and

HOTEL PROPRIETOR WINS HIS CASE.

Under an Unjust Penalty for Eight Years.

Bright's Disease Held the Sentence of Death Over His Head-Suffered all the Misery of Broken Health in the Meanwhile-his Deliverance by Dodd's Kidney Pills.

Dresden, May 25.-(Special.)-Allan McIntoch, proprietor of the wellknown Clifford House here, in conversation at his house to-day, made a

the speaker.

"Gentlemen," said he, "Dodd's Kidney Pills cured me of Bright's Disease after eight years of torture." To say his hearers were surprised but faintly expresses it. Mr. McIntosh looks so far from an invalid at the present time, that the news of his former affliction with a dreadful maiady, like Bright's Disease, sounds un-

real and improbable The subject arose from a conversation in which one of the gentlemen present complained of backache. Mr. McIntosh at once advised Dodd's Kidney Pills.

Following some further discussion on the merite of Dodd's Kidney Pills came the statement above quoted. "I had Bright's Disease for over eight years," repeated Mr. McIntosh. "I could get absolutely nothing to help me. Bright's Disease was incurable I found. My back was a continual ache. My urine was of that dark color which is the most alarming symptom of the disease. "Gentlemen, I tell you I was in

boxes of Dodd's Kidney Pills, and cury. Bright's Disease left me. Only for Dodd's Kidney Pills you wouldn't see me here before you this minute." The facts as related by Mr. McIntosh are universally confirmed by the people of Dresden.

An Argylishire Centenarian.

In the Argyllshire parish of Cumodden, at the hill township of Achindrain, there resides Mrs. Margaret WALDING, KINNAN & MARVIN, Wholesale Stewart, who has passed her 100th birthday. She was born in Kilninver Parish in 1801, married John Stewart in 1820, and has been mother of eleven children, the youngest of whom only now survives. Her eldest son, Colin, died about a year ago at the age of 80 years. The remaining nine of her family did not survive infancy. Mrs. Stewart was left a widow as far back as 1836. For many years proclaim him a journalist. she kept the farm of Finoglen, near Loch Scammadale, in Kilninver Parish, and tells how she was accustomed to do man's work on the farm until her eldest son grew up to manhood, About 26 years since she, along with her son, took a share of Achindrain Club Farm, on the Argyll estate, where she has resided since. The shift to reside in Glasgow with her youngest child. Mrs. Stewart keeps all her faculties.

How Lipton Rose.

Sir Thomas Lipton, whose yacht the Shamrock, raced with the Columbia for the America Cup, is a man who has worked himself up from the very bottom. In his youth he made a trip to America, in which he gained nothing but experience. After his return to England he opened up a little provision store with \$400, which his parents, working people, entrusted to him. He knew how to catch trade, he knew how to keep it, and, what has proved of great value in the win ning of his fortune, he knew how to select his assistants. No sooner had his first store proved profitable than were riding along in the sleigh thinkthis ability became apparent. He ing of nothing, when-" obtained capable assistance, and opened another store, and then another and another. He went to London eventually, and opened stores there until he had sixty in London alone, and, spreading over the kingdom, he entered every conceivable town until at last there were 420 Lipton stores
