The annual statement of the Standard Bank of Canada has just been issued to the shareholders. We see by it that this institution has had a very successful year. The net earnings in their proportion to Capital exceed those of any other Canadian Bank after paying dividends at the rate of 10 per cent per annum \$50,000 of profits was added to the reserve fund which now amounts to \$750,000. The deposits of this Bank are now \$8,231,000 and total assets exceed \$11,000,000.

EARLY MORNING BLAZE.—Saturday last late sleepers were startled from their slumbers by the ringing of the fire bell and investigation showed the fire had started at work on the residence of the Parker farm to the west of the town, occupied by Mr. Thos. McNally and family. Mr. McNally had got up and kindled the fire as usual, and went out to attend to his stable duties and on looking around shortly after saw the blaze on the roof. His wife and six children were in bed and succeeded in escaping in their night robes. Mr. Duck, the nearest neighbor, was first on hand, but they were able to save but little, some bedding on a couple of beds and some small articles. The stove, most of the furniture, clothing, flour, etc. are all gone amounting in value to several hundreds of dollars and no insurance. The engine and reels came along, and played a little on the ruins to prevent sparks reaching the barn. For an early morning call and out of town, the boys deserve credit. Mr. McNally's loss is to him a severe one and much sympathy is felt for him and his family. They have secured temporary accommodations in the Dalglish building Upper Town. The house had a small insurance on it.

JUNE WEDDINGS.

LAUDER-BLACK NUPTIALS.

Two Popular Durhams Wed.

Another of these popular June weddings took place on Monday afternoon last at the Presbyterian manse, the happy pair being Mr. A. W. H. Lauder, Deputy Registrar, and Miss Frankie Black, daughter of Mr. Wm. Black, hardware merchant in town. Miss M. Munro supported the bride, the groomsmen being Mr. Thos. Lauder, brother of the groom.

Rev. Mr. Farquharson was the officiating clergyman and before him and in the presence of a few friends, they took the vows that made them man and wife and soon after left for Flesherton to catch the C. P. R. for Toronto where they go first on a brief honeymoon trip.

A few of the young people gathered to see them off, with the inevitable rice of course, and with abundance of good wishes, and the young couple it is safe to say will be heartily welcomed as citizens of the town in a new relation when they return.

Mr. Lauder, "Will" as he is popularly known is a young man of character, of proved ability and public spirited to a degree. Miss Black is a talented young lady and has never been sparing of her musical ability when required for any worthy object. We wish for the fair daisies, of a most lovable disposition many happy years of wedded bliss in the company of her husband and devoted admirer, and we are more than pleased that the abilities of both are still to remain in our good town. Hearty wishes go with them and the REVIEW a second time extends hearty congratulations.

FREMLIN—CORBET.

A wedding of unusual interest was celebrated at the home of Mr. and Mrs. John Corbet, Murdoch street, Wednesday afternoon at 2 o'clock, when their youngest daughter, Miss Louise Corbet, was united in marriage to Mr. E. N. Fremlin, C. P. R. station agent at Corbetton. Rev. Dr. Somerville, pastor of the Division street Presbyterian church, presided at the ceremony, which was performed in the presence of relatives of the contracting parties. The wedding was solemnized in the parlor, which was tastefully decorated with roses, marguerites, and smilax. The bride was married in her travelling suit, a beautifully becoming effect of fawn colored broadcloth, and bodice of turquoise blue silk, with point lace trimmings. She carried the customary shower bouquet of white bridal roses. The bridesmaid, Miss L. Spencer, daughter of Town Treasurer Spencer, and the flower girl, little Bessie Telford, of Durham, niece of the bride, were becomingly attired in costumes of pale blue organdie, and carried bouquets of pink roses. The groom was attended by Mr. Fred. Corbet, a brother of the bride. When the nuptial knot was tied, and Mr. and Mrs. Fremlin had received the hearty congratulations of the guests, the party sat down to an elaborate wedding breakfast, the dining room and tables being beautifully arranged with floral decorations of cut roses, marguerites and smilax. It is not the intention to use a set phrase when it is stated that the wedding gifts were numerous and many were really magnificent. Among the very interesting ones, was a magnificent star of emeralds and pearls, the gift of the groom. The bridesmaid was presented with a valuable pearl crescent as a memento of the happy union. As the train left the C. P. R. depot yesterday afternoon with the happy couple en route for Buffalo, Detroit and other points, it was accompanied by the usual following of ancient shoes, white flower petals, and torpedoes, which had been placed in dozens on the rails by C. P. R. friends of the popular bride and groom.—O. S. Times.

Mrs. Fremlin is a sister of Mrs. J. P. Telford of this town.

CECIL GUN DROWNED AT BOSTON TRYING TO ESCAPE OFFICIALS.

Boston, June 22.—A stowaway, Cecil Gunn, who arrived on the steamer Virginian from Liverpool, and who was ordered deported by the immigration officials, was drowned yesterday afternoon in Black Rock Channel, in an attempt to escape to the shore, having jumped overboard, thinking to swim to the shore. Gunn was 19 years old, and claimed his parents lived in Toronto.—Globe.

A BIG PILE OF STONES. CEMENT OPERATIONS.

Last Wednesday, as we intimated last week, work was begun at the Cement Works here, when about a dozen teams started hauling stone from the stone piles in Storrey's field near by and dumping them in a big pile ready for the stone crusher, and preparatory to the making of the cement concrete which enters so largely into the building of the vast works about to rise here. For the rest of the week there were 15 teams on, and on Saturday night a total of 680 loads had been delivered, making well up to 170 cords. Another 100 cords at least will be needed and plenty more is available, and all free of cost.

Directors G. McKechnie has shown considerable executive ability in the crush of the opening operations, and has succeeded in getting this stone laid down at \$1.40 a cord, while contractors were asking \$4.00 a cord.

While this was going on Surveyors and engineers were staking out the ground and now the lot fairly bristles with stakes placed 50 feet apart.

Among the first things to be done this week is work on the switch from the G. T. R. line. This has been surveyed and the small cutting and grading required will go on at once, and will furnish considerable employment to men and teams. Mr. Stanhope, we learn has secured the services of a stone crushing machine and this will soon be in operation.

Messrs Gilbert McKechnie and Mayor Calder are both off this, Monday morning, to a Board meeting in Toronto, at which steps will be taken for a further advance. Messrs Calder and Laidlaw were both out last week and secured some good blocks of stock.

A CLOSE CALL.—Last Saturday, the electrical storm which passed over this district came too near to be comfortable. A large poplar tree in front of Mr. L. Elvidge's house was struck and had the bark completely peeled off it for 12 or 15 feet, besides a crack in which only the mysterious force could do. A picket fence leaning on the tree had a post shattered and several pickets wrenched off and flung long distances. The fan light above the door and two big panes in a front window were smashed. Mrs. Elvidge herself receiving a shock which prostrated her for a time. Happily she is all right again.

FRUIT OUTLOOK IN NIAGARA.—James D. Gordon of the Dawson Commission Company, who has been over the fruit district between Toronto and Niagara several times this season, says the outlook at the present time is not nearly so good as it was early in the season. Apples in that section will, he says, give a poor crop; peaches will not give half the yield that they gave last year; and plums and cherries, which promised such an abundant yield early in the season, will, owing to the cold, damp weather at the time of bloom, give but a medium yield. Raspberries will not give over half a crop, but strawberries and pears are extra good. It was feared at one time that plums would hardly be saleable because of the large crop promised, but since then plum prospects have declined, while peach prospects have gone away down. There will be money in plums this year after all.

FRESH FISH AT THE FREEZER.—Miles Wilson has constantly on hand fresh fish. Will be pleased to accommodate farmers and others at any time. Remember the place, near the south end of the town.
