No MISTAKE you make if you send that far away friend of yours the REVIEW for a year it only costs you one dollar, we pay the postage. From this date to January 1st 1902 only 35cts.

Dr. Park, specialist in Eye, Ear, Nose, and Throat diseases, will be at his mother's residence in town after arrival of evening train on the 17th inst., remaining till the 19th inst for consultation.

BAPTIST GARDEN PARTY.—The annual Garden Party of the Town congregation will be held on the fine grounds of Mr. B. Warner on Thursday evening August 22nd inst. Should the weather prove unfavorable, it will be held the following night. It will be conducted on the same lines as last year. The band will be in attendance and other attractions.

A large and enthusiastic meeting of the Durham Lacrosse club was held on Tuesday evening to wind up the business of the season. The Treasurer's Report was unanimously passed. The report shows a slight deficit but all were agreed that the club had been run in a very economical manner and means are being adopted to wipe out the deficit in order to leave a clean sheet for next season.

100 YEARS AGO.—The Globe, day by day, publishes little extracts from its files of 50 years ago and also reproduces from the "Times" of London, England, similar excerpts of 100 years ago. An interesting item from the Times the other day was "Colonel the Hon. A. Wellesley of the 33rd foot is appointed Brigadier-General in the army serving in Egypt." Hon. A. Wellesley was afterwards the Duke of Wellington.

THE LATE MRS. DAVID MCKELVEY.—To-day, Tuesday, we learn with deep regret, that Mrs. David McKelvey has passed away and is being laid to rest as we write. The deceased was the eldest daughter, Lucy of Mr. and Mrs. Jas. Hooper, of North Egremont, and was a young woman of devoted character and possessed all the virtues of a faithful wife and loving mother. Over a year ago she contracted a severe cold which left evil effects behind it, and since that time she suffered a great deal and bore it with exemplary patience. Death has claimed her at last and the bereaved husband and six young children will sadly miss and deeply mourn the wife and mother gone before. Mr. and Mrs. Jno. McKelvey left to-day (Tuesday) to attend the funeral of their daughter-in-law. To all the bereaved ones we extend heartfelt sympathy.

A WESTERN TRIP.—Rev. Chas. H. Leeson, an old Varney boy, and his wife attended the great International Epworth League Convention held recently at San Francisco. At the close they took a tour of the west and we take the liberty of making a few extracts from a recent letter. Writing from Helena, Montana, where he preached for an old student companion, he says: "This is a wild country, we have not been out of sight of mountains for a number of days, and some days in sight of snow all day. The country is only partially settled and there is not rain enough to make the grass grow. No farming can be carried on except by irrigation. In Oregon and Washington they have rain, but not here or in California. California aside from the irrigated portions is the most desolate country I ever saw. There is no grass and only odd bunches of sage brush will grow. The olive, grape and orange groves are irrigated and constantly cultivated to produce fruit. The atmosphere is clear and the altitude high. They have no malaria here but plenty of nervous and rheumatic troubles. We leave here at 2:25 p. m. and get to Livingston at 7:55 p. m. We enter Yellowstone Park in the morning and will be there a week and we expect to get home a week from Thursday. Thursday last we went by Steamer from Seattle to Victoria, B. C., and had supper in Canada. We came back at night and slept on the boat and enjoyed the trip very much. We are in the best of health and while we are enjoying the trip, we do not expect to move out west." Mr. Leeson is now settled in Fowler, Indiana, has a large congregation and a handsome salary.

RETIRED.—We notice by our exchanges that Wm. Williams, B. A., Principal of Collingwood Collegiate Institute since the early 70's, has retired. Mr. Williams was an able teacher, inspiring his pupils with high ideal and bringing his school to the front rank. We wish for him much pleasure in his future work whatever it is for we are sure he may wear out but will never rust out.

THE LATE MRS. JOHN SCOTT.—All deaths are saddening more or less but peculiarly sad it is when the reaper Death gathers in the young and the useful. Two weeks ago Mrs. Jno. Scott, North Egremont was attacked with typhoid fever and notwithstanding medical skill and assiduous care she has been cut off in the prime of life leaving to her sorrowing husband the memory of a happy home and the charge of their young child about 3 months old. Mrs. Scott, who has only been married about fourteen months, was about 21 years of age, and was the eldest daughter of Mr. and Mrs. Hugh McKinnon, Glenelg. To her husband and the members of her father's home we extend sincere sympathy in the sad bereavement.

MULOCK GARDEN PARTY.—Tuesday last week this annual event was held on the fine grounds of Mr. Neil McLean 3rd con., Bentinck, and was as usual highly successful, there being a fine interdenominational mixture on the platform and around it. Pastor M. P. Campbell and his Baptist flock work loyally and harmoniously together in sacred things and the same spirit, carried into their social gatherings, makes them highly popular. Mr. John Graham, as chairman, of course was an attraction that is never disappointing while the same he said of the Durham Baptist choir though they desired excuses on account of the absence of some of their members. Their music was much appreciated as was the fine duet by Miss Ada Brown and Mr. Search, Miss Nettie Brown accompanist. Revs. Mr. McKinnon, of Port Elgin, a former pastor, was present and made an address, and so did Rev. Mr. Graham, Dornoch, on "Counting the cost." Rev. Mr. Farquharson, Durham, on "How to Keep Young." Rev. Mr. McGregor, Durham on "Always Room at the Top." Mr. Jno. McKinnon, teacher also spoke interestingly and Mr. C. Ramage made some brief remarks. Important features of the evening were the songs by Messrs J. A. Hunter and W. S. Davidson of this town which were much enjoyed. The grounds were effectively and romantically lit by a combination of coal oil soaked rags placed in sawdust and the tables were generously supplied with excellent provisions. \$42 was the gate money and \$65 in all was cleared. Ideal weather made a pleasant evening and games and plays were indulged in till 12 o'clock. The number from Durham was too large to enumerate, but all seemed happy.

A HEROIC RESCUE.
Mr. Brad Jamieson Saves Three Young Ladies from possible Drowning
Tuesday's Mail and Empire records a brave story of Dr. Jamieson's son Brad which sends a thrill of pleasure through his townsmen. While they rejoice at his intellectual success, at his physical prowess winning victories as an oarsman, they rejoice even more that these qualities enable him to dare and do nobler things. Congratulations Brad. Here is the item:
"Cool-Headed Action of Mr. Brad Jamieson at the Island."
What might have been a triple drowning accident last Saturday afternoon was averted by the courage and cool-headedness of one man.
Three ladies were out bathing at the foot of St. Andrew Avenue, at the Island. They had swum out to a sandbar, where they rested. The wind became so strong that it drifted them off the bar, and they thought they would swim back to the beach. They started across, but found the water was beyond their depth. They became frightened, but one of the ladies, who was a fairly good swimmer, began to call for help. Mr. Brad Jamieson, who had just then come down for a dip, grasped the situation at once, and swam to their rescue. He was seriously impeded by two of the ladies, who clung to his neck, but after disengaging them, he held one under each arm and kept them above water while the other lady swam behind him and pushed them along till they reached shallow water. One of the young women fainted while in the water and the other one also fainted when landed.

\$50,000 WORTH OF MACHINERY. Big Purchasers for Cement Works.

Director Gilbert McKechnie went to Detroit last week to attend a meeting of the Board called to open the tenders for much of the machinery required in the plant of the National Portland Cement Co. to be erected in our town. The machinery consists of 6 immense rotary, 70 feet long, which is 10 feet longer than those at work in Cement City, Michigan, and giving a capacity of 25 barrels a day more for each. Then there are the immense tanks necessary for the proper distribution and mixing of the marl and the clay, 13 in number. The interesting and complicated machinery for the dredge and the scow; the "wet tubes" and the "dry tubes"; the "Ball Mills" for the grinding of the clinkers; the "Griffin Mills" etc. etc., far beyond the off hand writing of a novice.

One contract has been placed in Toronto, but necessarily the bulk of it had to be secured in the States. The superiority and reputation of the Krupp Ball Mills however is so well established that that part will be "Made in Germany." Some of this is to be delivered in 60 days consequently there will be a hum of industry round the banks of "Camp's Creek" if switch and buildings are to be ready for their reception.

This "hum of industry" is in progress as we write the first attack being made on the hill to the east of Mr. C. Lang's property where some 20 teams are at work making the cut through which a spur line will be run to connect with the trolley line. The number of dump carts in sight, about two dozen large scrapers, and heaps of small ones, wheelbarrows, ploughs, &c. &c., makes one think it will be necessary to run an excursion from Manitoba to man them all. Mr. Walker has commenced to feed the vast pile of stones into the massive jaws of his crushing machine, and the making of building blocks will soon be begun.
