

CEMENT NOTES. BUILDINGS BEGUN

Tuesday last we think should have been invested with a little bit of sentiment, such as turning the first sod of the great buildings of the National Portland Cement Co., which were begun that day, but with a stern practicality the plough and the scraper went to work at the foundations under Supt. Billing's charge and before many days a building will rise, the first of its kind in this neighborhood, and an evidence of the faith of the Directors in the material they propose to manufacture.

The building is 30 feet wide and over 130 long and is to be the machine shop and blacksmith shop of the company, and in which work will go on all winter. Mr. Billing assures us that work of some kind will go on most of the winter and with the advent of next spring there will be an unparalleled scene of activity round the grounds.

Meanwhile there is activity enough in the various gangs on the switch. Ties for the trolley track are expected in a few days and the ironing may be done this fall.

Mr. Leighton has had an exhibit of the Cement blocks, "made in Durham," placed on the Show Grounds, as they will appear in a wall and their utility will be evident to all who examine them. Incidentally we heard this week that the demand for the Peninsular Cement continues to increase and no slaughtering of prices is thought of.

Next week we expect to have further information on this line.

LIFE OF PRESIDENT MCKINLEY. A Standard Historical Work.

The World Publishing Company of Guelph, Ont., have arranged to issue in Canada the best of all of the forth-coming books on the life of the late President McKinley. It will be a magnificent work profusely illustrated, written by Murat Halstead, the celebrated war correspondent, the man who was selected by the Government of the late President McKinley to write the official report on the Philippine Islands, Murat Halstead has been a life-long friend of friend of President McKinley, and it will be a labor of love for him to finish this book, which has long been in preparation. It will be complete—his boyhood, manhood, war services, political and social life, assassination, full account of the assassin and the anarchist's conspiracy connected therewith, medical treatment, death, burial and state funeral. The book is so cheap and so excellent that every family should have a copy.

We understand that a magnificent portrait of President McKinley, 18 x 22 inches in size, on card board, will be given with each copy of the book.

The work will be sold by subscription and agents will find an announcement of interest to them in another column.

SERIOUS ACCIDENT—Thos. Potter while working at the Welbeck mills on Tuesday, got his hand in contact with the saw and had two fingers of his right hand completely severed, while the thumb and remaining fingers were badly lacerated. A striking and sad coincidence is that last spring he had his leg broken in the same mill.

WE HAVE HIM.—Tuesday's Mail has the following in its "Personal" column: "Slatcher, or Slater (william) went to Co. Grey Canada west about 50 years ago; the daughter of his brother Richard would like to know his whereabouts." On inquiry at Mr. Slatcher's we learn that he had a brother Richard and that in England the form "Slater" is used. Miss Slater is corresponding.

The Presbytery of Orangeville refused to recommend for work as a Catechist Philippe Fontaine who has been lecturing around Creemore, Priceville and Swinton Park. Mr. Fontaine claimed to be a Ph. D., L. L. D., M. A. and B. A., but the Registrar of Yale from which University he claimed to have his L. L. D., wrote saying he was not a Graduate of their college. A letter signed "Turn Coat" written abusing a Priceville man by the professed Doctor helped the Presbytery to their decision not to recognize him.

CONGRATULATIONS.—The following piece of news from "Saturday Night" will interest Durham Readers, who will one and all wish joy to their bright young townswoman in the coat-plated union. "Early engagements are the rule at 'Atherley,' and the latest reported is between that very handsome and popular son of the house, Mr. Lorne Somerville, and a dainty little lady who has brightened many local functions by her presence, Miss Hunter of Durham. Miss Hunter is a sister of Mrs. Bob. Grant, and quite as attractive.

STIRRING EVENTS.—Other world stirring events besides preparation for S. Grey Show have been the visit of the Czar and Czarina to France, the funeral of McKinley, Revolution in Columbia, the decided increase in Boer successes in all S. Africa, the triumphal progress of the Royalties through Quebec Montreal and Ottawa, ending up with eating pork and beans from tin plates, on a deal table, seated on a backless bench, in a log shanty, with a cabbage fire blazing near them. Besides these Carrie Nation went smashing in Ottawa, but all these little things give place to our Big Show.

VERY FLATTERING.—From Saturday's Globe we make the following extract relating to Col. J. B. McLean's part in the Montreal reception to the Duke and Duchess of Cornwall and York. Our young townswoman's decided military bias would, at such a function, undoubtedly enable him to perform his part creditably. The despatch says: "Col. J. B. McLean, commanding the Duke of York's Canadian Hussars, who was on the platform, was addressed by the Duke, who thanked him for the escort he had received in Montreal and complimented him upon the appearance of his squadron. The Hussars had furnished the escort to the Duke and Duchess during their stay in Montreal.
