C. L. GRANT.

VOL. XXIII. NO. 46

DURHAM, THURSDAY, NOVEMBER 14, 1901.

WHOLE NO. 1234

MAN'S HAT FOUND.—Apply at this office.

Figs—6 lbs Fresh new Figs, 25c. at Parker's.

Episcopal Service at Aberdeen next Sunday at 3 P. M.

Chesley is passing through a measles and whooping cough epidemic.

The **Durham Review** and **Toronto Daily Star** to the end of 1902 for \$2.50.

Perfumes and Toilet articles, the best to be had at right prices at **Darling's Drug Store**.

The **Furniture Factory** had to close down on Tuesday owing to low water in the well.

Dr. Chesney's Horse and Cattle Spice takes the lead, the only pure spice made, only at **Darling's Drug Store**.

IMPROVED STOCK.—Mr. R. Britton, Allan Park, believes in good animals and advertises a fine boar in this issue.

The trustees of S. S. No. 6, Normanby have secured the services of Miss Nellie Moran, of Durham, as teacher for next year at a salary of \$265.—Post.

5c. a pound in trade or 4c. cash for live chickens at J. H. Brown's, Holstein. Also highest prices for dressed poultry of all kinds.

FOOT HURT.—Mr. Amos Chislett got his foot hurt while unlatching a scraper at the Cement works and has to take a few days enforced idleness.

Horse and Cattle spice—6 lb. package, 25c. a good tonic and appetizer, compounded from concentrated flesh forming foods and ingredients at Parker's Drug Store.

AGRICULTURAL MATTER.—Our farmer readers will this week appreciate the full account we give of the preparations for the Guelph Show. The importance of this show need not be dwelt upon.

ASSEMBLY.—A number of Mt. Forest young people came up last Friday evening and met with a select few of Durham youth in an "Assembly" in the Town Hall. To the uninitiated this means a dance.

LECTURE.—Last Friday evening Rev. Mr. Bennet Hamilton, gave a lecture in the Baptist church. He took his audience on a trip from Montreal through Quebec, to the Shrine of St. Anne's to the Maritime Provinces of New Brunswick and Nova Scotia of which place he is a native. He is an enthusiastic admirer of the land of blue-noses and being a good observer gave an interesting narrative. His description of the Bay of Fundy and its tides was particularly good.

ANOTHER FATAL SHOOTING.—On Saturday last while four Hanover lads were hunting north of Allan Park, one of them, Herbert Westfalls tripped in some way over a log and in extricating his double-barrelled gun from some brush got shot in the back. Messages were at once wired to Durham and Hanover and Dr's Mahan and Taylor were soon in attendance but the ball having touched a vital part, there was no hope, and he died on Sunday morning at Mr. Hopkins', on whose farm the shooting took place. He was about 17 or 18 years of age, and being a Roman Catholic, the ministrations of a priest were secured before he died. This fatality following so soon that of young Stinson emphasizes the danger in fall hunting, when young men, in the heyday of young manhood are not sufficiently impressed with the danger of the careless use of firearms. The message, not stating who, caused a special alarm in Durham as some of our boys were out and the recent accident to Campbell McIntyre caused nervous apprehension.

REVERSED THE DECISION.—A case of much interest to factory employers of labor was recently decided by Justice Street. A boy, between fourteen and fifteen years of age, who was employed in a factory, was told to place some boards beside one of the machines. When he did so, one man who was in charge of the machine was some distance away, standing at a window. The boy thinking that the machine was not in motion, put his hand on it to brush off some dust, and was severely injured by the knives. He sued his employers for damages, and the jury found that the boy had used reasonable care, considering his age, and that his employers were guilty of negligence, because they had not a guard on the knives, and because their employee, the man in charge of the machine, was not attending to his proper duty at the time of the accident. The Court of Appeal, however, reversed this, and held that a boy of fourteen years of age was (unless proved to be otherwise) capable of understanding the danger he ran in that his employers had not, by their negligence, caused the accident. The action was therefore dismissed.—Chesley Ent.

Personals on Page 8.

SUGAR.—20 lbs Granulated Sugar for \$1.00 at Parker's Drug Store.

Pick out your ebony goods now. Only a few more sets left. **Darling's Drug Store**.

THE PRINCE OF WALES.—Last Saturday the King conferred on his son the above historic title and "Prince and Princess of Wales" will once more figure in Royal tales.

A LEG LOST.—Monday last a Mr. Henry, hotel-keeper at Clifford, got on the wrong train at Palmerston (not a hard thing to do by the way) and in getting off while in motion got under the wheels and but for assistance would have been killed. As it was his leg had to be amputated.

THE KING'S BIRTHDAY.—Passed off in Durham with but slight observation. The keeping of Queen's birthday this year and the recent Royal visit, gave an outlet for a good bit of loyalty, besides it is said the King wished no offensive demonstrations. Guelph and some other places had successful race meets by way of observation. The factory here shut down and Bank and Post Office were closed.

Gentlemen Who Are Bald

Or have thin hair, should call on Prof. Dorenwend at the Middaugh House, Durham, on Thursday, Nov. 21, and see his wonderful devices in Toupees and wigs worn on over 65,000 heads. Explanation and demonstration free. Private apartments at Hotel. Don't fail to see his new invention, patented all over the world.

JUST LOOKING FOR A JOB.—A good story is told in an English trade journal of the master builder and the British workman. Having heard that the men did not start work at the proper time the employer thought he would just drop down about half-past six one morning and see. Going up the yard he caught sight of a joiner standing smoking with his kit not even opened. Simply asking his name, which he found to be Malcolm Campbell, he called him into his office and handing him out four days' pay, ordered him to leave at once. After seeing the man clear of the yard he went up to the foreman and explained that he had made an example of Malcolm Campbell by paying him off for not starting at the proper hour. "Great Scott," ejaculated the foreman, "that chap was only lookin' for a job."

PUBLIC LIBRARY.—A meeting of the Directors of this institution was held on Friday night last at the call of Vice-Pres. Moran to consider current business. A resolution was passed to have a course of lectures during the coming winter, by professors of Toronto University on what is called the University Extension System. A committee has been formed to secure lecturers for at least three evenings, of which further announcements will be made. This being the first meeting of the Board since the death of the late President Dr. Gun, expressions of regret at the loss to the Library by his death, were made, and a committee appointed to draft a suitable resolution to be engrossed in the minutes and presented to the family of the deceased. The board meets again on Friday evening of this week and a full attendance is requested. It is scarcely necessary to remind old members of the advantages offered by this splendid library, but there have been large additions to our population lately who have not yet found it out, and to these we point out its merits. The use of Library and Reference works cost only \$1.00 a year or 50 cts for 6 mos., and the Reading room with Daily papers and high-class magazines is open every night and free.

Mr. Cullerton's Passion Play.

Mr. Cullerton's representation of the famous Passion Play at Oberammergau is drawing great audiences in all parts of the province, and the entertainment is indeed well deserving of such success. At Alliston, Mr. Cullerton had the largest house ever packed into the Town Hall, and many had to be turned away. The same occurred at Leamington, Kingsville and Merrickville. The Passion Play will be seen at Tottenham on Nov. 11th. We understand that so great is the success everywhere met with so far, that it is the intention of Mr. Cullerton to tour the Dominion with it.—Ex. This play will be rendered in Town Hall, Durham, on Saturday and Monday next under the auspices of Trinity Church. Admission 15c and 25c. Reserved Seats, 35c.

All accounts and notes owing to me must be paid by Friday the 15th day of November. I will be at my office that day to receive payment of the same.

W. CALDER

OVER THE NEW TRACK.

G. T. R. Delivers Cement Machinery.

A TRIP BY RAIL TO DURHAM CEMENT WORKS.

Thursday last it was learned that the G. T. R. authorities had the "frog" in position and connections made with the new switch leading to the Cement Works and that that afternoon four car loads of machinery were to be run up to the grounds. Unfortunately it was not generally known or more of the citizens would have donned a bit of sentiment and joined in the welcome to the Iron Horse and its freight.

Secy. Stanhope and Director McLaren had come up the evening before and in company with Director G. McKechnie found their way to the station on arrival of afternoon train. With them were Messrs Wm. Calder, Charter Smith, C. McKinnon, R. Cochrane, A. W. H. Lauder, J. P. Hunter, Jno. Hunt, W. Irwin, C. Ramage.

These boarded one or other of the four cars with the machinery and stuck to them while some shunting was being done. There was an amusing scramble or two by staid citizens when one of the cars was switched off as if it were going to be left and a futile race made after the retreating train. It wasn't "off" yet, however, and returned in due time to pick up all.

Engineer Blackburn then steamed down the line to the water tank, conductor Lavelle in charge of the motley load of Directors, cogwheels, merchants, trusses, printers, gearings, retired farmers, bound for a trip by rail to the great works of the National Portland Cement Co. The switch reached, the backing up commenced, for the cars haying to be left on the grounds, the engine could not go proudly first.

Conductor Lavelle stationed himself on the rear or rather now the forward car and signalled safety or caution as entry was made on foreman Gibson's road, which stood the test to perfection. The passengers were highly interested in the performance and as they swing past Smith's hills and McClocklin's flats their eyes are not on the scenery. Soon a gravel road was reached and there was Robt. Scott in his racing sulky looking as if he would like to challenge the new comer to a trial of speed. Now we are on the classic banks of Camp's creek, whose waters come from the lake supplying the material at the foundation of all this enterprise. Cork town hill is receding in the distance, on the right an imposing height came in sight the residence of Thos. Brown standing sentinel at the approach of the amphitheatre of hills through which is the great cut now coming into view. On the left the natives are at their doors and windows to welcome the invaders. Past C. Lang's establishment, C. Wilkinson's "Shoe Shop" and a rear view not remarkable for aesthetic architectural features we turn north leaving the main line of the switch. Time-keeper Arch. Davidson boards the train here, thus being able to boast of having ridden twice on new rails to Durham, the first time 18 years ago.

Here are the grounds, formerly a second rate farm, now beginning to bristle with striking buildings, massive foundations, great excavations, &c. As the train slowly advances the throttle is opened and the engine gives a scream of triumph and foreman Layton and dozens of workmen leave their posts and make a rush to board the cars as they came to a stand still on the last rail laid, within about one rail length of the barn, near by being the stumps of the apple trees that two months ago formed the orchard!

Just as the train stopped we noticed Mr. Neil McKechnie on the north bank of the rotary building, viewing the approach of the Iron Horse with its iron load. We were glad to see him there for to his persistence and foresight must ever be attributed the inauguration of the enterprise others are so ably carrying out.

Photographer Browne was on hand and took two views of the train and its load of men and machinery which view we hope to present to Review readers before long.

The machinery in part were small things weighing each we are told 10 or 12 tons, the gearing for the immense 70 feet long rotaries soon to follow, roof trusses for the machine shop, and other matter.

The rails are being laid through the cut this week, as far at least as the

ballast and sand beds, and if weather allows will be pushed right on.

The gravel train is expected to begin ballasting to-day Thursday.

Several carloads of cement and other stuff have arrived at the barn by G. T. R. since the four carloads of machinery were run up. Should the weather remain favorable for a few weeks longer the buildings will be advanced enough to keep most of the men at work all winter. Now get down on your knees and pray for good weather.

Don't forget that ads have to be in this Office or left at Darling's Store by 11 o'clock Tuesday, so that change can be made that week.

Director Gilbert McKechnie went to Toronto Tuesday morning to a meeting of the Board. We believe some further purchase of new machinery is to be made.

POSTPONED.—The debate in the Presbyterian Church on "Arbitration as a means of settling National Disputes," is postponed till next Monday night. Everybody welcome.

Ladies Look Younger

Which is the desire of one and all. Take the trouble of visiting Prof. Dorenwend's private show rooms at the Middaugh House, Durham, on Thursday, Nov. 21, and see the many beautiful inventions in Styles of Human Hair Coverings, Wigs, Bangs, Switches, etc., and inspect his new patent structure.

Rev. Mr. McGregor preached in Gravenhurst last Sunday. Rev. Mr. Newton occupying the Baptist pulpit here. Mr. Newton we understand is to be placed here permanently. He is a married man, with two of a family. We welcome Mr. and Mrs. Newton to our town, and hope we may have a long useful and pleasant pastorate. The resignation of Rev. Mr. McGregor will be heard of with surprise and regret by the town, in which he has ever been a useful citizen and faithful pastor and preacher. Wherever his lot may be cast good wishes will follow him from his many friends here.
