NOTES FROM THE PAN-AMERICAN MODEL DAIRY.

The contest is now practically over although the cows will not leave until Nov. 1st. The work of the next nine days will not change the relative standing of the different breeds, and we can now with certainty, predict the winners in all except the class in which the gain in weight is to be added. The cows were weighed on five consecutive days at the beginning of the test and they are to be weighed five times at the end. All are nearly all, the cows will show gains in weight and the larger breeds will show some hundreds of pounds more flesh than when the test commenced which speaks well for the care bestowed upon them. None of the herdsmen have escaped having one or more sick cows, but it is gratifying to those in charge that none of the cows have died during their six months confinement. During the hot weather they had to be very closely watched, and less experienced herdsmen would undoubtedly have had losses by injudicious feeding.

It is plainly to be seen, by the number of questions that are asked about the "total solids" prize that the majority of people have a very indistinct idea of the real meaning of the term and I will briefly repeat what I have written before.

Milk is composed of water, casein, fat, albumen, sugar and ash. All these ingredients are necessary to make it a complete food and all the ingredients are valuable when the whole milk is consumed. In making butter we practically take nothing out of the milk but the fat and in making cheese, the casein and fat are the principal ingredients taken. The other ingredients are all, practically, lost in the buttermilk, skim-milk or whey, as far as human consumption is concerned. In a milk trade where the milk is all for human consumption the ingredients are all valuable and are called the solids in milk and in many cities the law calls for milk containing a certain amount of solids. These solids are determined in the Model Dairy by those in charge of the testing department and they are credited to the cows at 9 cts. per lb. The heavy milkers are the most profitable, as a rule, on the "total solids" basis and the Holsteins are away ahead for this prize and it is very probable that they will also win the prizes for "Total Solids plus the gain in live weight at 3 cts. per lb."

One of the Jersey cows (Mossy of Hursley) took a chill yesterday followed by a high fever which is going to be a drawback to that breed in the final week. They have been doing well for several weeks and for the week ending Oct. 22nd, they got away from the Holsteins with a lead of 53 cts. and they were rapidly lessening their distance between them and the Guernseys. Had Mossy kept to her work the probabilities were that the amount between the Guernseys and Jerseys at the end would have been less than was lost by Rexima (Jersey) during the first two weeks of the test.

The contest has been a most interesting one, and the skill of the herdsmen has been put to the test in manipulating the rations to get the most profit and some of the herdsmen say that the lessons learned have been invaluable to them in the future handling of dairy cows.

There was a falling off in milk last

UP-TO-DATE MILLINERY

MISS DICK'S Millinery Business with Miss De Lyon in charge as trimmer has been most satisfactory this season. The popularity of goods we have turned out has created such a demand as to compel us to increase our staff of employees.

SIX PRACTICAL ARTISTS

are now engaged and are kept busy filling the increasing orders. The ladies of Durham and vicinity will find in our stock the latest leading fashions in Millinery and at very reasonable prices

MISS DICK.

week, with all the breeds, but not a corresponding increase in fat, in fact some of the breeds tested less than the previous week.

Following is the standard of the herds for the week ending Oct. 22nd:

	Cost of Feed	Profit	Value	Butter	Milk
Sherthorns	\$6.10	\$5.03	\$11.22	41.90	396.2
Ayrshires	5.70	6.48	12.19	48.76	1011.0
Jersey	5.55	7.24	12.79	51.17	820.6
Pooled Jersey	4.08	4.81	8.87	35.60	584.9
Red Pooled	5.05	5.45	10.50	41.98	814.7
Brown Swiss	5.37	5.02	10.30	41.57	864.3
Guernsey	4.98	6.81	11.30	45.88	736.5
Holstein	6.33	6.71	13.34	58.38	1297.3
French Canadian	3.97	5.45	9.42	37.69	703.3
Dutch Belted	5.27	3.39	8.66	34.63	813.2

Notice to Creditors.

In the Surrogate Court of the County of Grey.

In the matter of the Estate of James Gunn, late of the Town of Durham in the County of Grey, Physician, Deceased.

NOTICE IS HEREBY GIVEN pursuant to R. S.O. 1897, Cap. 120, Sec. 38 and amending acts, that all persons having claims against the Estate of the said James Gunn, who died on or about the Twenty-third day of October, A.D. 1901, are required to send by post prepaid, or to deliver to J. P. Telford, of the Town of Durham, Solicitor for the Executors on or before the

7th Day of December, A.D. 1901, their names, addresses, and descriptions and full statements and particulars of their claim and the nature of the security (if any) held by them duly verified, and that after the said date the executors will proceed to distribute the assets of the Estate of the Deceased among the parties entitled thereto having regard only to the claims of which they shall then have notice.

J. P. TELFORD.

Solicitor for the Executors.
Dated this 12th day of November A. D. 1901.

BOAR FOR SERVICE.

Thoroughbred Berkshire Boar, Long Bacon Type, bred by T. A. Cox, a prize winner at the Industrial and Buffalo Exhibitions in 1901, will be kept for service at lot 28, con. 4, N. D. R. Bentinck, Dan and Sire were both prize winners. Terms: \$1.00.

ROBERT BRITTON, Prop.
Allan Park, P. O.

PERSONAL MENTION.

Mrs. Telford and Miss Bessie are in Toronto.

Mrs. G. L. McCaul is in Guelph visiting friends.

Mr. McWilliams, Owen Sound, was in town, Tuesdays.

Miss Maggie Munroe went to Toronto for a few days.

The affable Wm. Harvey has returned from Toronto.

Miss Blanche Hunter went to Toronto Saturday morning.

Dr. Park, of Hamilton, was at home over the week end.

Mr. Shires, after a few weeks' visit to Chesley is home again.

Miss Putman, Mt. Forest, was a guest of her aunt Mrs. Whalen.

Mrs. Levi Morlock, Listowel, is visiting at Mr. S. F. Morlock's.

Mr. Rod. McFarlane left for Flint, Mich., a week ago Monday.

Mr. Wm. Vollett left for O. S. Saturday to take a position there.

Mr. Cyrus Bean, was the guest of his brother Mr. Wm. Bean over Sunday.

Mr. Will Linnin visited his father and brother the beginning of this week.

Mr. Max. Lockie, Hanover, was a guest of the Hughes family on Sunday.

Miss Jennie Cairns, of Ceylon, spent the first part of the week with Mrs. Bean.

A granddaughter of Mrs. Hill's from Orangeville came up Saturday on a visit.

Misses Jessie and Mamie Hunter paid a visit to Mt. Forest from Friday to Monday.

Mr. Lyman C. Caldwell is home from Toronto where he was a member of the C. School of infantry.

Miss Alla Patterson after a couple of months spent among relatives returned to Flint, Mich., on Saturday.

Mrs. Garbet, Hamilton was in town last week visiting her brother Mr. John Pirth, whom she has not seen for 15 years.

Mr. Jas. R. Gun, Bright, was in Durham from Saturday to Monday, and is assisting in winding up his father's estate.

Robt. Aljoe has bought a piece of land on Lambton St. and will build a blacksmith shop there soon just west of Wm. Lawrence's establishment.

Mr. and Mrs. Moffatt and Mrs. M's brother William Vollett, of Toronto, were in Owen Sound last Saturday. Miss Nellie Watt accompanied them.

Mr. Stanhope's daughter and Mr. McLaren's wife accompanied these two Directors of the Cement Co., to town last week and spent a couple of days here.

Mr. Samuel Wright and daughter of Durham, have been visiting his brother-in-law, Mr. Geo. Cruickshank, Heathcote, for the past week.—Clarksburg Reflector.

Mr. Thos. Swallow, sr. and son Nat came home last week from Winnipeg. The old gentleman has a soft side for Ontario and we are pleased to see him amongst us again.

Dr. Arthur Gun came home on Saturday last. We understand it is his intention to take his late father's practice here, and we have no doubt his own personality and his father's reputation will give him a good standing in the community.

Mr. Williamson, a wood worker with the McKechnie firm, has bought from H. Burnet the old Review property in Upper Town and will move his family here from Mt. Forest in a few days. Our welcome is wide enough for all new comers.

Mrs. Marshall, accompanied by her daughter Olivene and son Archie, left for her home in Ottawa on Friday last after spending several months at her old home here. Her sister Miss Robertson, accompanied her to Toronto and returned Saturday.

Mrs. John McFarlane has sold her property in Upper Town, (next to C. L. Grant's) to Mr. W. S. Horstburgh, of Holstein, who took possession today, Wednesday. We welcome Mr. and Mrs. Horstburgh to our good town, and trust the change they are making may be highly satisfactory.

The public of Durham and S. Grey are informed that the business heretofore carried on by J. A. Shewell will now be carried on in the new premises in the McIntyre block next the Bank under the firm name of Shewell & Lenahan.

Old customers are cordially invited to call and see us in our new store where we hope to make the acquaintance of many new friends.

A Call Respectfully Solicited.
SHEWELL & LENAHAN.

SUGAR BEETS AS A MORTGAGE LIFTER.

If the expectations of the beet sugar people come true this industry will prove of immense value to the province of Ontario. There seems little doubt that the industry will succeed as well in Ontario as it has in the adjoining State Michigan. A deputation of Berlin, Ont. citizens interested in a prospective beet sugar factory visited Bay City the other day and they bring back a rosate report of the money that is to be made in the beet-sugar industry, by both farmers and manufacturers. Beet-sugar factories have taken the place of the sawmills that used to flourish at Bay City. Three factories are in operation within a radius of thirty miles of the city, and several others are under construction. Since their advent the city has built 170 miles of stone road for the benefit of beet growers. To keep an average sugar plant in operation requires 500 tons of beets per day, 90 tons of coal, 75 tons of lime rock, 8 tons of coke, 5,000,000 gallons of River water, 400,000 of pure water, and from this is made about 100,000 lbs. of granulated sugar.

The business men of Bay City say that their business has been better the past year than ever before, not excepting the palmy lumber days. During the first two weeks of the present month 51 mortgages were discharged against farm property, and the lifting of these yokes was directly traceable to the sugar-beet crop. Farm land has increased in value, and it is hard to rent at any price, and the "Farm for sale" notice so conspicuous in past years is now conspicuous for its absence. The three refineries in the county in which Bay City is situated have brought to the county at least four thousand new people, who have been enticed as bona fide residents. The farming and agricultural lands have been enhanced in value at least three million dollars. The business and commercial interests of the county have been quickened by the increased capital, which has been placed in circulation. The slipshod method of careless agricultural customs have been abandoned, and the theory of intense farming has been almost universally resorted to. Land which has heretofore produced, when cultivated in ordinary grain crops, from \$7 to \$10 an acre net to the owner, is capable of producing, when properly given to beets, from \$50 to \$90 per acre, besides giving permanent employment to at least four times the number of laborers. Large refineries pay out each year \$5,000,000. There is plenty of work for the poorer classes in the beet fields and good wages are paid. Having plenty of work in the summer, the poorer classes are building their own homes and paying the mortgages on their homes. The laboring classes and such mechanics as carpenters, bricklayers, stonemasons and plasterers are kept steadily working from November until February or March in the refineries, after their outdoor work is through in the fall. This makes the location of the beet-sugar factories most profitable in or near a city, and of lasting benefit to the mechanic.—Toronto World.

The threatened war between France and Turkey has been averted by the Sultan agreeing to pay its debts. His Grand Vizier died when he yielded and there is a grim suspicion his death was the result of the Sultan's chagrin, just as "earthquakes in Armenia" are made to cover his massacres there.
