TURKISH TROOPS MUTINY.

Crazy Convict Escapes to a Roof and for Some Hours Baffles the Officers-Serious Riots by Students at Louvain, Belgium.

Frankfort, Dec. 10 .- A large part of the handsome railway station precincts here was wrecked this morning by the Orient express, the airbrakes of which failed to work. The train dashed into the station at full speed, jumped the platform and came to a standstill in the middle of the waiting room, against the debris of a stone wall. A few of the passengers were badly bruised, but none was fatally injured. The people about the station and in the waiting room had remarkable escapes. The Turkish Mutiny.

New York, Dec. 10 .- The Constantinople correspondent of the London Times says the garrison at Mecla, while, has mutinied. As a result money to pay the troops there was sent from Constantinople on Wednesday. Hundreds of Turkish women pensioners gathered on Wednesday in the precincis of the Porte, weeping, shricking and demanding their pay. telling them they would forfeit their pensions if they did not cease their A Crazy Man's Act.

London, Dec. 10.-A convict at the Penteville Prison wno managed to elude the warders has established a sort of a fort chabrol on the roof of the institution, and for the last thirty hours has defied all attempts to dislodge him. Thousands of spectators are watching the show and aiding the prisoner by timely warnings of the movements of his would-be captors. Ladders placed against the wall are promptly thrown down by the occupant of the roof, whose reckless movements and wild laughter at the futile efforts of the warders are thought to indicate insanity. The fugitive has collected a large pile of slates, which he gleefully throws at the heads of the officials who attempt to scale the wall by means of ladders until they are forced to retreat. At noon he was still holding the officials at bay.

The convict eventually was starved into submission. He surrendered this afternoon after defeating all attempts to dislodge him by force. He was finally allured to the ground by the offer of a dish of roast beef and potatoes.

Rioting in Belgium. Brussels, Dec. 10.-There has been constant rioting during the past week among the students of Louvain, in Brabant. Yesterday these disorders became serious. The students smashed the windows of business establishments and insulted passers-by. They were charged and dispersed by the police, and several students were wounded and arrested.

Fifteen Judges Consider Whether it is Owed l'enderness.

Trenton, N. J., Dec. 10.- Fifteen grave and dignified Judges forming the Court of Errors and Appeals, the highest judicial body in the State of New Jersey, listened to profound arguments to-day as to the value, the rights, the privileges and the virtues of a cat. It rests with these fifteen Judges to say whether Anna Eliza Ryerson who loved the cat, is to receive damages for the injuries she received in falling down stairs while trying to provide for the safety and comfort of her troublesome pet. There also is Involved the question as to whether Mrs. Ryerson did not show contributory negligence in her humanitarian consideration for the cat.

There was much time devoted to discussion of whether a cat was worth so much kindness and had any commercial value, The Chancellor and Chief Judge and the other dignified Judges of the court followed the argument with deep interest. They were much amused at times. Their decision will not be given until late in the

aroused thoroughly by wild oratori- BARKIS WAS WILLIN' ENOUGH.

Middletown, N. Y., Dec. 9.- Wooed, won and wedded all within a period of five hours was the record made today by Robert Dugdale, jun., a prominent business man of this city, who has just claimed as his bride Miss Mina M. Tingler, of Dresden, Ohio despite the fact that the young woman had another suitor.

Miss Tingler had been employed for several months in one of the largest jewelry stores in this city. Having decided to return to her home in the west, she was bidding her acquaintances good-by preparatory to her departure on the next train, when as Mr. Dugdale approached her to say a parting word, his feelings of admiration for the young woman and his sense of loneliness at the thought of her departure impelled him to ask for her hand in marriage. His proposal was quickly accepted,

and when a postponement of her intended departure and an immediate wedding were suggested. Miss Tingler's approval was at once given. An expressman who called for her trunk was met at the door by Mr. Dugdate, who paid him for his trouble and informed him that Miss Tingler had decided to remain. Arrangements were speedily begun

for the wedding, invitations were hastily issued to a large circle of intimate friends, the parlors of the house in West Main street were tastefully decorated, the Rev. Dr. David Winters was summoned, and in a short time the bridal couple, entering the parlor to the strains of the wedding march from "Lohengrin," played by Miss Helen Hampton on the piano, were pronounced husband

Later Mr. Dugdale gave an elaborate dinner in honor of his bride. Among the guests was John S. Pinover, of this city, who is said to have been an ardent admirer of the young woman. The bride is a daughter of Mr. and Mrs. Frank Tingler, of Dresden, Ohio.
