Exiled.

It comes to me often in silence, When the firelight splutters low-When the black, uncertain shadows Seem wraiths of long ago; Always with a throb of heartache, That fills each pulsive vein. Comes the old, unquiet longing For the peace of home again.

I'm sick of the roar of the cities, And of faces cold and strange; I know where there's warmth of welcome,

And my yearning fancies range Back to the dear old homestead, With an aching sense of pain, But there'll be joy in the coming, When I go home again.

HOW TO HAVE DDETTV TEETH

In our country we consider that a woman has pretty teeth if they are small, white, regular and well placed. Their dazzling enamel makes them resemble little pearls, and in fact there is a metaphor so constantly in use that it has become banal--"two rows of pearls over which close lips of coral.

Teeth are important factors and there is never good health without away from John, for he is a very digested food is its thorough mastication. Food insufficiently chewed is painful to digest, and in most cases dyspepsia has no other origin than

So much for general health, but for the cleanliness and niceness of the teeth it is first of all necessary to have perfect purity of breath. Rinse the mouth every morning with

warm water and an antiseptic wash. The teeth should then be brushed with a small brush which can reach every corner of the mouth. One should always brush from the | ************** gum to the end of the teeth, down-

There is in New York a society whose members have such a surfeit is to bide yo time, be shoo ye aim, of useless time that they devote a great deal of time to unique study of vital statistics. According to these people the oldest man alive to-day is Izai Rodofsty, of Moscow. This Russian is 136 years old and his case is reported by Dr. Joseph Jernoccky, an eminent Russian physician. He has good eyesight, but poor hearing, was never known to suffer an illness and er died at the age of 120.

The most aged woman of to-day, cover, is Mrs. Nancy Hollifield, an has always lived a temperate, simple life, doing housework principally of testimonials since she reached maturity.

There are much more remarkable cases than these on record, but the claims of but a relatively few centenarlans can be corroborated. Ismail Hudjo, of Khuti, Albania, is reported to have died last month at the age of 160, his faculties being unimpaired, and his teeth intact until the last. Whether this was a bona fide case, however, has not as yet been determined by the committee.
