Wreckage Picked Up on the Pacific Coast.

## WAS BOUND TO HAWAII.

She Left Victoria on the 2ud of December-Fears That She Foundered in a Gale the Day After-List of Her Officers-Were 130 Officers and Men-Description of Vessel.

Victoria, B.C., Feb. 6.-The arrival of the steamer Queen City from the west coast of Vancouver Island tonight served only to confirm the fears of those who believed the British sloop of war Condor was lost on the way from this coast-to Honolulu. The Condor left Victoria on the 2nd of December, in company with the flagship War bite, the latter proceeding south + the southern station and the Conc . proceeding on towards Honolulu. She sailed from here on the 2nd, and on the night of the third there was a heavy blow, in which the collier Mattewan was lost and other craft came to grief.

#### Naval Officers' Theory.

admiral, thought she had burnt up her day. coal in the gale, and resorted to her sails, and failed to reach Honolulu, owing to striking in a belt where trade winds do not blow this time of year. Even yet they fail to credit lost even in a heavy blow. Notwithstanding this, a few days ago the of her, and the United States Government has since sent the cutters Grand and McCullough to look for If as stated in the despatch, the

The news which the Queen holders-principally Mr. Booth-would City brings is most disquieting. Her | get good value for their interest. officers state that on the 6th of Fanuary the Indians off Abousett picked up a portion of a boat. On the stem was the letters "XIV." in Roman characters. Below this was "S. H. B." or "S. L. I. V," Below this again were the letters "S. H." and the figures "98." They also found two boat grips of galvanized iron, the rings about six inches in diameter, attached to which are two short pieces of chain. On the rings were the letters "M. T." and "S. R." The boat was white and had a copper bottom similar to boats of warships. But there was still greater evidence attesting its identity. It had the brass letter "C" on a black boss, and the broad arrow, which signifies the property of the Admiralty of Britain, and the removal or defacement of which is attended by

The lighthouse keeper at Cape Beale also found a chronometer and a gold watch and chain. The watch | ton, Vt., to Sorel, Canada. was numbered 5,833, and was an The whole result of the purchase open face Bartlett movement. # HELD FOR EXTRADITION.

After Seeing Melvin Hall.

Toronto, Feb. 3 .- Inspector Murray has just returned from Ogdensburg, where he was successful in having Melvin Hall, the former terror of Stormont and Glengarry, held for extradition. The papers have ocen sent to Washington, and withas a short time the inspector expects | wards the bill passed in February, to have his man. At Ogdensburg the inspector was put on the rack law. by the two lawyers of Hall, and for two days was examined on all con-

#### TROLLEY CARS WRECKED.

Three People Killed and Two Fat-

ally injured.

Pittsburg, Feb. 6.—Three people killed, two fatally hurt and a score of others more or less injured, is the record made by two runaway cars pn the Monongahela branch of the Pittsburg Railway Company to-night. The accident happened at the foot of the long hill running into Wilmerding from McKeesport. A car without passengers got beyond con-trol of the motorman and dashed down the hill a quarter of a mile at a terrific speed. At the bottom it road station, carrying away the side of the depot and tearing up the platform. A large crowd gathered about the wreck and twelve minutes later a second runaway car came tearing down the hill and ploughed into the crowd with death-dealing

# CANADA ATLANTIC

To be Owned by the New York Central.

#### NEW ROUTE TO QUEBEC.

Ottawa, Feb. 3.-"You may say that I have had a conference lasting for an hour and a half with Mr. J. R. Booth this afternoon, and that probably by to-morrow afternoon the transfer of the Canada Atlantic system to the New York Central will have been consummated. It will be a pretty good thing for Ottawa, don't pital. A wagon road traverses the you think ?"

and in San Francisco reported that of the Wagner car system. Dr. Webb and Yukon Railway.

Stock of the Company. The capital stock of the Canada Atlantic Railway consists of \$2,000,-000 of preferred stock, \$5,200,000 of the news that the warship would be common stock, and \$4,200,000 of first mortgage 5 per cent. bonds, making a total capitalization of warship Phaeton put out in search \$11,400,000. The road is well equipped. The net earnings of the company last year were \$403,000. price of the Canada Altantic is \$10,000,000, that figure would pay nearly par on all the stock, both

> Consolidating Two Systems. The Booth system runs from Parry Sound, on the great lakes, to Coteau on the Grand Trunk, thence crosses the St. awrLence to Valleyfield and into the United States,. crosses the St. Lawrence to Valleyfield it connects with the St. Lawrence and Adirondack system, an adjunct of the New York Central. The St. Lawrence, and Adirondack goes from Valleyfield toward Montreal, which it reaches over the C. P. R. bridge at Lachine. But it is designed to extend the road to St. Lambert, opposite Montreal, where it will connect with the South Shore Railway, which is being built to Quebec. Dr. Seward Webb, the New York Sun says, is now engaged also in a project to consolidate the South Shore Railway in Canada with the Quebec Southern, which runs from Swan-

for a direct and shorter line from the lakes to Quebcc, on the north shore, and the New York Central would fall heir to that also.

Formerly Two Companies. The total mileage of the Canada Atlantic Railway Company is 466.

### Will Shorten Distance.

Dr. Webb said that about a year ago he became aware of the fact that Mr. Booth would not be unwilling to sell the Canada Atlantic Railway if he got a satisfactory price, and since then gotiations have been quietly in pro ress. Dr. Webb said he would be gla to get hold of the Canada Atlant, as it would shorten the distance between Ottawa and New York and would benefit other of the railway properties he controls.

The negotiations are being conducted with so much secrecy that it is impossible to get anything like accurate information. It is said, however, on reliable authority that the deal will not affect the Canada Atlantic Transit Company, a separate free milling gold quartz has been concluded, the verdict of acquittal concern, incorporated under the laws of Canada and of the State of Wisconsin. This is the company which large numbers of people armed with fect that \$500,000 had been loaned operates the line of freight carriers on the great lakes connecting with the Canada Atlantic Rallway.
