The lecture given by Mr. J. A. Nicolls.

Dominion Alliance organizer, on Wednesday evening last was fairly well attended and a most respectful hearing was given him. He is, of course, a fairly happy in illustration, has hob-knobbed with the Hon. Neal Dow, of ed in the "war", yet we feel certain few of the waye been given that left less of the waye been given that left less on the state of the waye been given that left less of the waye had a way the way lectures have been given that left less of the inspiration for unanimity of

He urged all temperance workers to remember they were engaged in a 'war' not a "battle" merely, and if defeat was in store for them on Dec. 4, they must be prepared to keep their armour on.
He narrated at length the steps taken
to secure the passing of the Act in
Manitoba, framed, as he reminded them, by a temperance man, rehearsed the votes taken in Ontario and the promises of Sir Oliver Mowat and of Hon. G. W. Ross which he claimed

Mr. Nicholls represents that class of temperance men who whine at the burg on a business trip. alleged unfair conditions surrounding the referendum, who think that the government with a small majority should assume the full responsibility for an act which they at the same time think can not secure the support of 40 per cent of the electorate.

Mr. Nicholls' view of the situation reaches not beyond the coming elec- retire earlier. tions. He had scarcely a word of exhortation for the temperance forces to press forward and take the half loaf possible rather than no bread. He has evidently already entered into the shadow of his expected defeat on Dec. in our burg. H thinks that working permeates his lecture. There is no green spot on which to rest his eye, Mr. Whitney offers nothing better and should be punished too and paradoxical chopper, chopping grain for his stock. from the lecturer's remarks that what is "op to us" now is to punish Whitney Ross! Thus it is, Mr. Nicholls' .yiew is centred on the elections, on the necessity of beating Ross, not on general principles, not because he is the most advanced temperance statesman in Canada, not because there is anything better in sight, (for there is nothing in both Brant and Walkerton and the approaching it), but because he gives an Telescope last week narrates the ance men yoting, would prevail over all others yoting and all others staying its results as follows : at home, by which 2 men would make laws for 5, for this is practically what 50 per cent of the vote of 1898 means. We still insist the referendum idea is

the first time here. The Scott Act was first passed in parliament and brought into force, when, subsequently, the people voted on it and carried it. This is a larger kind of Scott Act, open no was a terrible and universal scourge; doubt to some objections, but there is in London alone for every thousand no use, while Quebec is in the way, in deaths one hundred were small-pox and importation — which must come cases, and men and women horribly

ald in Manitoba and the objections all districts of Gloucestershire persons engo to show that in the minds of the gaged in tending cows were hable to

As to the demand for holding the but, if desired, as is openly professed so the temperance strength of the country, the matter from the bands of a woman and if stones be thrown at it by tem- who had caught cow-pox. He inserted perance men and temperance leaders they will make a cairn to commemorate it into the arm of a healthy boy of eight a stage in the "war" when Principle who suffered from the disease in the went down before Politics, and the ordinary more or less harmless way of demoralization of the forces will be- cow-pox. Six weeks afterwards he come so great that no leader on either side will for twenty years, bend so low poison in coulated this boy with the small-pox as to do them reverence, while the de-The course for temperatice men to

### ABOUT VACCINE.

Compulsory Vaccination is in force historical discovery of the practice and

The origin of Dr. Jenner's discovery is one of those things that everybody professes to know all about, and yet few not new though the name is in use for really remember. Just now it is worth while to tell the story, especially as it can be told in a few words. Small-Pox when Jenner made his first experiment? pitted with the disease were numerous There are those who see no use in in all classes of society. It came to Dr. this bill who thought it all right waen Jenner's knowledge that in certain vast majority of temperance voters infection from a disease of the udder, which they called cow-pox, and that vote at the time of the general or municipal elections, there is togic and hones- small-pox. Investigating what some would have regarded "as an old wife's as to get a larger yote, it is neither tale "he found that it was so, and it logical nor honest. If there are not occurred to him to inoculate persons enough interested voters to leave home with cow-pox as a preventive of the to vote for temperance on its own dire and dreaded plague of small-pox. vote on the referendum will show truly One of his chief ventures was to take struction of confidence within the followed the operation. Upon this Jenner began to talk and work and pursue is to unite on this referendum, make known his theory and practice to roll up such a vote as will humiliate of vaccination as a preyentive, and small-pox began to decline from 100 8 child, who is not satisfied when he gets the neglect of yaccination among If they cannot take the 50 per cent sceptics) it is but a fractional percen-
