Lace Curtains and Chenille Curtains at The Big Store.

Mr. R. M. McGowan announces in another column, additions to his mill machinery. He has we believe fitted up a chopper with a governor and speed indicator, which makes a high class machine.

Miss Charlotte E. Wiggins has been addressing audiences in the Presbyterian church twice a day up to Wednesday. She is under the auspices of the W. C. T. U., is a very good speaker, and has made a good impression.

IMPROVED STOCK.—Mr. Thos. Scart, of the Rocky purchased lately a very fine young bull of the Prince Cruikshank breed. At a sale two weeks ago, at Britannia, Ont., a 2-yr old heifer, half sister to Mr. Scart's bull topped the selling list at \$565.

Ladies Look Younger.
Which is the desire of one and all. Take the trouble of visiting Prof. Dorenwend's private show rooms at the Middaugh House, Durham, on Thursday, April 17, and see the many beautiful inventions in Styles of Human Hair Coverings, Wigs, Bangs, Switches, etc., and inspect his new patent structure.

The Silk Bargains at The Big Store this week are short ends from 1 to 4 yds and the price is just exactly 1/2 Regular Price. 50c Silks for 25c yd.

We are glad to see Mr. Archie McCormack in town after being in Stratford Hospital for the past 5 weeks where he underwent a very painful operation on one of his eyes. By the skilful treatment of Dr. Deacon and now of Dr. Gun of town, he will soon be able to return to his former business in Iowa.

Cement men should buy our Brown Overalls and Smocks made by the Sanford Clothing Co. They are Cracker Jacks. The Big Store.

MacFarlane's Grip Tablets will keep a cold away.—25c a box.

A NEW CHURCH.—The Baptist congregation here have decided on having a new church and the structural features of it are in preparation at Architect Ritchie's of Mt. Forest. The site chosen is to be the north east corner of the present lot. Rev. Mr. Newton has bought the western half of the lot and will erect a residence there and is going to move the present church back for a stable and shed. This is a forward move which gratifies the whole town, and we hope pastor Newton and the Baptist people will soon be the proud possessors of one of the handsomest churches of the place.

Wall Paper Sale this week at The Big Store. Many pretty papers reduced from 10c a roll to 5c a roll to clear. All papers trimmed free.

THE LIBRARY.—Last week the important work of recataloguing was in progress every night and the work still goes on this week. The board regrets the delay in issuing books, but as the work is important and renumbering, and in some cases reclassifying, is necessarily slow, readers will bear with the interruption for a short time. A ransacking of the private libraries and book cases in town has resulted in the return of a number of books not in for some time. There are still a few out, and holders should see that they are returned at once so as to appear in the right place. We have a splendid library here as we learned by last week's work, but it is rather humiliating to find in History and Science an occasional useful book with the leaves still uncut. We hope the new step being taken will result in a large increase of readers who will dip into something just as fascinating as fiction, and much more useful.

The Big Store has a splendid Hardware display in the South Window this week.

Window Shades at MacFarlane's.
Miss McKechnie and brother Gilbert, Dr. and Mrs. Jamieson came home Monday from their Georgia trip. They were handsomely entertained and of course the trip itself presented many pleasing features. We shall in a future issue refer to some of their experiences.

The variety in \$1200 worth of Millinery is one of the reasons of our Millinery Success. We have dreams of hats for pretty wearers. Look at the windows. The ideas of fashion centres at your disposal here, and at prices as reasonable as swift selling goods warrant. Read our Ad and call early at S. F. Morlock's.

The Big Store people say their sales of Slater Shoes for men are very large this spring.

Gentlemen who are Bald
Or have thin hair, should call on Prof. Dorenwend, at the Middaugh House, Durham, on Thursday, April 17, and see his wonderful devices in Toupees and Wigs worn on over 65,000 heads. Explanation and demonstration free. Private apartments at Hotel. Don't fail to see his new invention, patented all over the world.

FOR SALE AT A BARGAIN.—2000 feet 1 inch iron pipe. JAS. A. HUNTER.

CEMENT PROGRESS.
7 carloads of the large engines for the power house are at the grounds, the power house building is about completed and the men are at present working on the machinery foundations. Next week more machinery is to arrive and the Hamilton Bridge Co. are at present on the grounds erecting the steel buildings. The track is being graded and a large number of men are being employed and constantly added to. The transformation of the grounds taking place is something wonderful and citizens who doubted for a time must now have their faith made perfect.

The Death Roll.
It is our sad duty this week to chronicle the death of two well-known citizens. Mr. Isaac Wilkinson, Normanby, long and favorably known there died on Monday morning at his home just south of Barber's corner. We have not the particulars of his death at this writing. Mr. Wilkinson was a faithful member of the Methodist church and highly valued as a neighbor and citizen. His wife, who is a sister of the late Henry Wakefield, revere of Egremont in the early days survives him and a family of 2 sons Henry and John, and 4 daughters Mrs. Thomas Petty, Lizzie, Esther and Annie.

The other is Mr. Donald McDonald who died Monday afternoon at the home of his daughter Mrs. Wm. Lawson. A heart affection accompanied with a dropsical complaint carried him off. He was a member of the Baptist church in town, and his family will benefit by his forethought in securing an insurance in the Sons of Scotland Society. He leaves as chief mourners, 2 daughters Mrs. Wm. Lawson and Maggie in Detroit, and 6 sons, Donald in town, and John, Neil, Alex., Archie and Allan at various points.

There died in Rust Township, Michigan, on March 28, Oliver Farrier, aged 83 years. He moved to Bentineck about 38 years ago from the Township of East Flamboro, on the farm now occupied by John Goutts, then moving from there to Michigan, where he died, three of his family being around him. He leaves to mourn his loss, a widow, 3 sons, William and Edward in Michigan, James, living in Dakota, and 2 daughters Mrs. R. Kincaid, Michigan, and Mrs. R. M. Dangval living at Dornoch. He will be missed as a kind and loving father, but his end was peace.

A faithful friend, a companion dear, A tender father gone from here, Great is the loss we here sustain, But hope in Heaven to meet again, Com.

Mr. Fred C. Ryan of the Standard Bank, Forest, is moved again. This time to Ailsa Craig, as Ledger Keeper.

Mr. Geo Binnie, Liberal Candidate for South Grey, was an honored guest at the banquet to Senator McMullen in Mt Forest, last week.

Rev. Mr. Boon, of this city will be asked to take the Baptist church pulpit at Leamington, lately left vacant by the retirement of Rev. Mr. Shields. Salary to be \$700 per year.—London Free Press.

NEW TOWN HALL.
And Other Improvements.

Talk of a new Town Hall is now becoming common and we offer a small contribution to the subject of site. As we pointed out some weeks ago the present site and building is quite unsuitable unless after the fulfillment of some impossible "ifs" which we set out in detail.

The best site in town, though fortunately not the only good one, is on the old Moody corner, where facing southward in full view from the bridges of both roads a most imposing building can be erected, at moderate cost. It should be a building large enough to accommodate on the ground story, the usual offices for mayor, clerk, council Division Court, for Public Library and Reading Room, for gymnasium, band room, etc. On the second story, which could be entered on the level from the bank above, which could be lit on any three sides, would be the great auditorium, with every available advantage of ingress and egress to body of hall or to stage apartments.

To the west can easily be placed the Weigh Scales, cells, etc., and it seems that any one town architect can with such a site, and requirements being given, plan a building that will be a credit to the town, and one in which every citizen would feel pride.

But more. There is a reach of the Saugenee in front, which can be a thing of beauty also. Back in 1885 we pointed out the advantages of a curving walk along the river bank which could be flanked on one side with trees. Beginning at Garafraza Street it could be made to run gracefully to meet the road at the north end of the stonework in front of the Methodist church. This of course implies the securing of private property but if it can be procured along with the triangular piece of ground near by what a delightful little Park we would have to enhance our new Town Hall and it requires little imagination to figure out attractive level ground, with rustic seats for cooling lovers under shady trees. Keep this in view your town fathers. Let us have the Town Hall first, and later, if possible fix up "McKechnie Park."

A GRANT FOR THE READING ROOM.
At the Council Meeting on Monday night, a delegation from the Public Library Board was heard on behalf of the clause of the Library to a municipal grant as it is their intention to move the Reading room to a suitable building in the town, so as to cater to the intellectual wants of the town in a more effective way than has hitherto been possible. Brief addresses were made by Pres. Allan, Rev. Messrs Smith and Farquharson, Inspector Campbell, Secy Ramage and Mr. Irwin, who composed the delegation. The council after a few questions united on a motion moved by Jno. H. Brown, seconded by John McKechnie, to grant \$50 to the Board. This is in line with the practice in many towns and the President duly thanked the council. The board recognizes that the influx of young men and others to work at our industries makes it imperative on them to provide some means to profitably employ the recreative hours of the evening, and no better means can be found than support of a Reading Room where Daily and Weekly papers, high class magazines, quiet games of chess or checkers can be read or indulged in, and it is within the possibilities of the near future that a gymnasium should be established.

WELL DONE CANADIANS.
Another thrilling story from Africa. In an engagement at Hart river between Boers and British both sides suffered heavily, but the Boers were rebuffed. Lord Kitchener's report says: "The Canadian Rifles especially distinguished themselves, one party, commanded by Lieut. Bruce Carruthers, holding its post till every man was killed or wounded. Others of the forces showed great steadiness, allowing the Boers to advance within one hundred yards of them and repelling them with a steady rifle fire." It is this that has thrilled Canada, and when we consider that they had just lately landed, and could not possibly be well seasoned the honor is the greater. In connection with this Lord Dundonald, who is to assume command of the Canadian Militia at the expiration of O'Grady-Haly's term of office in July next has issued a message for publication in Canada which will smooth the way for his popularity and usefulness here. It reads: "The Canadians who served under me in South Africa were men from the top of their head to the soles of their feet. To be more explicit, there are persons with rifles and men with rifles. When a general has men under him with rifles, he knows what he can do, and what risks he can take.—Dundonald."

Later—There are 55 casualties all told in the Hart river fight, 11 deaths, but no dishonor. Every succeeding day brings fresh evidence of Canadian efficiency.
