Satisfactory improvement Leads to a Continued Freatment which Kesults in a Complete Cure-An Interesting Story which will no doubt Profit Anyone Suffering with Lumbago.

Holyrood, Ont., March 24 .- (Speclal)-Mr. Bat. Pinnell, of this place, has for the past two years been a great sufferer with that most painful and stubborn disease-Lumbago.

The pain he suffered was almost beyond description, and many were the medicines and treatments he used

Kidney Pills, and Mr. Pinnell, al- second, third and fourth years of though very skeptical, thought he the colt's life. When such sympcure, and began to use them.

much good, but after he had used dilatory crowns removed. If this is part of the second he began to feel done, the improvement noticed by a change for the better, so he kept on until he had used in all seven The grinders (molars) are the teeth boxes, when he was delighted to find usually affected, the nippers rarely that every symptom of the Lumbago had entirely disappeared.

does not begin to express it. Only centre ones are exchanged, and at those who have suffered as he did five years old the corner permanents with this very painful disease can appear, at which time the horse is understand the extreme satisfaction said to have a full mouth and has of one who has found a complete cure arrived at maturity.-Farmers' Adand restoration to health and vocate.

Lumbago is a direct result of disordered kidneys and should always be treated as a Kidney Discase.

Efforts to cure or even relieve by outward applications are invariably

their normal condition. This is just pose instead of the neat's foot oil what Dodd's Kidney Pills do, and which our forefathers used in such this done the Lumbago very soon leaves, for without diseased Kidneys there can be no Lumbago.

A RELIABLE OFFER

HONEST HELP FREE TO MEN.

We are authorized to state by Mr. Carl Kunz, Second and Brady streets, Davenport, Iowa, that any man who is nervous and debilitated or who is suffering from any of the various troubles resulting from overwork, excesses or abuse, such as nervous debility, exhausted vitality, lost vigor, uncetural drains and losses, lack of development, etc., can write to him in strict confidence and receive, FREE OF CHARGE, full instructions how to be thoroughly oured.

Mr. Kunz himself was, for a long ! time, a sufferer from above troubles, and after trying in vain many advertised remedies, became almost entirely discouraged and hopeless. Finally he confided in an old clergyman, whose kind and honest advice enabled him to speedily obtain a perfect and permanent cure. Knowing to his own sorrow that so many poor sufferers are being imposed upon by unccrupulous quacks, Mr. Kunz considers it his duty, as an honest man, to give his fellow men the benefit of his experience and assist to a cure. Having | hog for commercial purposes. The the proud satisfaction of having done a great service to one in need, he rightly considers an ample reward for his trouble. If you write to Mr. Kunz, and follow his advice, you can rely upon being cured and upon absolute secrecy as well.

Address as above, enclosing a stamp. No attention will be given to those writing out of idle curiosity, therefore state that you really

MARMALABE'S NEW NAME.

At the evening meal that delicious table delicacy known as marmalade was being passed, and the boy's mother declined it. His father, however, helped himself bountifully when the preserve was laid before him whereupon the youthful jester looked thoughtful for several seconds and finally remarked: "I think that better be called papalade."

YELLOWSTONE NATIONAL PARK.

easily reached via Union Pacific than via any other line, is the Yellowstone National Park. The stage ride from Monida by the palatial Concord Coaches of the Monida & Yellowstone Stage Company is through scenery hardly inferior to the park itself. Side trip, from Ogden, Utah; or Po-

catello, Idaho, via Monida, and Monida & Yellowstone Stage Co., in both directions, will be furnished holders of all tickets (one way first and second class, regular tourist, or special round-trip excursion tickets), sold at Denver, Cheyenne and points cast, passing through Ogden or Pocatello to points in the States of California, Nevada, Oregon, Washington and that part of British Columbia lying north of the State of Washington, upon application to O. S. L. agents at either Ogden or Pocatello, at the very low rate of \$49.50.

This rate will include rail and stage fare covering seven and one-half days' trip, including all meals and lodging beyond Monida. avenue, Detroit, Mich.

"If you split some wood I'll gie Ont. you a good meal,' said the housekeeper. "I'm sorry, lady," said the hobo, sadly, "but I never begin breakfast with a chop."

Teething in Young Horses.

Soon after the colt's birth, teething troubles start, although in the majority of cases of only minor importance. Animals have what are known as milk, or colt or temporary teeth, and a permanent set. The coming-in of the permanents is when the trouble starts. The permanent grinders (molars) push up from below and force the crowns off. Many of these crowns are found in the feeding boxes of young horses; sometimes, however, the crowns (milk teeth) are not shed as they should be, food gathers underneath, or the to try to get some relief. However, the result that the colt refuses to nothing he could find seemed to help feed, slobbers badly, and feed-box in him in the least, and he became very many cases being "mussed up," and At last someone suggested Dodd's iod for this to happen is during the he has a bad breath. The usual perwould make one more trial for a toms appear, soft mashes should take the place of hard grain, the veter-The first box did not do him very inarian should be consulted, and the owner will be almost magical so. Changes, however, occur in those teeth during colthood, by means of His general health is much im- the animal's age: At three years the proved, and he feels better to-day centre pairs of temporary nippers are To say that Mr. Pinnell is pleased ones; at four, the pairs next the

Care of Harness.

The life of a set of harness may be very considerably prolonged by the exercise of a little care in its treatunsuccessful. Rubbing may in itself harness has been solled, it can easily for the time being produce a little be cleaned by washing with castile relief, but in order to secure a com- soap. As a dressing for keeping plete cure it is absolutely necessary leather or harness pliable, there are to go right to the root of the trou- many preparations upon the market. Cod liver oil of the cheaper grades is The Kidneys must be restored to now largely employed for this purquantity for the preservation of their | rived at a ball, and in entering the harness. One of the great advan- house the husband slipped on the tages of using cod liver oil is that rats and mice usually give a wide berth to any harness or other appliances dressed with this oil.-Ex.

Utilize the By-Products.

in being able to pay, on the whole, dressing room was reached better pr.ces for live stock, is the wife said, "Well, you know, I can't fact that the American utilizes the mend them while you have them by-products. From the blood is get on," and the tractable husband took albumen, used in the arts and in the trousers off and handed them med.cine; horns and hoofs used for over for repair. But this domestic gelatine, and handles for brushes, for scene was interrupted by other bebuttons, etc.; bristles for brushes; lated guests who sought to enter tarkage for artificial manure, and so and divest themselves of wraps. on ; so that, as it is aptly put, "nothing is lost in the pig but the squeal." With all the above, the packer has been looking for further profits, according to the National Provisioner, who states as follows:

"The oily, greasy, thick pig skin is bothered itself about skinning the dressing room door to admit the hog while his green hide left on the careass and unencumbered with ex- reached it she was stayed by a pense brought 8 cents per pound and pounding on the other door, and the more as pork, or 12 cents per pound | imploring voice of her husband, "For when weighed in as cured ham or heaven's sake," he pleaded, "let me smoked bacon. The scientist will not back, you've shut me in the balllet things alone, however, and it may room." leather splitter has demonstrated his ability to shave hides almost into tissue leather. With this implement at his command and a new process in his possession, an American inventor claims that he can split a pig skin to the fineness of a cologne bottle-stopper cover and manufacture points east as by other lines no furthat article at a ridiculously low ther recommendation should be price. He can make the finest of 'im- sought. Everybody will tell you it ploning for

ported' kid glove stock, can displace oiled paper with a better and a cheaper article, and do the same with the fine texture of rubber goods now used for waist shields. A hog hide can be treated so finely and split into so many separate sk ns as to astound the uninitiated. With this prospect before it, the hog skin has a right to come off and to expect much, in the near future."-Farmers' Advocate.

***************** WOMEN AND

******** Times without number it has been noticed that women will tolerate and even be friendly with the most ordinary kind of men, though they may hold aloof from and show jealousy of most charming members of their own sex. Here is the explanation offered by an observing and philosophical society leader: "It is not because women are wo

men that they are disliked by their derstand. She is usually monarch of her home, absolutely the most important person in it, and she loses the true appreciation of the importance of other people outside it. A man in business is constantly brought in contact with men who are his equals or superiors, who have equal rights with him, whereas a woman may spend two hours a day visiting with callers of her own grade of intelligence, as against sixteen spent with the children and the servants. When she does meet men it is either in the capacity of grocery boys or clerks whose business it is to defer to her opinion, however illogical, or in a social way, when it isn't worth while to combat her ideas if they happen to be erratic. So that unless she makes a very great effort she becomes positive and dogmatic, and when she meets other women where there i a clash of interests she expects the same deference from them that she receives in her daily surroundings from men, and this is in a great measure the reason why women's discussion when it strays outside the I was walking, near Miami, at a realms of dress and babies, is not al-
