Many are in applied, a new kind of stamped lace comes in delicate French designs of garlands and wreaths, mingled with bows. It is delightful for fichus and bolero, and can be had in the piece, as well as edgings and insertions.

The pet bolero blouse of the winter is repeated now in lace, and will be worn with odd skirts. A feature of it is a large bow of soft satin, pompadour ribbon, or crepe de chine, which makes an important note of some lovely shade on the chest, and then, of course, a shaped belt, embroidered or jewelled, to give the requisite long-waisted effect. Some of the Turkish

Gold Embroidered Belts come in nicely, with their small Swiss points, and a dainty handkerchief "sac" to match, hanging from them at the side. These also have the inevitable little gold tassels hanging from them. Some of these blouses are in thick guipure and Carickmacross, and look charming with a long trained skirt of volle. For trimming muslins it seems that pure white lace is to be used, rather Paris or "dirty-lace" color, as being more in keeping with the extremely delicate style of the new fabrics. There are some very sliky new finens, coarse in texture, and with fanciful borderings, which make up in smart morning frocks of the separated in front, leaving a plain more tailor-built order. Cambrics also striped and spotted, come with borderings in the plain shade.

Never were ribbons so exquisite and varied, for sashes and for making big choux and cockades on the yedda straw hats they will be in great request. A cream or white satin or faille ground, with lovely flowers in stamped velvet, shaded like natural bloom, makes a very chic high folded belt to wear with a costume of volle or barege, and the hat may

Trade at Toronto this week, although not as active as it has been mail and from travellers are large and numerous, and although the bulk of the shipments on first orders have been made , the wholesale trade here are still busy sending out goods.

Business at Hamilton, as reported to Bradstreet's, has been quite active this week. This is not the time of the year when very much activity is looked for, but this appears to be an unusual season, and n, big expansion in the jobbing trade is looked for when the movement in summer goods gets fairly under way. Large shipments are still being made by the jobbing trade. Prices of staple goods are very firmly held.

A Frightful Case of Exhausted Nerves and Debilitated System-From a Mere Skeleton, Pale, Weak, Trembling and Almost Wild With Pain, Ars. Edwards Was Aade Strong and Well by Dr. chase's Nerve Food.

Mrs. R. W. Edwards, 33 McMurray street, Brantford, Ott., describes her case as follows: "For five years I have suffered more than words can tell from nervous headache, nervous dyspepsia and exhaustion. The pains in my head would at times almost drive me crazy. I could not sleep nights, but would walk the floor in agony until I fell exhausted and unconscious and my husband would have to carry me back to bed.

"Sometimes I could take no food for four days at a time, and experienced terrible g awing sensations in the stomach, had bad taste in the mouth and coated tongue, I was pale, nervous, irritable, easily exhausted, was reduced to a mere skeleton of skin and bone, and my heart would palpitate as though it was about to stop beating. My greatest suffering was caused by the dreadful pains in my head, neck and back, and all this was in spite of the best efforts of three leading doctors of this city. "For the past nine months I have used Dr. Chase's Nerve Food, and for a considerable time I have not

experienced a headache, or any of the symptoms mentioned above. From a mere skeleton this medicine has built me up in flesh, and weight, until now I am strong and well, do my own housework, walk out for two hours without feeling tired, and am thoroughly restored to health. Is it any wonder that words fail to express my gratitude for this remarkable cure? You can use this testimonial for the benefit of other sufferers."
