

WHY WOMEN SUFFER

The Reason is not that they may not, but that they will not be Free.

A Story of a Woman who made up Her Mind that she had Suffered long enough - The Means Employed to Cure Her have Cured Thousands.

Rock Dale, C. B., April 14. (Special) - Mrs. David Riley, of this village, suffered for over eight years before she found a cure.

She had female weakness of a very aggravated form, causing her fearful pains. Her back pained her something dreadful.

She could not lift anything and was dizzy headed all the time. After trying many medicines with no good results, she was becoming altogether discouraged, so much so that she thought she would have to give up.

No wonder that she felt like giving up. Every woman who has suffered in this way will understand how low spirited and broken up a woman feels when called upon to endure these extremely distressing symptoms.

But Mrs. Riley didn't give up. A friend advised her to try Dodd's Kidney Pills, and she began a treatment of this medicine.

After using four boxes she was much better. She felt a great deal stronger, the dizziness had gone. The pains in her back had disappeared, and she kept on using the pills.

She says: "If it had not been for Dodd's Kidney Pills I would have had to give up. They are certainly a wonderful medicine and have done more for me and my sickness than all the other medicines I ever took."

"I can and will highly recommend Dodd's Kidney Pills to all weak women who suffer as I used to suffer. No woman need suffer a moment longer. Dodd's Kidney Pills have cured and are curing thousands of weak women."

Many of your sisters have told their story for publication, and very many have testified, but not for publication. All join in praising the remedy that has done more for the suffering womanhood of Canada than all other means combined.

Dodd's Kidney Pills are Weak Women's Best Friend.

New York Central and Hudson River Railroad.

The above name is a house-hold word, and the superior excellence of the road should be sufficient to attract most people, but now that the rate is the same to New York and points east as by other lines no further recommendation should be sought. Everybody will tell you it is the best.

What She Did.

New York Herald.

"Please tell the Court what you did between 8 and 9 o'clock on that morning."

"I gave the two children their breakfast, dressed them for school, made up the trunks, washed the dishes, made up the beds, and folded the linen and put it in the tubs, swept and dusted the parlor, sewed a button or two on the children's clothes, ironed the wash, and the grocer and butcher but off the lamb, laid, set down to glance over the morning paper, and then—"

"That will do, madam."

Minard's Liniment Cures Diphtheria.

Horrors of Philippine War.

A statement purporting to come from a soldier of the Eighteenth Infantry named W. H. Clark was published in the Kansas City Journal on March 10 alleging that the water cure torture has been administered to thousands of natives in the Philippines—at least in Panay. A school teacher named R. B. Epps, acting as correspondent of the South Carolina State, sent his paper a letter in which one of Epps's soldiers was represented as saying that he had personally taken part in 160 applications of the water cure, of which all but 26 proved fatal.

Never is time more precious than when some member of the family is attacked by colic, dysentery, or any bowel trouble. The doctor is distant, or if Perry Davis' Painkiller is near all danger is soon ended.

Don'ts.

Don't quarrel with fate; it's foolish for you can never win.

If you're a man, be manly. If God made you for skirts, when a woman's pet alone, don't respect for men's wear.

Don't pet your dog when it's going well with you and kick him when they are crosswise. Dogs have feelings and loyalty, too.

Don't be a bad copy of a good thing or a great person; you shame your original and placard yourself very foolish.

Don't enthuse. It's bad form and worse policy.

Don't brag of your capacity. To drink like a animal or eat like a glutton gives glory only to a fool.

Don't sing when you are fatigued with your own pipes. Study another. Stagnant women are revolting.

Don't be too frank in a deal of spite and malice hides under that word.

Flippancy is never clever. Although persons laugh at what you say, it is because you are so silly, not at its wit.

Don't sponge. A great love and a true friendship can be killed by over-giving.

Don't write froth to men, nor sentiment. If you ache for expression, write a book, which will probably never be seen outside of your family.

Don't read until you consider it worth while to remember at least one thought or deduction of the author.

Don't look over your social inferiors, or they will cease to be that while you do it.

Piles

To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. See testimonials in the daily press, and ask your neighbors what they think of it. You can use it and not feel any pain. It is a box, and all dealers or EDMANSON, BATES & CO., Toronto, Dr. Chase's Ointment

SOCIAL FUNERALS.

That a Chicago Trust is Trying to Bring About.

The undertakers' trust, which is rapidly assuming formidable dimensions, is endeavoring to introduce the fashion of evening funerals, interment or cremation to follow at an early hour the next morning, when privacy is assured.

Agents of the trust insist that as funerals are now conducted it is impossible for the trust to manage the details satisfactorily. There is too much required within a short interval of time. Were it the fashion to hold funeral services in the evening, vehicles and drivers would be freed from the pressure of other demands during the day and better service could be guaranteed.

Should funerals become postprandial incidents they would speedily and inevitably enter the social column instead of being reserved as they now are for the ordinary column exclusively. Then they should have in the social notes such items as "Mr. and Mrs. Newdollar in opera costume dropped in to pay a visit of condolence to the bereaved family whose the most striking and interesting feature of the evening was the interment in the morning."

Such paragraphs as these would appear.

Among those who made a theatre party at the home of Thomas Jones on the evening of the 14th, service over his wife, who died a few days ago, were, etc. They went to the play after the prayers.

The pall-bearers who are to assist at the funeral of our lamented fellow citizen, Mr. Smith, are the Cuttowski matinee early so as to take an early evening train to the funeral service. They will spend the night at a near-by hotel, and be on hand early in the morning to accompany the remains to the cemetery.

The question of evening costumes at funerals will be fully debated and in due time the fashion editor will see that the most striking or effective are properly described before or soon after the event.

Evening funeral service may revive the rapidly disappearing but ancient custom of the "wake," which is not peculiar to any race or clime or time, but is a general characteristic of countries in which population is sparse and where people treat tenderly the mourning widow and the estranged dead. The wake, as its name suggests, was and was still a vigil, a symbolic retelling of the grief caused by their departure. In pious communities it is an assembly of friends to pray for the salvation of the deceased and for the solace of the bereaved.

Should evening funeral service become a vogue the wake would certainly be revived and gradually would evolve itself into a social event with varied programmes of literature and music and also in due time with a dance and light refreshments. "Funeral baked meats" in a new sense might furnish forth a table, but not necessarily badly.

It is improbable that the proposal of the undertakers' trust for evening funeral service will make immediate headway. Progress among the common people with grief is generally too deep and sincere for the adoption of innovations not free from suggestion of mercenaryness and heartlessness.

But should the postprandial funeral service attain vogue in society as conventionally understood it would slowly secure general approval.

As to interment early in the morning or cremation before sunrise, the dead would be under the earth or in the air before the greater solitude more soothing.

The poet tells us that "heaven gives its favorites early death." Why should not those who love their lives away their mortal part early also in the day before the reckless pressure of life edges too keenly upon the coffin lid?

Hats Off to the Bartender.

In Russia no man may enter a Government establishment without removing his hat, a rule which has caused some trouble, it appears, since the establishment of the Government spirit shops. There have been disputes between the officials behind the bars and the customers as to the removal of the headgear, with the result that the question was submitted to the Minister of Finance. That official has caused notice to be issued warning the public against any disrespect to the liquor, and the State public houses, frequenters of which must in the future remove their hats.—London Globe.

Profitable Drawing.

"I understand that they fought to a draw."

"Yes. Each one of them drew about four thousand dollars in prize money and gate receipts."

HOW'S THIS?

We offer One Hundred Dollars' Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

W. J. GIBNEY & CO., Toledo, O.

Check for the last 15 years and believe him actions and financially able to carry out any obligation made by their firm.

W. J. GIBNEY, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system. Testimonials sent free. Price—75c per bottle. Sold by all druggists. Hall's Family Pills are the best.

Divorces in Europe.

Divorce was established in Germany in 1875. From 1881 to 1885 the yearly number of divorces was about 8,000, while of late years it exceeds 10,000. In England divorce was established in 1857. During the years 1858-1862 the annual number was about 200; in 1894, about 350; in 1898, about 650. In Austria, where only non-Catholics can apply for a divorce, the number of demands for divorce increased 25 per cent. in four years, and in Belgium about 20 per cent in four years.

THE LITTLE GIRL AND KAISER WILHELM I.

Many an interesting anecdote is told of the old Emperor William—the grandfather of Emperor William and Prince Henry.

In his later years the aged monarch took great pleasure in visiting the schools and catechising the children. At one time, while in the city of Ems, he visited an orphan school that was under Government patronage.

After listening for an hour or more to the recitations of several of the classes, the Emperor called to the front a bright golden-haired little girl, seven or eight years of age, and lifting her into his lap, said to her:

"Now, then, my little fraulein, let me see if you can answer me three hard questions." And taking an orange out of his pocket and held it up. "To what kingdom does this belong?" he asked.

"The little girl hesitated a moment, and then said timidly: "To the vegetable kingdom."

"Right, my little fraulein," said the Emperor. "And now to what kingdom does this belong?" The Emperor took a gold piece out of his pocket and placed it beside the orange.

More confident this time, the little girl replied, "To the mineral kingdom."

"Better and better," said the Emperor. "Now, look at me and tell me to what kingdom do I belong?"

The little girl was confused. Dare she say "The animal kingdom?" All the teachers and pupils looked at her with breathless expectancy. But in a moment she glanced up brightly into the face of the kind old Emperor and said, "To the kingdom of heaven."

This unexpected answer drew tears from the eyes of the Emperor. "Yes, my child," said he; "I trust that I do belong to the kingdom of heaven, and the day is not far distant when I shall go there, my little fraulein."

Then, kissing the little girl, he presented her with the gold piece and the orange, and brought his visit to a close.

Alfred A. Taylor, of Margaree, says: "One bottle of MINARD'S LINIMENT cured a swelling of the gambie joint, and saved a horse worth \$140."

Thos. W. Payne, of Bathurst, saved the life of a valuable horse that the Vet. had given up, with a few bottles of MINARD'S LINIMENT.

The Best She Could Do.

"There is only one reason," he said, "why I have never asked you to be my wife."

"What is that?" she asked.

"I have always been half afraid you might refuse."

"Well," she whispered after a long silence, "I should think you'd have enough to want to find out whether your suspicion was well founded or not."—Chicago Record-Herald.

Intitations abound but insist upon getting the genuine, "The D. & L." Menthol Plaster. The "D. & L." has stood the test of years. It cures. Its limitations are impotent. "The D. & L." is made by the well-known Davs & Lawrence Co., Ltd.

A Complete Monopoly.

(Washington Star.)

Well, Patsy Active.

(Philadelphia Record.)

Mrs. Muggins—Is Mrs. Wigwag active in public life?

Mrs. Muggins—Active! Why, that woman belongs to 18 different societies for the suppression of things.

A BOON TO HORSEMEN.—One bottle of English Spain Liniment completely removed a curd from my horse. I am pleased recommending the remedy, as it acts with promptness in the removal from horses of hard, soft or calloused lumps, blood sprains, splints, curbs, sweeny, stifles and sprains.

GEORGE ROBB, Farmer, Markham, Ont.

Sold by all druggists.

Useful to know.

To make a good digestible pie crust, use cream instead of lard, and it will be light and healthful.

When you iron-embroidery, fold a Turkish bath towel several times and lay under it on the ironing table, and iron on the wrong side.

With dark woodwork, a little kerosene and warm water are used in washing it, and this is followed by a brisk rubbing, all finger marks will be obliterated.

It is better to boil eggs 20 minutes than 10, as in the former case they are nearly and dry and more readily digested.

If you make a mistake, do not dwell upon it. Take note of the reason of it and endeavor to profit by its contained lesson.

An experienced housekeeper says: Old India or foulard silk is the best thing she has ever tried for dusting drapes, curtains and small articles, and further, that all dusters should be washed and dried after using, as there is nothing gained by using a cloth filled with dust.

Minard's Liniment Cures Colds, etc.

It Probably Did.

He—The last time I played football, I remember my face got so knocked about—wasn't like a face at all in fact—I thought it never would get better.

She—And did it? I mean—er—of She—And did it? I mean—er—of course I see it didn't—er—er—I mean

Minard's Liniment Cures Garget in Cows.

Of Interest to Hay Fever Sufferers.

Physicians generally recommend a change of climate for the relief of Hay Fever, where such weeds and flowers as ragweed and honeysuckle are not indigenous, as these resort to a great deal depends upon the vagaries of the wind, and results are not always satisfactory, as if the wind should blow off shore, as it frequently does, there is no relief.

In Muskoka and among the 30,000 Islands of the Georgian Bay, conditions are different. It is of no consequence which way the wind blows. The preponderance of water area to land surface; the curative odors of balsam and pine, together with the elevation of a thousand feet above the sea, renders hay fever an impossible condition in these districts.

Physicians illustrated at these resorts a great deal depends upon the vagaries of the wind, and results are not always satisfactory, as if the wind should blow off shore, as it frequently does, there is no relief.

"LATESTS" IN LINGERIE.

Characteristic Marks of the Most Recent Creations.

Slimness and Slenderness mean smartness in lingerie.

A new underskirt consists of straps over the hips sewed to the belt, the actual skirt not beginning until below the hips.

An odd fashion is to button the underskirt to the dress skirt lining just below the hips, but this is not to be recommended.

Circular undershirts have become quite popular, curved in front to slip under the corset hook and faced at the top; no waistband.

Stitched tucks are a favored method of giving petticoats fullness in the back. They are stitched for about six or eight inches, and then the fullness allowed to fall.

Circular flounces, trimmed with tiny ruffles, is the preferred skirt foot, trimming for silk or kimonoed stuffs. Of course, wash white skirts have the usual fluted, tucked ones of embroidery and lace.

Open throat nightgowns, with full sleeves and no yoke in the back are to be the most worn this summer.

Hand embroidery, hemstitching and fancy stitches are now as much used for lingerie as for dresses.

A hand embroidered monogram is considered the best touch of daintiness in fine underwear.

Square collars ending in revers, both edged in lace, are a favored neck finish for night robes.

Owing to the perfect fit of the corset cover and short skirt cut in one, and its absolute lack of fullness around the waist and hips, it is regarded with more favor than formerly.

The desire of every feminine heart is an extremely bouffant effect as to skirts, so the number of ruffles and tiny ruffles used on undershirts seems almost to defy the laundress' art.

Every man knows a lot of other men that he would like to class as strangers.

Most Ancient Mummy.

Interesting Discovery in a Cave in the Pyrenees.

Body of an Old Cave Dweller.

What is considered the most ancient human body in existence has been discovered in an excellent state of preservation in a cave in the Pyrenees. The dryness of the sepulchre has kept the corpse, which approaches the Caucasian in type, intact for an indefinite period, which is estimated as at least 10,000 years.

<
