Archbishop Ryan recently visited a small parish in the mining district of Schuylkill county for the purpose of administering the sacrament of confirmation. In examining a class he asked one poor, nervous, frightened little girl what matrimony was, and she answered that it was "a state of terrible torment which those who enter it are compelled to undergo for a time to prepare them for a brighter and better world."

"No, no," remonstrated the pastor, "that isn't matrimony; that's the definition of purgatory. "Leave her alone," said the Archbishop, with a twinkle in his eye; "maybe she's right. What do you or I know about it ?"-Boston Sunday

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its etages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken inmucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
