Woman: Her Ways and Wants

A MELANGE OF INTEREST TO THE FAIR SEX-SEASONABLE THINGS IN THE REALM OF FASHION &

with the difficulties which beset the that lace will be better than the way of the beauty seeker.

For the time being beauty has evidently changed places with the beast. The lovely, spirituelle creature of the daytime becomes, under the direction f her beauty doctor or her newspaper adviser, as the case may be, a spectacle too absurd to be adequately described. But then prettiness must be attained at cost of comfort and of good sense, so the woman with nothing else to do will probably continue to make herself a guy every night, emerging in the morning a step nearer the coveted loveliness. If a woman cannot be beautiful she can at least make a good appearance, and there is now very little excuse for dowdiness.

All sorts of dainty conceits prevail in belts, in stocks, in boas and handkerchiefs, in boots and shoes, in stockings and in the thousand trifles which contribute their mite to the completed toilet. For each style of dress there is something novel in the decorative accessories which add so much to the success of a costume. For the shirt waist and fancy blouses come the sets of fasteners which range from turquoise hearts, three studs or pins and belt pin, which may be had for a silver quarter, to elaborate studs, jewel set, or with new art designs in relief of colored golds and enamels, which cost a pretty penny.

Narrow Belts in Vogue.

The belts are rather narrow, and may be had in floral or conventional design to correspond with the bag worn. The buckles which fasten these girdles are small and unobtrusive, but are remarkably appropriate in design and coloring. Linen belts embroidered and scalloped are shown in various colors and are to be worn with outing suits. Sometimes the turn-over collar and the turn-back cuffs are fashioned to match. Belts formed of ther by linked chains and worn over a ribbon foundation are lovely and expensive.

For outing skirts and white waists there is the usual assortment of white pique or linen belts with the harness buckle. These are so arranged that the buckle may be easily removed so that the belt may be laundried. White kid and white leather also have a place in the summer girdles. On most of these the fastening takes the shape of the harness buckle in black, silver or brass.

Cravat Clasps are New.

Cravat clasps are beginning to appear in various shapes and forms. The silver or gilt pin is used, while the twined serpents form a firm and stylish fastener. Most people seem to prefer the ordinary scarfpin for a decoration. From the unpretentious quisitely wrought and jewel-studded ertheless, and example of the latest in the "newest art" the choice is practically unlimmay have your choice.

For the various outdoor sports her costume. there are special clothes. There are belong to the devotee of golf, of tennis, of yachting, of polo, football or baseball, of horseback riding of rowing and of ping pong.

Bracelets in Again, Bracelets seem to be coming to the front again. Not the broad gold hands which for a while were the regulation thing, but curlous slender chains with pendent stones, linked and intertwined snakes, enameled or jewel set, flexible and truly reptillan in aspect and general unpleasantnot even the goldsmith's marvelous art, can make the snake anything but an object of repulsion to the majority of people. All the fabulous monsters of mythology have been revived in the modern jewelry. The dragon takes first place as a decoration for scarfpins, watch fobs, lace pins and other things equally fash-

Parasols are Elaborate.

One beautiful example, which would be perfect for a dress occasion, is of pastel blue crepe de chine in soft shirrings, the border a flowing flounce of the crepe in pin-head tucks covered with a very full accordion plaiting of chiffon. The ribe are garlanded with pale pink and blue flowers worked out in chiffon, so fragile, so ethereal in texture that they appear to be almost floating in the air, just above the parasol, rather than securely attached to the foundation. Another cover of white duchess lace set on white chiffon has the principal figures in the pattern outlined with baroque pearls, but this seems over-ornamentation, for the lace in Itself is so beautiful that it does not call for trimmings of any kind. Chiffon parasols, pearl or flower wreathed. to match the hats exhibited, silk, plain polka-dotted, monogrammed or treated with chiffon plaitings and ruchings, are to be had in all colors, the daintiest being in pure white. Temperance Lession.-Rom. 13: 8-14.

Commentary, - Explanatory. Rome is situated in Itaay on the River Tithe state of the state of ber, 1,450 miles northwest of Jerusalem. The gospel had reached this far off land and there were a few Christians there who were diligently seeking the truth. Paul had never visited them, but he greatly desired to do so. A few years after this signed for outdoor sports, morning his hopes were realized, although he did not go to them as he had expected, for, instead of going voluntarily as a missionary, he was. compelled to go as a Roman prisoner,

under bonds.

8. Owe no man-"It cannot be supposed that the apostle meant to prohibit the contracting of debts on any account whatever. Christians are indeed under the highest obligations to pay all legal demands without reluctance or needless use of handsome ribbons, quills, delay, and with great punctuality, and they should avoid all superfluous expense, and carefully guard against contracting any debt which they have not a reasonable prospect of discharging. God's law of love. The fundamental principle in God's moral government is the law of love. The early laws of Greece were drastic and bloody. Those of Rome were stern and pitiless. Those of England, narrow and tyrannical, but the law of God ever has been, and is today, gentle, pure and beneficent. A few elements of love: 1. Gentleness. 2. Goodness. 3. Meekness. 4.
