A SURPRISED DOCTOR

Sain a Case of St. Victus Dance Could Not be Cured

Called One Day and Found the Patient

usually as helpless as an infant, and has to be watched with as much care. St. Vitus dance is a disease of the merves, and must be treated through them, and for this purpose there is no other medicine in the world acts so speedily as Dr. Williams' Pink Pills. Proof of this statement is found in the cure of Mess Louise Luffman, whose home is at Poucher's Mills, Ont., who was cured by these pills after two doctors had failed to benefit her in the last. The young lady's mother tells he story of her daughter's illness as follows: "I do not think it possible any one could be afflicted with a more severe form of St. Vitus dance than that which attacked my daughter Louise. Her arms and legs would twitch and jerk, her face was drawn and finally her left side became namb as though paralyzed. Two doctors attended her, but their treatment did not help her but she gerw steadily worse. Her tongue became swollen, her speech thick and indistinct, and she could neither sit still nor stand still. She could pot hold anything in her hand, and it was necessary to watch her all the time as we feared she would injure The last doctor who attended her told me she would never get better, and it was then that I decided to try Dr. Williams' Pink Pills, After she had taken two boxes we could see an improvement in her condition. Her appetite improved, sleep better and the spasms were less severe. From that on there was a marked improvement in her condition, and one day the doctor who had said she could not get better called while passing and found her ironing-something she had not been able to do for months. I told him it was Dr Williams' Pink Pille that was curing her, and he said, "Well, I am surprised, but continue the pills, they will cure her." She used in all eight or ten boxes and is now as healthy a girl as you will find anywhere, and she has not since fell over something. had a symptom of the trouble." nerves are tired and jaded, or your blood is out of condition, you will be wise to use Dr. Williams' Pink Pills,
