BABY'S OWN TABLETS

Keep Little Ones Well During the Hot Weather Months.

If you want to keep your little ones hearty, rosy and full of life during the hot weather give them Baby's Own Tablets the moment they show signs of being out of order in any way.

This medicine cures all forms of stomach and bowel troubles, which carry off so many little ones during the summer months, and is the best thing in the world for sleeplessness, nervousness, irritation when teething, etc. It is just the medicine for hot weather troubles; first, because it always does good; and, second, because it can never do any harmguaranteed free from opiates. Mrs. W. E. Bassam, Kingston, Oat., says: "I began using Baby's Own Tablets when my little girl was about three months old. At that time she had Indigestion badly; she was vomiting and had diarrhoea constantly, and although she had an apparently ravenous appetite her food dit her no good and she was very thin. Nothing helped her until we began giving her Baby's Own Tablets, but after giving her these the vomiting and diarrhoea ceased and she began to improve almost at once. I have since used the Tablets for other troubles and have found them all that can be desired-they are the best medicine I have ever used for a
