Newspaper subscribers often wonder why a publisher keeps on sending the paper when the subscription has expired.

AN EXCHANGE thus explains the matter: When a subscription is paid to a certain time, and time expires and the paper is stopped, it looks as if the editor doubts the integrity of the subscriber and in nine cases out of ten the subscriber will give the editor a calling down for insinuating that his credit was not good. Rather than cast any reflection against a neighbor's honesty to pay a small debt, it has been customary for newspapers to continue sending the paper after the time has expired. The city weeklies and dailies do not follow this rule, as their subscribers are at a distance, and besides they are not acquainted with them and do not know their financial standing. One should deem it an honor to know that his credit is not doubted when the publisher continues to send the paper. Should the subscriber wish to have his paper discontinued he should inform the publisher and remit subscription to date if any is owing.

A MARVELOUS GROWTH.

Statements and statistics of the great Western crop are continually appearing and we collate a few of these to illustrate the vast expansion taking place in Manitoba.

Table with 3 columns: Year, Acres, Bushels. Data for 1883, 1887, 1890, 1895, 1901.

For 1902 these figures will be largely increased.

Of still greater moment is the work of the Territories, where the yield of wheat is expected to reach nearly 13,000,000 bushels this year. A few years ago the prairie swept in wayward undulations, where now sways the golden grain, and the substitution has taken place only on a very small fraction of the available area. Great is the West, but what we now call great, will look puny 10 years hence.

AN OLD ADVERTISER.

Mr. Jno. A. Black has handed us an old copy of the O. Sound Advertiser of March 19, 1888. It was even then Vol VI, No 12, and published, as now by J. H. Little, a long space of editorial activity which we congratulate in passing. It was then a four page weekly, 8 columns to a page, and crowded with advertisements and reading matter, some of it miscellany. It lacks the "personal" column so common now, and has very few of the short and catchy locals reflecting current events. The editor has a growl at a certain clerk Thos. Gordon for refusal to see the minutes. A fellow named "Sir John" at Ottawa is credited with having an insatiable desire for power for power's sake, but the editor sees no one in sight to take his place. There was no lofty aspirations growing in them as a Dominion and in a fit of the blues the editor says: "Our incapacity is becoming apparent even in the Mother country. Canada is too gigantic a concern for us to manage." John Bright was then battling in parliament. Prince Napoleon was being feted in Germany. Cornabus and Johntown are now Markdale and Chatsworth. Fall wheat was \$1.50 to \$1.55, Spring wheat \$1.38 to \$1.45, Oats 55c, Peas 70c, Barley 80c to 90c, Hay \$16 to \$20, "Upper Canada bills 55c" "Greenbacks 72c."

SOUTH GREY SHOW.

SEPT. 23 and 24.

No doubt many readers at a distance are watching for the date of South Grey's Annual Fall Exhibition, for as usual there will be many planning to pay a visit about that date and meet with many old friends so conveniently. All the old features will be reproduced with some new ones. Write or call on Secretary Davidson and get a prize list.

The Love Story of Michael Angelo.

Had Michael Angelo not been the world's greatest sculptor he would still have been preeminent in all times as one of its supremely great painters and, apart from either of these things he is the most sublime architect of modern times at least, and a poet so mighty in his use of language that even Wordsworth confessed himself unable to grasp his sonnets sufficiently to render them in English rhyme. Into years the life of this sad old man of sixty-four years, the greatest of all Italy, but the most beautiful and cultured woman of all time, their love story is an exquisite idyl and is told with infinite grace and charm by Clara E. Laughlin in The Delineator for September. The number contains much other interesting matter.

Batt's Pure Malt Extract

This tonic has received the highest testimonials from the medical profession as well as the highest award at the World's Fair, Chicago, in competition with foreign and Domestic brands.

To build up run down constitutions, to restore health and strength to convalescents, to persons suffering from insomnia, loss of appetite, general debility, it is indispensable, and for the nursing mother it provides her with strength and also greatly assists in producing abundant food for the child.
