A Very interesting Personal Experlence Which Contains Some Good Advice for Others Whose Lives

May be threatened. Lovett, Ont., Aug. 25.-(Special.)-Every man, woman and child for miles around knows Mr. C. A. Harries, the

genial Postmaster at Lovett. But he was not always so. Five or six years ago he was at the point of death, being fearfully run down and a complete wreck with Bright's Dis-

He was so low that no one ever dreamt that he could pull through, and yet he is alive and well to-day, This is a statement of the case in Mr. Harries' own words:

"In 1897 I was at the point death with Bright's Disease, and was a complete wreck. I could not even dress myself or turn in my bed, but now I em a well man, and I attribute it all to Dodd's Kidney Pills.

"I am 75 years old and for a man of my years I feel quite strong and healthy. I consider Dodd's Kidney spring, as I have found it a great blood purifier.

with a great many people, and I all his gifts. know of my personal knowledge that a great many in this country are using Dodd's Kidney Pills with the best

Such evidence should be most convincing to any who may still doubt that Dodd's Kidney Pills will cure Bright's Disease.

The honest, earnest, straightforward testimony of such reputable people certainly deserves the confidence of everyone.

If Dodd's Kidney Pills can and do cure Bright's Disease, which is the very worst form of Kidney Trouble, they certainly will cure any of the lesser forms.

AMUSING SAYINGS OF CHILDREN

To all, young and old, the sayings of the child appeal with great force, and amongst the tenderest and most cherished memories of a married man are those of the sayings of his children; and as those children grow up Mr. Harries is a hale old gentle- their amusing and absurd questions man, 75 years of age, and consider- and answers which they so often ing his advanced years is remarkably piled upon him. The following are absolutely original stories of children I have known:

Tommy and James were going to have their usual breakfast of porridge. Thomas was absent searching for the mik, whilst James was waiting for the return of the messenger. A long time passed and no signs of Tommy's return. At last a loud bawling announced the return of the messenger, who amidst tears cried out that he had broken the jug. James looked at him for a moment, and then said, "Why didn't you put the jug down before you fell?"

The same Thomas at another perlod received a shilling from his granny. The old lady was rather astonished when her grandson asked Pills a good medicine to take in the her for another. William Gould Brokaw, a New York society man, is spending \$25,000 to put a small Japanese garden in his estate near Great Neck. Under a French gardener he is employing 70 skilled men on the plot, which is to be only 200 feet square. It will contain all of the rare trees, shrubs and flowers native to Japan, and the landscape design will be after the Japanese models. There will be little but expensive summer-houses, tea pagodas and shelters. The walks and lanes will be winding, but all in an exact system. The plans have not all been made public but Mr. Broka wexgarden completed in the early fall.
