This is one of the very handsomest and richest of the coral gowns that has yet appeared. either worn by the bluest aristocrat in Paris or shown in the shops.

Empire Gown Popular. The empire gown is going to be very popular this season. It is not cut as it was in the days of Josephine. It is very much higher in the neck, usually with sleeves, and the empire effect is mostly done in lace so ravishing for the last few months over silk. There is nothing quite as and in their places on the street are rich and fleecy as these silk and lace seen trim tailor made costumes. empire gowns. They vary greatly in out, according to the figure they are the coming of the first models, which made to fit, and it is seldom two em- are the embodiment of fashion's newpire gowns are made alike this sea- est modes, and if there are no radison. Usually the silk underdress is cal changes we are disappointed, so made princess and fits the figure like fond are we of variety. However, the a glove, rippling down gradually into season is still young and the lack a sweeping and very long trained of new lines may find a recompense circular skirt, with a half fan effect in novelty and beauty of fabrics.

the knees in front. Over this princess gown, perfect in its simple elegance, and a beautiful boilet of itself, though untrimmed, from a deep hip yoke, with skirts the tail and draperies swirl across to talls the glory of rich lace, a perfecto ent and long empire gown along that question of skirt length is being true empire period lines, but abso- agitated, and French modistes have butely graceful in every detail, asithe k princess gown shows well beneath through the fall of fine, thin lace.

Frequently the style is changed so that the lace will fit the figure, with the slik either in front or in back. One marvelous gown on this order is of an ether blue silk that shades into an exquisite silver. The lace overdress is of point de Venice. The empire cut is perfect in back, but in front the lace is divided and fits the figure, leaving an opening of about five inches to the hem of the skirt.

The loose empire effect is not lost, but is carried out by flat bands of pear passementerie, which are hung loosely within the opening to a line below the waist, where they are caught by a cross band of the pearl trimming and continue held down to the skirt bottom. Within the open- five inches between the clusters. A three and four, but for the street children of Israel, the Lord called that both thou and thy seed may ing is a sprinking of pearl sequine on white point d'esprit.

Bradstreets' on Frade. At Montreal this week there has Toronto to their routes again this week and have since been sending in some liberal sized orders. At Pacific Coast trade centres, according to reports to Bradstreet's, there was plentiful now that bountiful crope country markets are comparatively light and trade is a trifle slow in some cases as is usual when the farmers are busy at this season. The factories and mills are busy with orders on contracts and have little or nothing to job, so that values are firmly maintained in most departments of trade. The outlook for the

fall is very promising. In London there has been a fair movement in fall orders, and large shipments have already been made on fall placing orders. Ottawa trade circles are quite active now that the sorting trade has got fairly under way. Values of staple goods are firmly held.

MUSIC OF BEETLES
