DEAFNESS CANNOT BE CURED

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by the Eustachian Tube. When this tube is in flamed you have a rumbling sound or imper-fect hearing, and when it is entirely closed. Deafness is the result, and unless the inflan mation can be taken out and this tube restored to its normal condition, hearing will destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

#### TOP AND BOTTOM.

The Man Below Sees the Millionaires Fatten and He Thinks.

Multi-millionairism is also probably answerable in part for the present trouble. The workingman hears of a multi-millionaire selling out for three hundred millions, after drawing an enormous income for a series of years, and he naturally thinks that he is not getting his share, and to get it must go on strike. He does not see that the pile of a multi-millionaire is exceptional, and largely the product of protectionist tariffs, for which he was very likely himself been deluded enough to vote. The incomes of the middle class, the farmer, the professional man, the storekeeper, the clerk, have not been increased like that of a master of a trust, nor can they afford to pay much more for their coal than they have been doing. Many of them, in fact, are the last people on whom the screw can be reasonably put .-Goldwin Smith.
