A TRYING TIME

Girls are Merging Into Womanhood

Marked by Pale Faces, Heart Palpita- of some quality without which no Condition.

After babyhood, the most perilous! time in a young girl's life is when she is just entering womanhood. It is then that she is subject to headaches, dizziness, heart palpitation, feeble appetite, and bloodless cheeks and lips. This condition may easily develop into consumption, and to prevent this-to keep the young girl in good health and strength, mothers should insist upon their taking a blood-making tonic, such as Dr. Williams' Pink Pills. Mrs. Henry McIstyre, Port Dalhousie, Ont. give; sound advice to other mothers In cases of this kind. She says: " About three years ago the health of my daughter, Bertha, began to fail. She grew weak and seemed un- angry for what I had forgotten. able to stand the least exertion.
