

THE HORSE MARKETS

The following is a synopsis of an address delivered by Dr. J. Hugo Reed, one of the expert judges employed by this department at the recent Charlottetown Fair.

If a man is breeding for the market he should find out what the market demands and then make up his mind as to what style of horses in demand he can produce at most profit to himself. The best selling horses to-day are heavy draughts, carriage horses and saddle horses.

Prince Edward Island is certainly in a position to produce good heavy horses. The Clydes are a good breed and seem to be in most demand. The stallions at present owned on the island when mated to good mares will certainly produce colts that will sell well. A reasonably heavy mare of good conformation is required. There were instances on the grounds where Clyde stallions were used to mate to standard bred blood. The progeny were non-descript of no particular use, and this is the general result of such violent crossing.

The distinction between carriage horses and roadsters is evidently not well understood by exhibition managers or people in the Maritime Provinces. There are two distinct types of horses, and should not be judged in the same class. There should be provision at least for a single roadster in harness and a mated pair.

The distinction between Roadsters and carriage horses is not a matter of size, or of breeding. The road horse is valuable for his performance in getting over the road; the carriage horse for his attractiveness, his style and action, in addition to his good qualities. The carriage horse in demand to-day must have action, high action, folding his knees and locks well, and he must do this no matter whether going five miles an hour or fifteen. He must hold up his head without the aid of a check, and always look proud. In size he may vary from 15.2 hands to 16 hands or even slightly over. As a general rule the carriage horse should be more substance than the roadster, be more horizontal in the group, and have a high, proud head. The road horse with low action and perhaps low head may go faster and farther and last longer than the carriage horse, but he is not so much in demand. In the large markets, Chicago, New York, Detroit and even Toronto, the carriage horse may sell for from \$6.00 up to \$15.00. The road horse will bring from \$1.50 up.

Breeding Carriage Horses—Standard bred owners claim that their stallions will get good carriage horses. This is true to some extent, but the percentage is very small. The surest way to get carriage horses is to use a stallion with the desired action. He is best got in the Hackney or one of the coaching breeds. Personally I prefer the Hackney. The Hackney is a good breed. The standard bred, impress their individuality upon colts from mares of coarse type and cold blood. Kilwick Fitzroy, the Hackney you have here, should be able, if intelligently mated, to produce a good type of carriage horses. To get carriage horses by the use of a thoroughbred sire, you must have mares of high action, for the thoroughbred's natural gait is a gallop or run; he has long, low action. He is, however, the purest blooded animal in the world.

Referring to the term "thoroughbred" the word is much abused. It can only be correctly applied to the English thoroughbred racing horse or the pure bred descendant. The word cannot be applied to a Clyde or a Hackney, nor a bull, a ram or a boar. Such animals may be pure bred, but never thoroughbred. The thoroughbred stallion, from his purity of breeding, can give better results than other stallions, with rough and cold blooded mares, and will often get the influence of the thoroughbred blood that has produced the standard bred trotter of to-day. It is his thoroughbred ancestry which gives him his courage and endurance.

Saddle Horses—As above indicated, saddle horses can best be got by the use of a thoroughbred stallion. Mares of strong conformation should be chosen. Strength of loin and quarter is an all-important necessity in a saddle horse. A good general purpose mare can be used and will give saddle horses for heavy weight riding more surely than mares of finer breeding. Good saddle horses are perhaps the most difficult to bring as good prices as the carriage horse.

General Principles—Whatever line of breeding a man may follow he must have a definite object and know what he is doing. There are now on the island a good many mares that would mate well with the thoroughbred and hackney or coach stallions. I would not use a coarse or cold blooded mare, but would endeavor to get the standard bred or other warm blood. As a general rule, a good driving mare will cross well with a hackney. If Government inspection of horses, such as is carried on in Quebec, could be carried out from political intrigue, it would be a good thing in any country. The horsemen have, however, the whole question in their own hands; the scrub stallion only exists because he is patronized. If breeders demand pure-bred stallions the scrub will have to go out of business. Some farmers seem to think that because they have not got a choice mare, it is not worth while to pay stallion, but they take a scrub at from \$4 to \$8. This is a great mistake; if a mare is worth breeding at all, she is worth breeding to the best stallion procurable. The great need of the horse business is more intelligence and enterprise among the horsemen rather than Government regulations.

Consumption

Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

A sample will be sent free upon request. Be sure that this picture in the form of a label is on the wrapper of every bottle of Scott's Emulsion you buy.

Humor of the Day.
"Lightning knocked the church steeple down," some one said to Brother Dickey.
"Yes; Satan's eyes always flash fire when he sees a church steeple going up."
"And here's a colored brother killed another at a camp meeting."
"Yes; Satan goes for meetin' long and do res' or dem, en sometimes shows de loines."
"And a preacher was drowned in the river last week."
"Oh, yes, Satan's in de water, too. He 'blege ter go dar ter cool off."
"So, you blame everything on Satan, do you?"
"Bless God," was the reply, "ain't dat what he's fur?"—Atlanta Constitution.

Piles
To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding, protruding piles, the manufacturers have guaranteed it. See testimonials in the daily press and ask your neighbors what they think of it. It costs you no money back if not cured. Get a box at all dealers or EDWARDS, BATES & CO., Toronto.

Dr. Chase's Ointment
Says Mike to Clancy.
"Kape alive, Mike; we're rescuin' ye!"
Voice from the Debris.—Is big Clancy up there wid ye?"
"Sure he is."
"Let him wud he be so kind as t' stop af the ruins. I've enough on top av me widout him."—Tit-Bits.

HER BOW TO SOCIETY.

How Shall a Girl be Introduced During the Season of 1902-03?

How shall a girl be introduced?—at a reception, at a dance, or at a series of dinners given by the immediate family or friends? The old-fashioned reception covered a multitude of sins, for it was possible, even with an enormously long visiting list, to give an entertainment and not hurt any one's feelings since all ages could be included in the invitations and, like a wedding, many individuals of social standing, who had not taken any prominent part in social life, could be remembered. For the last few years, however, these large afternoon receptions have been going out of fashion.

Four days often are chosen when the mother and her daughter receive their friends. The idea of the four days is that there may not be too many people present at one time. The difficulty is that each one of the guests is likely to wait until the last day, so that the dull and tedious afternoon socials are unbearable. With a long visiting list, even after it has been revived by some social mentor, it is impossible to give to every guest the acquaintance to dinner, and to go through the list would be to take up every evening during the season. A dance can include but one set, or at the most, two—the debutantes and the younger married people—and then the four will be no end of heart-burnings and jealousies, for few private houses have ballrooms large enough to invite everybody who is desirable and to maintain a dignified and pleasant reception card to a favored few. But this problem has to be faced by many mothers of debutante daughters of 1902-03, and consequently there will be every form of entertainment given. The old-fashioned reception card to the effect that Mr. and Mrs. and Miss Blank will be at home from 4 to 7, will be the accepted form of invitation, and Mrs. Blank and Miss Blank will receive Mrs. Blank's and Miss Blank's friends (and enemies) while Mr. Blank will put in an enforced appearance late in the afternoon. In this way at least two thousand persons can be disposed of.—New York Herald.

As Fire Spreads in Dry Grass, so does an inflammation in the throat grow down into the lungs. It is a common mistake to suppose that when you begin to cough use Allen's Lung Balsam.

Those Girls.
Coriella—Are you going to hang up yer stockings on Christmas?
Hortensia—Well, I ain't got ter let them hang down like yours.

A BOON TO HOISEMEN—One bottle of English Spavin Liniment completely removed a giant spavin from a horse. I take pleasure in recommending the remedy, as it acts with mysterious promptness in the removal from spavins, splints, curbs, swellings, stiles and sprains.

GEORGE ROBE, Farmer, Markham, Ont.
Sold by all druggists.

New Variety of Sunflower.
A German florist has produced a new variety of sunflower which he calls the giant Bismarck, or Helianthus Annon in German. It is a giant in every respect. That it is a giant is evident from a photograph. The stalk is fifteen feet high and four inches thick and the flowers measure eighteen inches across. To obtain these results it is necessary to grow the seeds in groups of two or three where the plants are wanted.—for the sunflower does not stand transplanting.—destroy all but the strongest of each group of plants and when this is done five feet high cut off the lower leaves and buds and so throw all the strength of the plant into the crown.

Minard's Liniment Cures Diphtheria.
A Determined Widow.
Lawyer (to the widow)—The law gives you a third, madam.
The Widow—Well, I'm not going to take any chances in that direction. I shall proceed to hustle for my third, just as I did for my first and second.

Hard on the Doctor.
Old Lady—My husband's never did 'old with doctors, and 'e wouldn't let me send for yer till 'e was real bad. What's wrong with him, doctor?
Doctor—Malignly senility, Mrs. Williams.
"Old Lady—Lor', now! And I despay 'e wouldn't 'ave 'ad it if 'e 'd 'ad yer soon enough."

Too Common.
Kansas City Star.
A small boy was taught the Lord's Prayer and found it much to his taste. For a few days he kept it going with great assiduity, but then he announced to his mother in a satisfied tone:
"I heard another fellow say that prayer to-day, mother. It's going to get all around town."

Part of the Bluff.
"Why," she finally ventured to fainter, "do you look so sad when we are sitting thus?"
"Because," he answered, gazing tenderly down into her troubled eyes, "a man always looks sad when he holds a lovely hand."
She was something reassured, although she did not altogether understand.

A Timely Suggestion.
At a camp meeting there were elderly women sitting at the front in oak-split rocking chairs. We found out later that they occupied the choir, for when the parson gave out the hymn, "Oh, for a Thousand Tongues to Praise," one of these elderly females tried to "raise" the tune.
"Oh—for—a—" She had struck the high C, and her voice cracked; she cleared her throat and began again. "Oh—for—a—thou—" and she was an octave low, while her voice sounded as if it was lost in her boots. Just then a detestable stock broker in the crowd of listeners jumped to his feet and cried out, "Start her at five hundred, old lady, and see if you can't shove her off."—Harper's Magazine for July.

Her Last Word.
Feminine Egotism—Husband (during the meal)—I must have been a fool when I married you.
Wife—Undoubtedly. But the adage still holds good.
Husband—What's that?
Wife—A fool for luck. — Chicago News.

A Modernized Version.
Montreal Star.
Life is real, life is earnest,
And the grave is not its goal,
Its great aim, thou sadly earnest,
Is to get sufficient coal.

Many of us might be happy if we did not suffer from disorders of the liver. Then we ought to use Dr. August Koenig's Hamburg Drops, which cure the disorders and bring the whole system to a healthy condition.

Football Illustrated.
Buffalo Commercial.
A Bowdoinham, Me., farmer saw the Bates-Bowdoin football game at Brunswick. A neighbor asked him about it. "Nothing to tell," he said. "Just let 20 big hogs out in a soft field any day and then throw down a peck or so of corn in a sack and see 'em go for it, and you'll know 'bout what a game of football looks like to a farmer."

A Good Talker.
"Cinquillo is considered a pretty good talker, isn't he?"
"So people say. I have only heard him speak once myself."
"Why, when did he first get up?"
"Why, when he first got up he remarked that he had nothing to say, and he said it for just forty-five minutes."

Minard's Liniment Cures Distemper.
More to Follow.
Baltimore Sun.
Sylvester—She is a woman with a past, I understand.
Randolph—Yes, and more coming.

Charging Women Less Than Men
At the old fashioned inns and restaurants in Sweden it is customary to charge less for women than for men on the theory that they do not eat so much. At some hotels in Sweden a man and wife are charged as one and one-half persons if they occupy the same room. A husband and wife may travel as one and one-half persons by railway, and also by the post routes, furnishing their own carriage.

VICTORIA REINCARNATED.
Strange Story Circulated by Buddhist Priests in Burma.

The "Times of India" tells a pretty story about the Burmese belief in the transmigration of the soul of the late Queen Victoria. It is well known that nowhere is the memory of that Sovereign more deeply cherished than in Burma, and in her life that reverence was most marked in many ways. Few, however, imagined that there was anything in it more than the loyalty which most of the oriental nations upon British away exhibit. But according to the story now told, there was a deeper reason for the exceedingly marked demonstrations of regard for the Queen. The "Times of India" says: Since her death the story has grown up, and is now told seriously to their disciples by Buddhist priests in Burmese monasteries, that in the transmigration of souls, in which the Buddhists believe Queen Victoria was once a Burmese maiden. In the beginning of the nineteenth century, they say, there was born in Rangoon a daughter to a poor Burmese couple. The pair were happy by trade, and their daughter helped them to sell fried and boiled peas in the street. Later on the girl took to selling flowers, so that she might have the wherewithal to make floral offerings at the Buddhist shrines. She became known throughout Rangoon for her piety and gentleness, and when she died Gautama Buddha granted her prayer that she should be born again where she could do the maximum of good to her fellow beings, and her soul passed into the cradle of the infant Victoria.
