tire her out, says I, and let Beauty yawn or pay in gratitude. So I sat on in the saloon, making conversation as it seemed fit to me to serve one of her class and age. No doubt she was tired for the hour was about two in the morning, yet her pretty yawn, which she feigned to cover with her hands, vexed me. But indeed I might have gone forth and left her there and then for very shame as would have been natural, tive system of testing dairy cows, every two weeks. had it not been that an excuse came to aid me in a message from Sir Philip, who had recovered under the attentions of the surgeon. He had learned, it seemed, that his rescuer was in the house and begged that he might be allowed to thank him in person presently. This set me in least, feather, but miss in the sulks, as I thought, which maddened me the more that the hussy should prove so ungrateful, particularly at a time when she should be showing concern at her adventure, or, at least, grief for her guardian. Yet as I watched her, perish me but she charmed me with her petulant prettiness the more. Such a dainty head and a mouth so pert and alluring I had never yet clapped eyes on, which I saw for all that followed.

There, then, were we set, awaiting Sir Philip, in the big chamber, she yawning without disguise, and me racking my wits to attract her. I'll warrant she must have taken an idea of me as a buck of town, although sumed.
