—Britain and the United States have agreed to arbitrate the vexed Alaska Boundary question but as there are to be three on each side and no referee, there is a prospect of no settlement being reached. Even should the British (which includes one Canadian) convert one of the Americans, the Senate of the United States has power to cancel the agreement, though Britain has no such loophole.

A COMFORTABLE AND ARTISTIC HOME. Homemakers will be interested in the "all-around house" described in The Delicador for February. The example is a house of moderate cost, equipped with modern conveniences, and in arrangement artistic and comfortable. The well-known but often-violated principle of architecture that buildings should be in perfect accord with the environment is exemplified in this case; and the interior, in decorations, furnishings and practical workings is a model of taste and convenience. The illustrations offer numerous suggestions that can be carried out in other homes.

A New Year's Resolution. The best resolution that we have seen for the New Year is the following: "Let us make 1903 the happiest year in our history. In society more simplicity; less show in use of money; more extravagance in benevolence. In politics more independence; less partisanship, in church more practical religion; less controversial theology; in home more love, less fashion; in our personal lives more hope, faith, charity, less cynicism, shame, and selfishness."

What's the Price To-Day? The farmer who already knows the market prices for grain and produce need fear no combination of buyers when he goes to market. How often the buyers "get together" on prices every farmer knows. How often has a farmer sold his grain in one town for a couple of cents less than the buyers were paying in a neighboring market? It pays to keep posted on the markets. The Toronto Daily Star has the best market reports of any city paper. It has men who do nothing else but study the markets—who give it all their time and attention, and you can get all this information in the Star every weekday for a year and your own local paper as well for \$2.20.
