THEY STUDY AT HOME.

Why German School Hours Seem Longer Than They Really Are.

In Germany the law requires that every child attend school from the age of six up to fourteen. Parents are compelled to pay a fine in court if their children are absent from school without good cause, and the afternoon; and in the warmer months from seven to eleven and from two to four. These hours are shortened for the younger children. On Wednesday and Saturday afternoons the schools are closed. What day. seems strange to us is that all the from two to three, the intervening time being spent at home in play or study. In consequence of this out-of-school study, all books, peneils and stationery are taken home at the close of the morning and afternoon sessions. This has given It has been said that a good drinker rise to the use of knapsacks by both

MYSTERY OF A LOST RING.

It Got Around a Mouse's Neck and Strangled Him to Death.

I was told a true lost-ring story the other day which I believe has never been in print, although such may be the case. A well-known society woman suddenly missed a valuable diamond ring from her finger. It was a ring she seldom removed, but all that could be remembered about it was that she had just washed her hands. Fearing it had slipped opened, with the faint hope of finding the jewel, but without avail, and sorrow reigned in the household, for the diamond was not only intrinsically valuable, but a dearly prized souvenir. Some time later the set bowl in the bathroom had to be replaced, and when it was removed, lo and behold, crowded in behind the water pipes was the sekleton of a mouse, and round the skeleton's thread of a neck hung a diamond ring. Identification was immediate and the mystery quickly cleared up by the poor little beast. He had feasted on a box of bran which milady kept to whiten her fair hands, and into which she undoubtedly dropped accident, slipped it over his head, but in trying to escape with the loot he died a felon's death.—Boston Herald.

An Undesirable Loss.

"Why are you in mourning?" "Oh, for my sins." "I didn't know that you had lost any."

A Place of Interest. Nearly every deputation or convention visiting Toronto make a point of inspecting the great imple-

ment works of Massey-Harris Co.

Limited.

Last week the curlers who have been touring Canada, paid a visit to the works, and were much surprised, not only at the extent of the same, but at the wonderful methods of manufacture employed. The plant is certainly splendidly equipped for making the world's best harvesting implements.

A Yankee's Yarn. We have always been given to understand that America is a big country, and that everything in it is bigger, better and more curious than this side of the Atlantic, but we presume that even in the land of the Stars and Stripes there are not many animals as described below. It appears that some men were relating their experiences of wonderful animals, and it came to the Yankee's turns to speak. " never had any very remarkable animal," he drawled, "but I once had a goat that gave me a lot of trouble. I got so mad with the things it did, I threw things at it that would have killed any ordinary goat, and now and again, in the hope of ridding myself of it, I had a shot at it with my rifle. It did not seem to mind. One day when its behavior got past endurance I got a friend to help take it to a precipice a couple of miles off, and there in the early morning we threw it over the cliff on to the the visitor. rocks 300 feet below. Well, we were sitting at breakfast an hour later, Elsie. "But then he ain't a very when we heard a noise in the yard, good baby." and looking up, saw the goat gambolling about, pulling the washing living at 92 Cornwallis St., writes: "I have been off the clothes line and chawing a sufferer for six years from rheumatism. \$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
