JORDAN & BURNETT

Next Door To Mockler's

YEOVIL.

Mr James Swanson is seriously ill at present.

Mr Hugh Neilson, one of our pioneer settlers died on the 28th ultimo. He was in his 88th year having been born on one of the days on which Waterloo was fought. He was never married and is survived by his brother Jas., a widower.

Mr Alex Reid is very low from lung trouble.

Mr Jas Renwick intends leaving here to begin farming at Sackett's corners.

The spring freshet is very high, the high way being flooded at present.

No account having reached us of the death of the late Mrs McInnes we append herewith the following account from the Confederate of last week:—This week we report the death of Agnes Forsyth, eldest of the late Malcolm McInnes, of Burnbrae Farm, lot 14, con 13, Egremont, near Yeoivil. The deceased lady was the eldest daughter of the late James Forsyth, for many years shepherd to Lord Blantyre of Erskine, Renfrewshire, Scotland, where she was born on November 28th, 1816. Mr and Mrs McInnes were married in August 1841, and lived for about two years in Greenock, afterwards removing to near Glasgow, where Mr McInnes was engaged for seven years with Robert Napier and Sons, shipbuilders on Clyde. In 1854 they decided to come to Canada and after a somewhat tedious sea voyage in a sailing vessel reached Egremont in September of that year where the deceased and some of her family have lived ever since. She had seven daughters and two sons, of whom all but two daughters survive her; Mr Archd McInnes, Charles and James at Yeoivil, Mr MacLachlin and Mrs Patterson in the State of Washington, Mrs Archibald Ray, Mount Fort and Mrs J. S. Mark, Orford. Her grandchildren number 45 and her great grandchildren 10.

The deceased always took a deep interest in the spiritual as well as the temporal welfare of her family, teaching by word and example and administering to the comfort of those about her all her life.

Her husband died 16 years ago. She was active in body and mind and attended to her household duties on Tuesday, the 17th as usual, retiring about nine o'clock. In the morning she spoke to her grand-daughter who was with her and went to sleep peacefully, and quietly slept till she departed shortly after noon. Her end was peace. She was in her 87th year, and in point of years the oldest member of Fairbairn Presbyterian Church.

As an illustration of her careful habits it may be mentioned that her body was dressed in the bridal robes she wore 62 years ago, carefully preserved by her for this occasion.

Her funeral took place on Saturday, Feb. 21st, when her remains were laid to rest beside those of her husband and daughter Mary, who were the only members of the family that had died since 1852.

The pall-bearers were: two grandsons, James McEwen and Malcolm J. McInnes; two sons-in-law, Archd McEwen and Archd Ray, and two relatives, Arch. McLarty, N. Dawson, and Thos. Mann, Simco.

HOPEVILLE

Married by the Rev Mr Addison, the first he married since ordained, Mr Thomas Wilton to Miss M McQuarry at Hopeville in February.

Died—Mr Joha Campbell, age over 77 years, at his residence near here on the 22nd February. The funeral took place on 24th at the Latter Day's Saints Church. Rev Mr Morrison, officiating, assisted by Elder McGregor of St Catharines, son-in-law to Mr Campbell. Mr Campbell was one of the pioneers of Proton, came here before the land sale and took possession of two lots one mile north of where Hopeville is now and has been known since as Campbell's Corners. Mr Campbell, like his brothers, was a hardworking, industrious, honest man and made both wealth and respect for himself and family. The Campbell's in coming to Proton had come direct from Scotland and was in religion Presbyterian, although Mr Campbell's family joined the Latter Day's Saints Church, the deceased still being firm and died a Presbyterian and instructed his family to have his old friend and pastor Mr Morrison, the old pioneer minister of Proton, officiate at his funeral. Mr Campbell never got over the accident of being thrown off a horse rick by a wild horse running away last harvest, an account of which appeared in the REVIEW at the time of the occurrence. Mr Campbell leaves to mourn his departure, a widow, six sons and two daughters, besides grandchildren and other relatives. The funeral was very large and six sons acted as pallbearers. Mrs Campbell was a faithful nurse during her husband's illness, about six months from the time of the accident which caused his death, until his departure. She was nearly worn out and has now taken a trip to St Catharines with Mr and Mrs McGregor, her son-in-law and daughter to recuperate her health.

Mr Ham Allen, blacksmith, has sold out his property here to A Ferguson, of Cedarville, a former apprentice of his, and has rented a residence and is going into other business. It is reported here that he will study for the ministry and go out as a missionary, which is very likely as he is well adapted for the calling.

The Hall vs. Robinson stabbing case has been renewed here lately and is not likely to be easily settled as more lawsuits have been entered and as this has got to be the most noted case in Proton for years past, we think it best to give a correct report of the affair as far as it has gone or we have got the information. Richard Hall, who lives about two miles south of Hopeville, had some law suits in a Magistrate

Court in Dundalk with some of his neighbors and Amos Robinson was subpoenaed a witness against Hall. After the court was over Hall accused Robinson of giving false evidence against him. A fracas started in a hotel but they were put out. The quarrel continued in the yard where the stabbing was done. A doctor had to be got to stitch up one of the wounds. Hall was arrested, at his home next morning and a trial was called, a settlement was made by Robinson receiving \$10 and Hall paying all costs, altogether \$20.

All appeared settled, but Robinson's father not being satisfied laid the case before the County Attorney, who instructed Alex McPherson, J. P., to take action in the matter. Mr McPherson, a Proton farmer, living in a nice pleasant valley, called New Egypt, had Hall summoned to Court at his residence on March 4th. The day was fine, a sleigh load of witnesses came from Dundalk, called at Hopeville to get information, &c. They were informed that New Egypt lay between Hopeville and Cedarville surrounded by cedar and tamarack swamp. They procured a guide at our village and set out arriving at the appointed time 2 o'clock p. m. Here the J. P. was waiting with John McLaughlin, J. P., of Cedarville, as an associate, a large number of witnesses from the neighborhood and visitors, looked like it there was something uncommon to make such a stir. But as large as the crowd was Richard Hall was not there, after waiting over an hour two constables were sent to his residence with a warrant to bring him before the court, but no Hall was to be found. Reports say that he was driven to Fisherton in the night to get the early train, when he would knock the Proton snow off his feet. Again we hear a report as if coming through the wind that a very warm friend of Hall's will have one of the prosecuting party in the Court for not complying with the law of our land, such as having more wives than the law allows. We are waiting patiently to hear more of this case.

Cut in Two

The prices in our Clothing have been cut in two to make room for more goods. Just note the prices below:
Boys' Reefers \$2.50 Boys' Overcoats \$2.75 Boys' Suits \$3.75
Men's " 2.50 Men's " 5.50 Men's " 5.00
No Shoddy. Good Fitters. Good Quality. "not shop-worn."

This is no Sale

We are simply giving you Winter Goods for almost nothing. Our rule is to carry no Winter Goods over. The price must get them out of here.

The Very Newest

Hats that can be procured have been placed in our Store. Nothing later, nothing better, nothing nicer.

Prepare For a Rainy Day

And get one of our Waterproof Coats. The finest lot that ever entered this town. Prices range from \$3 to \$13.50.

Sampson Walker, President Walker Oil Co., Winnipeg.
Bankers—The Bank of Hamilton.
Solicitors—Campbell and Crawford.

OBJECTS OF THE COMPANY

The Manitoba Cement Company has secured incorporation for the purpose of manufacturing a high-grade Portland Cement. It owns one of the most valuable cement deposits in Canada, located south of Morden, S 1/2 Sec. 4, Tp. 1, Rge. 6 west. The raw material has been thoroughly analyzed by the highest authorities on cement and pronounced by them suitable for the manufacture of a superior quality of Portland Cement.

When the plant shall have been completed the Company will own material sufficient for at least 200,000,000 barrels of cement, and a mill capable of converting this material into cement of the highest grade, and by reason of its position and open market in the West, can without question manufacture and market its product at a maximum profit.

USES OF CEMENT.

Among others, Portland Cement Concrete may be used with advantage for the following purposes:—Bridge Piers, Foundations, Chimney Stacks, Sewers, Canals, Sidewalks, etc., for which it is more lasting and much cheaper than stone or brick. The demand for Portland Cement is rapidly increasing in the West, where building stone is scarce, and by the time it can be put in a 1,000-bbl. mill will not nearly meet the demand. All cement used in Manitoba is at present shipped from Ontario, the freight being \$1.20 per bbl. The Manitoba Cement Company will, therefore, have practically no competition in supplying Manitoba and the North-West Territories.

PROBABLE RESULTS TO SHAREHOLDERS

The following statement of probable results to be secured is based on a very conservative estimate of cost and selling price:

Average selling price per bbl. at factory...	\$2.25	Gross Annual Profit.....	\$315,000
Cost per bbl., incl. office and gen. expenses...	\$1.20	Sinking Fund.....	\$20,000
Profit per bbl.	\$1.05	Repairs and depreciation.....	\$50,000
Annual output, 300,000 barrels.		Total annual profit for surplus and dividends.....	\$245,000

N.B.—The present wholesale sell price of cement in Winnipeg is \$4.00 per bbl.

THE PLANT

The Manitoba Cement Co. will have associated with it a staff of the most competent, practical and thoroughly experienced engineers, who have superintended and designed the construction of some of the largest and most successful mills in Canada, United States and Europe.

The proposed plant of the Manitoba Cement Co. will have a daily capacity of 1,000 barrels of cement and will be the first cement mill in the West to use the latest and improved Rotary Kiln Process, which represents the most advanced ideas in cement manufacture. The buildings will be constructed of brick, cement and steel, and will be fire-proof throughout. The entire plant will be electrically driven by the direct current system.

The stock is now offered to the public at par in shares of \$5.00 each, 25 per cent. payable with the application for stock, the balance to be called by the Directors as required. Such calls not to exceed 25 per cent. of the amount subscribed per month. Applications for stock should be addressed to the Company's Fiscal Agents, J. F. H. Ussher & Co., 28 Wellington Street West, Toronto. Remittances should be made by cheque, post-office order or express order, payable to the Company or their agents. Forms of application for stock and the Company's large Prospectus may be obtained from
