Cases in Which the Great Kidney Remedy Conquered.

Reliable Victories Over the Dread Disease.

(From Mail and Empire.) : So great has been the interest in Toronto over the cure of Bright's four boxes and am now cured of Disease, reported from Shubenacadie, the first stages of pains.' Nova Scotia, that a reporter yesterday visited the head office of the Dodds Medicine Co., 62 Yonge street, Toronto, to ascertain the views of the management concerning the case. He found the management satisfied, but by no means surprised.

"No," was the answer to the re- remarkable case, indeed, so reporter's question. "We are not sur- markable that we afterwards got him to make his statement under prised that the public generally are at length being ferced to the concluoath before a notary public. sion that Dodd's Kidney Pills will cure Bright's Disease. We have known ploy of the American Bank Note Comt for a long time ourselves. The Parker cure is only one of many of which we can furnish proofs.

A Specialist's Prescription "The troubles in these cures have been made by what is termed a 'patent medicine.' Had they been made by a physician in the regular way, and that physician had been able to tell exactly now he brought them about, they would have been talked of learnedly from one end of the country to the other. But when people talk about our cures there is a tendency to say, 'Oh, that is only a patent medicine advertisement.

"They forget that Dodd's Kidney Pills are the life work of a doctor. that they have been uniformly succassful in treating all diseases of the Kidneys, and that the only feature in which they differ from regularly obtained medical advice is that the prescription of a specialist is given the public at popular prices.

No Room for Doubt "Now, you have seen the particulars in the Parker case. Nobody can

doubt for an instant that that was a veritable case of the 'incurable' Bright's Disease, neither can anyone doubt that the cure was effected by Dodd's Kidney Pills and by no other agency. Of course it took time and perseverance, but the patient was in the last stages of the disease before she started to use Dodd's Kidney Pills. Had she startal sooner the work would have been easier and the results would have been obtained much more speedily. It was an extreme case and took
